The condition of the passageway was variable and was surely out of condition at times as the cartler-boys were slipping and failing occasionally. This presents a matter for the jury to say whether or not it was negligen the defendant to allow it to get into an asafe condition and whether plaintiff used the precaution that boys of his age are wont to observe to avoid the dancer.

Cornell's Attorney Moves for Quashing of Perjury Indictment.

BOISE, Idano, Aug. 15 .- (Special.)-The attorney for Ivan R. Cornell, who was indicted by the grand jury last month for perjury in connection with the land-fraud investigation, filed a motion to quash the indictment, upo the ground that it had been returned almost wholly upon the strength of his rights nor told that he need not so tes-tify as to incriminate himself.

It is contended that there was not authority to return the indictment against him after he had been subpenaed and forced to testify before the grand jury. Cornell was indicted for perjury in making affidavit before Register of the United States Land Of-

fice at Lewiston that he had filed upon his timber claim for his own benefit and that he had received the money from his own family, when in fact he made the filing on behalf of George H. Kester, with funds secured from him Filing of this motion has aroused much interest and those keeping in touch with the land fraud cases are speculating as to what it may signify.
