Canal Commission Denies the Alarming Reports.

WHY WORK IS SUSPENDED

Shorts Has Apportioned Funds to Last Till Congress Meets, but Will Complete Sanitation Before Work Begins.

PANAMA, Aug. 17.-It is currently reported that the suspension of englsering operations on the canal is ow ing to the exhaustion of the Congres-sional appropriation, although it is officially given out that the suspension is due to the desirability of undertak-ing improvement of sanitary conditions in the zone. A resumption of operation is not expected until Con-gress meets.

AMPLE FUNDS FOR CANAL WORK

Shonts Has Allotted Appropriation to Last Till January.

WASHINGTON, Aug. 17.-One of the first important tasks awaiting Mr. when he assumed the presi sion, was the conservation of the balance remaining of the appropriation of \$10,-900,000, so as to guard against a stoppage of the work of canal digging. Calling to his aid several expert accountants, he ascertained the exact state of the finances of the Commission, and found that the work could be steadily prosecuted until Congress at the next regular session should have had ample opportunity to

provide more funds.

Therefore, the balance on hand was diwided into monthly allotments, which have so far been closely adhered to, save in one case, where an unexpected demand arose for additional transportation faciliries. Thus the Commission has, it be-lieves, avoided the necessity of availing itself of the privilege granted by Con-gress of issuing bonds to meet expendi-tures. The Commission today issued the following statement on this point:

following statement on this point:
It was officially stated at the lithmian Caual Commission today that of the appropriation by Congress of \$10,000,000 for the construction of the canal, there was on April I 1905, the date on which the present commission took hold, an available balance to the credit of this appropriation of \$7.426, 508; During the month of April the expenditures from this appropriation aggregated \$475,000; during May \$500,000; during June, \$630,000; during July \$770,000, for wages, salaties, materials, supplies and equipment. During July there was an unusual expenditure for the purchase of two ships at \$650,000; during the month of August, up to and including the 15th, \$250,000 has been expended. This left the balance of the appropriation on August 13 \$2,518,715. heen expended. This left the balance of the appropriation on August 15, \$2,836,715, in addition to which each of the two dis-bursing officers had in hand \$500,000 on that

date.

It will be seen from the foregoing that the average expenditure per month, leaving out of consideration the purchase of those two ships, was in the neighborhood of \$650,000 and at that rate of expenditure the \$2.810.712 will last until early in January, which is according to the schedule fixed by the Shonts on April 1, when he became chairman of the commission. As soon as saultary arrangements are

satisfactory, canal construction will go forward will all dispatch.

PLENTY OF FUNDS FOR CANAL Neglected Preliminary Work Is Now

NEW YORK, Apg. 17.-Replying to the report that the suspension of digging operations on the Panama Canal has been

caused by the exhaustion of the Congressional appropriation for constructing the Isthmian waterway, Theodore P. Sho sairman of the Panama Canal Commission, today said: "It is not true that there has been any

shortage, or that our plans for forwarding the work on the canal were curtailed for lack of money recently, when an or-der was issued that the building of terminals, of houses for the employes and of a better commissary should precede any further work in the actual excavation of the canal. The question of funds has not interfered with our plans at Panama in any way. When last the commission met to project work on the canal, there was still a surplus of about \$1,300,000, which would have been left over on the first of next January out of the funds then available. Since that time this surplus has been expended in the purchase and equipment of two steamships.

"No financial difficulties that I know of ave since arisen. There is, moreover scarcely a possibility that the work could be impeded for lack of funds, because the commission has the right at all times to contract against the appropriation of Con-

"The order issued by the commission during its recent visit to Panama, to cease excavation on the canal, was due to the fact that before the men could dig with laid to carry away the dirt. It was fur ther issued because the employes had to have a place to live in before they could be expected to work, and because a good nissary was imperative.

Finally, there was a lack of sufficient terminals, both for the railroads and for the ocean shipping, 5000 tons of which lay piled up, with no means of handling it This is all preliminary work which ought to have been done at the outset of opera-tions on the Panama Canal, but which

Holland Changes Her Engineer.

WASHINGTON, Aug. 17.-The Isthmian Canal Commission today received a communication from The Nether-lands Charge d'Affairs, stating that Professor Jacob Krauss, who was nominsted by the Dutch government to serve on the Board of Consulting Engineers to meet in Washington September 1, has been appointed to a Cabinet office and will be replaced on the Board by John Withelm Welcker, who, since 1900, has had the supervision of the large Dutch rivers. He will leave for New York on August 18 by the steamer Rotterdam.

NEW YORK, Aug. II.—When inquiry was made at the home of William H. Thompson, in Sparkill, N. Y., today concerning Joseph Alexander Thompson, the statement was made that Mr. Thompson was ill and could see no one. From the person who answered it was impossible to secure any information reguarding the dead man.

TRAIN RUNS INTO OPEN DRAW ON RIVER IN VIRGINIA.

Two Crowded Cars Sink in Twelve Feet of Water-Only Few of the Bodies Recovered.

NORFOLK, Va., Aug. 17 .- Owing to the inability of Engineer D. L. Reig to control his airbrakes, an excursion train from Kingston, N. C., bound for this city, plunged through an open draw over the Twin branch of the Elizabeth River, eight rolles from Norfolk, this afternoon and half a hundred persons, mostly negroes, were drowned.

Up to a late hour tonight only seven bodies had been recovered from the wreckage.

The list of injured numbers nearly 100. though most of these are slightly hurt.

Among the victims, the only white ones were Edward Joliffe, manager of the ex-cursion, and Edward Forbes, who assist-ed him, bothof Greenville, N. C.

The train consisted of the engine and six coaches and the engine and one coach were completely submerged in about 12 feet of water and the second coach partly submerged. It is believed that every person in the

first car perished, none having yet been accounted for. With the exception of the train crew and the promoters of the excursion, all aboard were colored. The en-gineer, fireman and conductor escaped. Though only ten bodies have ben re-covered, the latest details indicate that 40 is a conservative estimate of the number. It is believed that there were between 30 and 35 persons in the first car now at the bottom of the river, and only five of these escaped. Others per-ished in the second coach.

Governor Vardaman Orders Troops to Relief of Sheriff.

JACKSON, MISS., AME. 17 .- Governor Vardaman was informed by telegraph this afternoon that a negro named Horn had been captured between Lumberton and Hattlesburg, and that he was in charge of Sheriff Moody and a couse. The negro was charged with complicity in the killing of a convict guard named Smith near Hattlesburg last week, for which two negroes were The Governor was also in formed that a mob was being formed at Hattlesburg to lynch Horn.

He at once ordered Adjutant-Gen-eral Bridge to take a detail of troops and take charge of Horn and bring him to Jackson for safe-keeping. Bridge at once started on a special train to relieve Sheriff Moody, who was hiding the negro in the woods.

Chancellor Summoned to Berlin in Hurry in Consequence-Francis Joseph Arranges Meeting Between Rulers.

BERLIN, Aug. 17 .- According to several high officials of the government, Prince von Buelow, the Imperial Chancellor, who yesterday left Norderney, where he was spending his vacation, for Berlin, went today to the castle of Wilhelmshoehe to see Emperor William. Dr. von Muchl berg. Under-Secretary of the Foreign Office, who left Berlin for a vacation of several weeks, was suddenly recalled to join the Chancellor at Wilhelmshoehe. The reason for these movements is so

far only the subject of conjecture, but it is known that the relations between Great Britain and Germany have recently been on the point of breaking to an extent beyond the knowledge of the pub-lic. Precisely what happened has not been learned, but a serious situation existed; indeed, it is understood, it has not

yet been dissipated. The British government appears to hold the conviction that the German Emperor is seeking to form a European combination against Great Britain.

PROVO, Utah, Aug. 17.—Ray Dan-lels, of Provo, Utah, was the first name drawn from the box at the drawing for homesteads in the Uintah Reservation, which began here today second name drawn was Noah M Balbock, of Angora, Colo.

Daniels and Balbock will be entitled to the first and second selections, re-

spectively, of the Uintah Indian Reservation lands, to be thrown open to entry on August 28. The values of these homesteads of 160 acres each have been variously estimated, but conservative persons who have been over the land place the value of any one of the best 50 claims at \$5000 to \$10,000, and state that \$10,000 is probably a liberal valuation of the best claim open to entry as a homestead.

Homesteaders Must Make Terms or Claims Will Be Worthless.

SALT LAKE CITY, Aug. 17.-The dehe control of the waters of the Uintah Indian Reservation is vested in the State of Utah will have an important bearing upon the rights of settlers who will make homestead entries under the privileges acquired in the drawing now in progress at Provo. Practically all the water flowing over and upon these lands has been filed upon by private parties and corpora-tions under the laws of Utah. Three cor-porations have made fillings which cover practically all of the water.

If their claims shall be granted, the homesteaders will have to make terms with them for the purchase of the water, as the lands subject to homestead entry are valueless except under irrigation. The State Engineer has not yet passed upon any of the claims on file in his office.
