CROWDED TROLLE' BROKEN TO PIECES

Hit by Flying Freight-Car at a Street Crossing in Butte.

TEN ARE KILLED OUTRIGHT

Passengers Included Men, Women and Children Who Were Returning From Outing at Columbia Gardens.

BUTTE, Mont., Aug. 28 .- Ten persons were killed and more than a score were injured, some fatally, here tonight, as the result of a freight-car dashing into a crowded open trolley-car at the crossing of the street-car and Great Northern Railroad tracks on Utah street,

Passengers on the car, men, womer and children were returning from Columbia Gardens. The motorman, as us ual, stopped his car before reaching the railroad crossing. At that moment a Butte, Anaconda & Pacific yard engine was making a flying switch of loaded freight-cars across Utah street

The motorman, thinking everything was clear, started across the railroad track, when the trolley-car was struck by a freightear, thrown 25 feet and crumbled into kindling-wood. The freight-car piling on top of the mangled

Coolies Making \$6 a Month Not in a Position to Buy Very Extensively Anywhere.

WASHINGTON, Aug. 30.-Edwin H. Conger, American Ambassador to Mexco, is in Washington on his way to his home in Iowa from his recent visit to President Roosevelt at Oyster Bay. In an interview with the Post tonight he said that he was not going to China, as it had been reported he might do, to allay the agitation there against American imports. He declined to say positively whether he would return to his post at Mexico City after the expiration of his two months' leave of absence, saying that it would be time enough to discuss

the matter when the leave expired. Speaking of the Chinese, the Ambassador said that when people talk about their buying extensively of American goods, when the Orient is opened, after the Russo-Japanese War, it must be re-membered that people cannot buy unless they have money to buy with. A coolle makes \$6 per month in Mexican money and cannot be expected to support his family and invest heavily in articles of American manufacture at the same time. Probably the best investment at the present time, the Ambassador said, is in rallroads. In the building of them much labor would be employed and money night be obtained by the natives in that

way.

Russia Gives Up Dream of . Port on Pacific.

ARMY STILL BELLIGERENT

Linievitch Believed to Have Forces in Such Shape That He Has a Good Chance to Win in Manchuria.

PORTSMOUTH, N. H., Aug. 20.-Mr Briantchaninoff, correspondent of the St. Petersburg Slovo, who is in close touch with the members of the Russian mison, made the following significant state-ient tonight to the Associated Press.
"Now that we are on the eve of the decisive day when we are to see whether higher civilization, wedded to peace, is to come out victorious, or will admit itself incapable of finding a just solution of the problem at Portsmouth and will refer the whole issue back again to the arbitrament of the sword, I am more than ever content that I do not belong to the government and can say as a simple Russian citizen that Russia wishes peace very sincerely, very frankly, and that she considers that she has demon-

strated her desire for peace by her course at this conference. "She has yielded on eight points. She has abandoned her dream of an open port in the Pacific. She has agreed to re-"YELLOW PERIL" A BUGABOO,

SAYS ambassador conger.

All this she has done, not because she fears a continuation of the war; on the contrary, letters I have received from Russia are unanimous in saying that the whole country has renewed confidence in its reorganized army; that the army is thirsting for battle and dreams only of revenge; that General Linievitch is sure of success, and that the authorities will agree in saying that never before has the morale and physical strength of the troops been better. "We know that Linievitch is not only

an organizer like Kuropatkin, but that he possesses that particular military intui-tion, that talent for spontaneously seizing an opportunity, which alone can give victory against an adversary as formida-ble as the Japanese. The number of Russian troops at least equals those of Japan, and they are no longer Siberian recruits. "I know that in the eyes of all foreigners all these arguments are not convinc-ing. The events of the past influence their judgment as to the future, but to

Russians who are in touch with the mili-tary situation it is certain that a rupture of the negotiations is deemed desirable, because they believe that the turn of the tide is at hand. Certainly, with a battle along a front of 60 miles, no one can foresee what may happen-any little accident, the sun or the dust in the eyes of the men, an order badly expressed or badly understood, a telephone wire cut, anything may in an instant entirely change

"One cannot be astonished, therefore, if the Russians, when they are told 'You have lost, pay, reply: "Fifteen times in succession we have backed the red, and it has come black. We now have the advantages of the chances. We will con-"The player has the right to his revenge. NO FURTHER VISITS EXPECTED President Has Made Final Effort in

Peace Matter. OYSTER BAY, L. I., Aug. 20.-No news

of developments in the negotiations for peace in the Far East reached President Roosevelt today. The President remained quietly at Sagamore Hill during the greater part of the day, and the executive office in the village was closed, except for an hour or two. A few dispatches were sent and some were received, but they are understood to have been of a outine character. The President's effort to bring about

a satisfactory issue of the peace confer-ence was practically concluded with his conference yesterday afternoon with Baron Rosen. The proposal then submitted will have to be passed on not only by the Russian envoys, but probably by Emperor Nicholas himself. On the determination reached as to that proposition very likely will depend peace or an indefinite con-tinuation of hostilities. It is not expected that the President

will receive further visits from either Russian or Japanese representatives prior to the meeting of the conferees next Tuesday morning. There is a general be-All trains are still running behind time lief that the Japanese plenipotentiaries and it is believed it will be several days were cognizant of the details of the before traffic will be in its normal conture of the conference, and are prepared, as far as their government is concerned. to carry into effect the proposal he sub-mitted to the Russian envoys. No inti-mation of the nature of that proposition

s given here. President Roosevelt, after attending the morning service at Christ Church with his family, remained at home with his personal guest, Dr. Alexander Lambert, of New York, until late in the afternoon, when he and Dr. Lambert went for a long walk. Scores of people visited the Sagamore Hill grounds today on foot and in all sorts of vehicles. OFFICIAL ATTITUDE THE SAME Signs at St. Petersburg Look Toward

Peace. ST. PETERSBURG, Aug. 21 -(1:20 A. M.)-Russia's official attitude regarding the final reply to be made to Japan on yacht from an English designer, and Tuesday is unchanged. The impression prevails, as heretofore, that only a very great concession on the part of Japan on question of indemnity and the cess of Sakhalin will make peace possible. The questions pertaining to the limitation of Russia's navai power and the surrender of her interned warships are considered

here to be quite susceptible of satisfactory arrangement, and not able to cause se

An interesting development of Sunday was the statement from the very best authority that the Foreign Office did not believe that August 22 would necessarily see the conclusion at Portsmouth of the conference, but that there would be further exchanges between the plenipoten-tiaries, lasting two, and perhaps three days. In some quarters, this is taken as a sign that there is still hope for settleon a basis of concessions.

Mr. Witte's full reports are being sub-mitted through the Foreign Office to the Emperor. There has been no meeting of the Grand Dukes to consider these re-ports, but the Emperor has been in consultation and will consult again today with some of his advisers and Ministers on vital matters now being decided here. The final communication of the su-preme deciding authority, Emperor Nich-olas, conveying His Majesty's instructions as to the course which M. Witte shall pursue, beginning Tuesday, will be transmitted to Portsmouth through the Foreign Office probably tonight (Monday) or Tuesday morning.

TAKES ROLE OF MEDIATOR

President Enables Japan and Rus sia to "Save Their Faces,"

PORTSMOUTH, N. H., Aug. 20.-(Spe cial.)-President Roosevelt has conveyed to the Russian envoys unofficial assurances that Japan will modify her conditions of peace if she can receive from the Czar similar assurances of a modification

of the Russian attitude. This is why the President urgently in-rited Baron Rosen, the junior envoy and Ambassador of Russia to Oyster Bay. The fact developed today that President Roosevelt, instead of interfering with the peace negotiations between Russia and Japan, has, upon suggestions, willingly assumed the role of mediator in the existing difference between the governments which are threatening an unsuccessful termination of the Washington peace con-

action of the President will have been taken in vain. Baron Kaneko was the medium through which the suggestion was conveyed to the President, and he acted at the instance of the Japanese plenipotentiaries. The reason this circuitous method was adopted was the natural hesitation of the Japanese envoys to ap-proach the Russians directly, through fear that their efforts for peace might e construed as weakening.
As the suggestions made through Presi-

dent Roosevelt were received with favor by the Russians, it will mean that the negotiations here will continue. If they are not accepted, probabilities point to the conference coming to an end Tues-day or Wednesday.

The course of procedure now being fol-owed through the instrumentality of the President, will permit both Russia and Japan to "save their faces" at home. Russia's position has been that of unalterable opposition to the cession of territory and the payment of a war in-demnity. Japan's attitude has been as compromisingly determined to secure the Island of Sakhalin and have her war expenses paid.

It is believed that both governments are sincerely desirous of establishing peace, but the envoys have been held steadfast in their present course by a strong public sentiment at home. It has been fully recognized that any modification of the two positions would be met with great disfavor throughout Japan and Russia. Through the intercession of the President it becomes agreeable to St. Peters-burg and Tokio. These modifications car se explained at home by the fact tha the envoys are the guests of the United States, that they have been brought to-gether in friendly intercourse by Presi-dent Roosevelt and that, therefore, in-asmuch as they have been urged by him to compromise their differences, they fel that they must make every reasonable concession, lest they should be charged with discourtery to their host. With such a presentation of claims, the Japanese people could not but acquiesce in the position taken by their government, and the Russian government could not be charged with willingly recognizing the principle of either territorial concession in entire conformity to the dignity of Ruzsia to submit the questions in dispute to The Hague tribunal, and thus increase the splendor of that institution. But I have a local tribute her action to a desire to place traditional friendship for the United States as paramount to the necessity of meeting Japanese conditions not altered to the splendor of that institution.

FULL PLAY FOR PRESIDENT

Envoys Will Probably Delay Postponed Meeting Until Thursday.

PORTSMOUTH, N. H., Aug. 26. Special.)-Indications tonight point to the envoys of Russia and Japan reaching an agreement to postpone their Tuesday meeting until a later date. The probabilities are that they may meet Tuesday, but if they do so it will be merely to pass upon several mat-

ters and then adjourn over until Thurs-day or later. While the excuse of the proposed extension of time of the meeting of the conference is assigned to the inability of the secretaries to catch up with their work, it is an open secret that the envoys are awaiting advices from St. Petersburg and Tokio. They are desirous of giving President Roosevelt full play in his efforts to affect a commise basis upon which to resume

There is no doubt that the envoys have reached the limit of their powers under their credentials and feel that until they receive assurances from their governments or through President Roosevelt's intercession, the end of the negotiations has been reached. The Russian and Japanese spokesmen tonight suggested that a postponement on the day of the meeting was probable. They would not, of course, ad-mit that it was due to a desire of the envoys to permit the influence of the President to take root and fructify.
