Inspector Admits He Stamped Them as Approved by Superior's Orders - Government Loses Much on Contracts.

PHILADELPHIA, Aug. 14.-Investiga tion of clothing and other contracts at the Schuylkill arsenal, one of the supply de-pots of the United States Army, which was begun last week by Major Frederick Strong, of the Inspector-General's depart-

ment, was continued today.

There has been considerable trouble at the arsensi for some time, and frequent charges have been made that the Govern-ment was being defrauded out of thou sands of dollars through the furnishing of inferior goods by certain contractors. o far the inquiry has been confined to he contracts for furs. Among those examined by Major Strong

today were Robert Charlton and E. C. Beckett, assistant inspectors at the ar-senal. Charlton testified that he never passed goods that were not up to the specifications. He said that he had been offered bribes several times by contrac-tors, but had refused them.

Beckett said he had frequently put his stamp of approval on goods which he knew should have been marked inferior. He did this, he said, by orders of his su-

If they are ot modified especially in the matters of indemnity and territorial concessions, peace, it is thought, is impossible and the continuance of the negotiations useless. "The Japanese terms are regarded in Russia as demands which might be made upon an utterly crushed and powerless enemy, but it is abourd to propose them to a power like Russia, which has half a million men in the field facing the enemy. This army is in good condition and eager for action. It possesses many advantuges of position and the Winter is coming on, when naval operations would be impossible. ## ENVOYS LOADED WITH ADVICE

## Peace Advocates and Cranks of All Nations Write Letters.

PORTSMOUTH, Aug. 14.—The peace plenipotentiaries have been fairly deluged with mall from all parts of the United States, and now letters are beginning to arrive from other hemispheres. ARMISTICE TACITLY EXISTS

Should Peace Negotiations Fail, Battle Would Immediately Follow.

PORTSMOUTH, N. H., Aug. 14.-It attaches of both the Japanese and Rus ons that there will be no gen negotiations are on. Oyama is prepared to strike the moment the negotiations fall and there may be more or less outpost engagements while the troops are getting in position, but it is admitted on each side that if either Oyama or Linievitch should deliberately bring on a gen eral engagement which might cost 50,000 or 100,000 lives, his country would be ac-cused of bad faith in the negotiations here and would inevitably lose prestige in the eyes of the world.

In the larger sense, therefore, it can b said that an armistice already exists in Manchuria. Should the negotiations be vainly prolonged and it become evident that they were to be fruitless, the ad-vance of Oyama or Linlevitch might be the signal for the final rupture. The unexpected attack on Port Arthur might be repeated below Harbin.

Most Beautiful of Historical Roman-

Without doubt, "Audrey" is the most universally pleasing play ever given here in stock, and by long odds the most elaborately produced. Miss Moore excelled all of her former triumphs in her bewitching characterization of the child of the wilderness, the beloved of the knightly Haward, who came to be the greatest actress of the Colonial period, this "Audrey" upon whom Mary Johnson lavished her best genius. The Grand.

Angela May formerly with the "Silver Slipper," is the big stellar attraction at the Grand this week. Miss May is a contralto of wide reputation as one of the most interesting prima donnas, and her singing yesterday was all that was expected. Her imitations of Anna Held were done to the life and made a tremendous nit. Cole and Cole, a team of novelty acrobats, are worthy of special mention and strengthen the bill considerably. The Starkeys offer a sketch which is very good and in many res-pects different from the ordinary pects different from the ordinary work of that kind. Billy Durant is a monologist who entertains his audi-ence most effectively, while Fred Puris fully up to his Marie" Huntress, the female impersonator, is quite a marvel. The Grandiscope mo ing pictures are varied and interesting.

## The Baker.

After two weeks of minstrelsy, the Baker returns to its first principles and offers vaudeville again this week. Probably the feature of greatest interest to the public is Barney's trained animal show which includes "Ragah the performing gorilla, claimed to be the only one in the world. The rare beast is quite an interesting study for those interested in natural history. Other acts on the bill this week are Grayson Brothers, whose table acceptable performances are high double acrobatic performances are high grade. Leon Derenda, a Portland boy, who has won international fame as a

song singer made a hit with cis and Francis offer a highly amusing "The Return from the Masque- that all were lost. rade." Stanfield, the popular eccentric comedian is seen at his best in a number of original impersonations and the moving pictures close the show with "Wanted, a Dog."

## The Star.

This well-known place of amusement gives its patrons a big money's worth this week, presenting a very excellent vaudeville bill. Probably the best act on the bill is that of Drake & Co., who give a very funny little comedy sketch. This is a spiendid team and is well worth the featuring it receives. Mr. and Mrs. George H. Wilson, who make the claim of being the world's greatest wooden-shoe dancers, pleased im-measurably. The Gottlobs have a good act, which they can "A Shrewd Duten-man," while Mabel Howard, the Scotch nightingale, sings in fine voice. In the way of monologues there are few better than that offered by The Only Harrison. Roy McBrain, the Illustrated balladist, has a new song "For Many Years," which "goes" well and the Staroscope's moving pictures are good.
