IDAHO IS GROWING

A. B. Moss Tells of Great Development.

PREDICTION OF FUTURE

Its Agricultural Resources Under Irrigation Hold Wonderful Potentialities and He Believes It Will Lead in Mining.

"Idaho is not 'booming,' in the ordinarily accepted sense of that term," said A. B. Moss, of Payette, at the Perkins inst evening. "Idaho is simply growing-and you do not have to 'watch Idaho grow,' It will double its population within the next ten years, owing to the construction of storage reservoirs and canals for the reclamation of our vast tracts of arid lands. Ten years from now Idaho will have a population of 750,000, and remember that when the state was admitted only a few years ago its population was less than 100,000. That is going some."

Mr. Moss is one of the foremost citizens of the intermountain state. He has always been active in politics, and in 1898 was the Republican candidate for Gov-erner. He knew at that time that he was going down to inevitable defeat as the leader of a foriorn hope, but since then he has steadfastly refused to accept honors offered him by his party, knowing all the while that a nomination meant an election. He has always been "too busy."

Proud of His State.

"I'm from Idaho," said he, "and I'm proud of it. Show me the state that has made more progress than my own. From the eighth position among the mineral-producing states a few years ago, we have jumped to third, and will be first

a few more years.
"And don't overlook this: There are more acres of arid land now being recialmed in Idaho; there are greater irrigation propositions now under way in that state, than in all the other Western States combined. That's saying a good deal, but it's a fact. The Twin Palls ca-terprise above Shoshone Falls on Snake River, alone reclaims 270,000 acres of land. This camai is 80 feet wide on the bottom, 122 feet on the top, and carries a solid body of water ten feet in depth. I am told by Engineer Ross that not to exceed 1000 acres from this whole vast tract will be lost to cultivation because it cannot be covered by water.

What Irrigation Will Do.

"But this is only one of the many irrigation propositions now under way. The Federal Government is constructing a vast canal and reservoir aystem at Minidoka, farther up the Snake River. Irrigation enterprises are also under way on the Boise, Payette and Weiser rivers, at Lewiston and elsewhere, that require the expenditure of millions of dollars. This means homes for hundreds of thousands of earnest tollers.

Go into the idaho building at the Lewis and Clark Fair and look at the mineral display. See anything to best it? Look at the Coeur d'Alene nuggets of pure lead and silver weighing a ten or two each. Some of them are from Wood River; but they are all from the same state.

On the Political Outlook.

of the Northwest. So, the interests are mutual and identical. Idaho chased off after strange political gods a few years ago when the Populatic-Sliver crass struck us and the Fusionists carried the state by about 16,800 majority. Two years ago Idaho was redeemed, and the state went Republican by 6500. Last Pall Roosevelt carried Idaho by 28,000 majority, and the lowest candidate on our ticket was elected by over 16,000 majority.

He knows what he believes and has the courage of his convictions. No grafts flourist under his administration. No flourisk under his administration. No minor state officials are growing ridiculously riche in one short term. There are no exclusive franchises. Governor Gooding is, to state it briefly, giving the people of Idaho a cleancut administration, and I minor state officials are growing ridicuno exclusive franchises. Governor Gooding is, to state it briefly, giving the people of Idaho a cleancut administration, and I feel confident that he will be rejority two years hence, if he can be in duced to again accept the Gubernatorial

"Infernal New York." London Globe

Here in London we cannot realize the torture of a hot Summer in New York. There is space here, even in the poorest quarters. New York is the nearest ap-proach to the Black Hole of Calcutta that the ingenuity of man has yet devised. Everybody who can afford to leave the place files from the hot weather as if it

LOCATION WANTED BY DOCTOR-DO YOU know of one? Write Dr. Corn, Narks, Kan,

"Governor Gooding is a thorough busi-ess man. He is cleancut and decisive.

DAILY METEOROLOGICAL REPORT. ture, 74 deg.; minimum, 51. River reading at 11 A. M., 6.2 feet; change in past 24 hours, none. Total precipitation, 5 P. M. to 5 P. M., 01 of an inch; total since Septem-ber 1, 1904, 34.09 inches; normal, 46.44

Except a small shower at Port Crescent on the Strait of Fuca no rain is reported dur-ing the last 12 hours in the North Pacific States but the weather is cloudy and un-settled over the greater portion of Oregon and Washington.

It is much cooler in Idaho and Montaria and slightly warmer in the Sound Country.

The indications are for fair and warmer.
