The Dalles yesterday, but none of them was unloaded. The steamer brought up a good supply of apples, pears, plums, lemons and grapefruit. Bartletts were numerous, and declined to \$1.50 for some offerings. A shipment of cantaloupes was received from Pay-ette, Idaho, and brought \$3 a crate. Blackberries were more plentiful, and were held

berries had been shipped and \$18,616 received There are still many outstanding accounts, but these are being collected daily. The association is receiving orders for canned goods and sample cans are sent out for in-

HOPS MAY REVIVE SOON.

Active Market Is Expected Before the Month Is Ended.

The deadlock in the hop market continues aber of offers on hand, but are not disposed to advance their bide. It is likely that after the 20th of the month the market will show activity, as some covering will have to be done them. James Linn, of Salem, was in town yesterday actting ready a hop float for the Elke parade. He says the yards on the whole are doing well, and he expects a crop around 100,000 W. W. Cotton states that his ward this county is in good condition, and has suffered from the drouth.

Bridge and Neighborhood-Excepting that of the Early Whites, burr is as profuse as the blue, and promises to be an imposing sight when fully developed. Bethersden-Mould is reported in some gar-

Betherwien-Mould is reported in some garders and growers are sulphuring this week. The hope are conting out into burn very fast. Biddenden (Wesió)—The hine is making good progress, but since I hast wrote I find red spider has come and is surmading fast. Growers are watching their progress, and if they continue washing will have to be done. The prospect of a good crop is not so favorable as I thought If was hast week.

Canterbury—The development of the burn on the Bramlings is quite satisfactory, and the latter varieties are also doing exceedingly

both quantity and quality. However, the vigorous bine, and strong laterals pushing out burn are a sight to gladden the eyes of every grower who is old-mahloned enough to expect to live by "the sweat of his brow."

May be do so? The New York Journal of Commence of Au-

gust 2 said:

Up-state advices reported stendy markots, and the outlook for the crop is a yield of 15 to 25 per cett less than last year. Cable advices have been received from Europe reporting that in Germany the crop is in need of rain, but that in Bohemia crop prospects are favorable, and that the German and Bohemian crops together promise to yield about 12% per cent more than last year. The spot market was steady.

Hugo O. Loewi has received the first bale of 1965 New York State hops, and same his gone forward to the Continental Brewing Company, of Philadelphia.

The June report of the United States Department of Agriculture gives the following statistics of hop imports and exports.

Pounda.

Imports for June 18,677
imports for 12 mon to July 1 4,389,379
Exports for June 0,012
Exports for Junes to July 1 14,858,612 Imports for June 917 Imports for 12 months to July 1.. 17.900

WHEAT MARKET WEAK.

Local Prices Now Are Practically on an Export Basis. wheat market yesterday was weak all round, and quotations were reduced from to 2 cents by dealers. For club, 71 cents as mooted in some instances, but the general the export value, but a further reduction is ary before wheat can be shipped at a Several fairly large sules have been reported in the past few days. Ruestem is quotable at 7397hc. Millers yesterday quoted valley wheat at II cents. It is not usual

Advances in Cured Fruit.

The firm position of the evaporated fruit parket has resulted in advances of 40 per from the opening prices. The prospect of a light output in California has caused a ecrumble among buyers. The local market is

The potato market has been weakened by heavy receipts from the country, with only a fairly good local demant. The average run of potatoes on the exceet are selling at 750 SSc, with 60 cents quoted for fancy. A said the shipping demand there would be late. Hops, Wool, Hides, Etc.

as I thought if was last week.

Canterbury—The development of the burr on the Bramilings is quite satisfactory, and the inter varieties are also doing exceedingly well. Since last week several growers have been washing, and it is believed that the lice have been cleared off.

Mandetone and District—The bine continues to make vigorous growth, and there is an exceptional show of burr, everything thus far pointing to a big crop. Some growers, he were, are of apinion that there will be too much bine, and that as a consequence the burr will not develop properly, especially if August proves to be a wet month. Cultication is well forward, and there is very little vermin.

Northiam—St. James day has now passed, and to all sulward appearance the general properly is for a crop of hops. But many

Outside Demand Gives Stock Market Strength.

LARGE SELLING ABSORBED

Day's Dealings Are Based on the General Conditions of the Country's Prosperity, Made Sure by Immense Crops.

NEW YORK, Aug. 16.—The speculative forces which developed in last week's stock market gathered in energy for a rush with the opening of the week, which swept the whole of the early market to a higher level of prices. The very large selling to take profits which the market had to encounter had increasing affects as the day progressed and increasing effect as the day progressed and gave the later market some appearance of weariness, but there was no mistaking the increased force of the miscellaneous outside demand coming from various sources through commission houses, which made their mani-fest in the circulation of large buying orders over Funday. The aufficiency of this new demand to absorb the large setting to take profits was matter for satisfaction to the ad-vocates of an advance in prices. The quiet-ness of the later demand, however, showed that the accumulated orders at the opening were not followed up in equal volume. The professional element was left rather obviously to take the market in hand again. This they did by the renewal of last week's taction of successive advances here and there in the market. The volatile high-priced stocks were largly in evidence, but some of those which figured most commicuously last week were

somewhat reactionary. The day's dealings, which made, on the whole, a broad and effective market, were based on the general considerations which were aiready making themselves felt last week. Principal of these is the crop outlook as defined by last week's Government report. Day to day research of weather conditions keep Day-to-day reports of weather conditions keep up the feeling of confidence in the outcome of the grain crops. Railroad officials, in the customary weekly reviews published today, spoke of the widening effect through all lines of business of the cheerful outlook over the crops, and induiged in some very rosests views of prospective railroad earnings for the new floral year. Available equipment is said to be of a diminishing scale, and fear of rust damage to wheat in the Northwest is alleged to have passed. Confidence is growing in the unprecedented

rield of the corn crop, and the corn grangers came into belated prominence in the later hours of today's market. Raw cooper had another advance, and the favorable reports from the iron and steel trade showed an un changed tenor. A good effect was produced by the report that the dispute over freight rates on certain articles as between the Atlantic and the Gulf lines had been settled, and the cutting of rates done away with. Attention was given also to reports that the purpose to call an extra session of Congress had been reonsidered, thus promising delay in the bring-ng forward of questions which are viewed ith some perturbation from the stock market

The progress of the Portsmouth conference was felt to promise well. Some attention was given to assertions that American bankers were being sounded with a view of sharing in s Russian loan. The flotation of a Russian-ioan somewhere is regarded as a necessary consequence of a prace treaty, and the dis-tributive effect in all the world's money markets of such a flotation leaves the question of the point chosen of rather secondary im-portance, so far as the effect on money rates Stocks made a substantial recovery late in

the day, the corn grangers again leading. The persistence of selling to realize made the closnis were freegular. Total sales, par value,

LIQUIDATION AND SHORT SELL-ING IN WHEAT MARKET.

Barley Options Decline Sharply in Sympathy - Cured Fruits Are Advancing.

SAN PRANCISCO, Cal., Aug. 14.—(Special.)
—Liquidation and chort selling during the early forecoon drove Decomber wheat down to \$1.34% in the local pit. A small rally followed, but the market closed heavy. The repeated slumps in Chicago prices and preseure to sell northern wheat here for forward delivery are discouraging to buyers. Spat wheat askide from fancy milling, was dult and weak. December barley declined sharply is weak. December baries declined sharply in sympathy with wheat, but cash prices chiefly for bright feed remained steady. Other cereals were duli and unchanged. Feedatuffs

shipping demand caused eastness in grapes.
Apples were quiet. The first Beliflowers are expected in a few days. All citrus fruits are well cleaned up and firm.

Cured peaches, apricots and prunes still have an upward tendency.

Beceipts of river potatoes were liberal but the market was in better shape. Fancy wilten are selling well to the local trade at 00 to 85 cents. Low grades are in good chipping demand at 40 to 50 cents. Salinas Burbanks are steady at 85-0\$1. Sweets are arriving freely and are easier at \$29/2.50. Choice onloss are steady as the Australian demand continues.

the crop, gave the wheat market a seminance of strength at the start. Minneapolis quotations came strong and accentuated the builtain sentiment. September prices at the opening showed isoffact to higher advance at Sings Sing. Subsequent news afforded little support for the upturn, however, and early buyers began to liquidate. As a result. September receded to Subsisting. As a creat, September receded to Subsisting on the Routhwest were liberal, and so were seiling orders from the Northwest. One report which induced seiling by pit traders told of an unusual number of steamers chartered for Autumn shipments from Russian scaports, and forecasting an encemous crop in that country. A rully occurred late in the session, due chiefly to shorts covering on a report of improved expert business. September closed easy he lower at Singsille. The corn market was affected by wet weather oc-valing throughout the Southwest. September closed oney, he lower at Singsille. The corn market was affected by wetweather oc-valing throughout the Southwest. September closed oney, he lower at Singsille. The heariness in grains was communicated to the provisions market, but after yielding a crife, offerings became light and business dragged. September pock closed unchanged, lard was up a shade and ribs were 10912be higher.

The leading futures ranged as follows: years.
At 332 East Oak street, August 13, John
Thomas Joyce, a native of Canada, ages 32 Crocker, a native of months and 25 days. At 465 Goldsmith street, August 12, George F., Infant son of Mr. and Mrs. Emoch Poster, a native of Oregon, aged 2 years 4 months and 4 days.

At 442 East Seventh street, August 11, to the wife of Frank Colvert, a daughter. Building Permits.
