BROTHER USED AS BLIND

Investigation of Chickasha School Warrants Reveals Payment of \$14,000 to Kansas Senator and Brother Seth.

WASHINGTON, Aug. 21 .- The Post today says that officials of the Departments of Justice and the Interior who have been investigating the Chickasha school warrant cases last night made public portions of the records which have been unearthed and which are alleged to implicate Senator J. R. Burton, of Kansas in pressing these claims before the Government, while holding the position of Senator, in contravention of law. The Post

"In all, 26 Chickasha warrants, aggre gating \$14,000, have been paid to Senator Burton, or his brother, Seth Burton, with whom he is alleged to have formed a partnership since March, 1901, when Senator Burton took the outh of office.

"Six of the Chickasha warrants issued in October, 1991, and aggregating \$5500, were paid directly to J. R. Burton. This was seven months after Senator Burton had taken the oath of office. Twenty warrants, aggregating 2000, were subsequently made out in favor of Seth Bur-

"It is alleged that the service in pay ment for which these warrants were made out was pressing claims before the Government. It is also contended that Seth Burton never appeared before the Department of the Interior, and never practiced law in Indian Territory, but that his name was used as a blind by the Kansas Senator.

Mr. Armstrong said that no appearances had been filed with the committee by counsel for witnesses, who, it is said, are to be questioned.

"We do not propose to let lawyers use the time of the committee," said the

Senator, "in examining witnesses looking to their vindication. We are not after men, we are after conditions. It is our hope to restore public confidence in in-surance and not to destroy or tear down reputations. There will not be such ap-pearance of coupsed." pearance of counsel."

Mr. Armstrong announced that he had received a copy of the minutes of the Hendricks investigation of the Equitable So-ciety, which, he said, was complete and that there had been no reason why the report should not be made public to-

LIONESS FREE IN CROWD

Escapes in Pleasure Park and Causes Panic Among Thousands.

NEW YORK, Aug. 23 .- A full-grown lionesa, which escaped from her cage in a pleasure park near Valleburg, N. J., caused a panic last night in a crowd of 5900, including many women and children. who had gathered to watch the exhibition given by a trick bicyclist.

When news of the animal's escape

spread there was a wild stampede for the streets, which lasted nearly 15 minutes. Dozens of women and children were knocked down and bruised, while scores of men had their clothing almost torn off, but so far as could be learned, none was seriously hurt. A strange fascination seemed to hold many of the crowd within the park until a large force of men drove

RELICS OF PERRY'S BATTLE

Americans to Recover British Ships, Though Canadians Protest.

DETROIT, Mich., Aug. 22,-Agitation by several Dominion newspapers threatens to precipitate an international controversy over the proposed raising and removal to Detroit of three British war vessels which were sunk

in the River Thames in the famous land and naval battle of October 5, 1815. These once stanch warships were a part of the British fleet that at-tempted to resist Commodore Perry at

The vessels were forgotten until sev ral years ago, when unusually low water in the Thames revealed one of them. A plan was originated to have them recovered, brought to Detroit and presented to the city as memorials. Sev eral days ago, when m detroit explor-ing party, headed by C. M. Burton and Charles L. Clark, quietly began oper-ations. So far the work of the ex-plorers and their divers has resulted in the definite location of three vessels at points one and a half, two and six miles up stream from Chatham. The vessels are partly or wholly covered with sand and earth. In the one most exposed the hull was found to contain boxes and barrels of cannon balls and other stores. Further search is ex-pected to reveal chests of slaver, which records in possession of the explorers show were taken up on the boats. Mr. Burton declares the vessels

ar. Burton declares the vessels are now private property, and that he will be able so effect a bargain whereby he can take them over. If plans are carried out the vessels will be presented to the City of Detroit and be placed in a specially constructed museum on Belle Isle. Newspapers on the Canadian side, however, are vigorously protesting such action, and it is not unlikely that the Dominion Government will be called upon to take action in the matter.

MINER ENTERS DENIAL.

Taggart's Superior Officer Says He Had No Intrigue With Wife.

WOOSTER, O., Aug. 23.-General Miner who was Major Taggart's superior officer at Fort Leavenworth, was on the witness stand in the Taggart divorce case today. General Miner denied explicitly any indiscretions with Mrs. Taggart, as charged in Major Taggart's amended petition, or any conspiracy with others falsely to imprison the Major at Fort Leavenworth. The roll was exhibited for the month of July, 1903, and was identified by General Miner. It showed that Taggart was "sick in the hospital, July 2 to July 8. 1908, for disease contracted in line of duty." It also adds, "Arrested July 2-July 8, 1903. Released July 8, 1908, and placed in command of company.

The plaintiff sought to show that, al-though Miner charged Teggart with being crary when he was placed in the hospital, Taggart was taken out and placed in com-mand of his company. General Miner reiterated that he did not confine Taggart for acute alcoholism, but for the purpos of observing his mental condition. General Miner asserted that he fully expected to see a reconciliation the last time he saw Mrs. Taggart.

"As a peacemaker, did you think it would effect a reconcillation to send Mrs. Taggart away and have her take the children away?" the General was asked. "I thought that if she went away she would be better able quietly to think the matter over and feel more like a reconcillation," was the reply.

BOSTON, Aug. 23.-Dr. Washington. Will Soon Return to Post Among Moros-Davis Says Canal Commission Is Only Buying Necessary Plant.

OYSTER BAY, Aug. 23.-General and Mrs. Leonard Wood arrived here from Washington at 4:46 o'clock this evening and are guests tonight of President and Mrs. Roosevelt. The President had not seen General' Wood since his arrival in this country from the Philip-pines, where he was the commander of he American forces in the Moro archipelago. His return was induced by necessity of undergoing a surgical operation. An operation was performed in Boston and General Wood practically has recovered from its effects. He expects to return to the Philippines as soon as he shall have completely re-gained his normal condition.

While it is said that General Wood's visit to the President is devoid of sig-nificance and is of purely a personal nature, it is certain that the President desired to discuss with him the situa tion in the Philippines, not only as to the operation of the American Army, but as to the development of the islands and their needs in the way of legislation.

President and Mrs. Roosevelt entertained a party at luncheon today in-cluding Major-General George W. Davis, ex-Governor of the Isthmian Canal Zone: Francis E. Leupp, Commis-Indian Affairs; Barnes, Jr., of Albany, N. Y., and T. H. P. Farrand and Archer Hammond, relatives of the Roosevelt family.

"I have no connection now," the Gen-eral said, "and have had no connection, at any time, with the finances of the commission. I know little about them. It may be said in a general way, howver, that large expenditures are necessary in the inauguration of a great project like that at Panama. Railroad equipment, including locomotives, cars and material, steam shovels and other machinery, houses for the employes and ships for the carrying of supplies, once bought and paid for, are permanent property. While the first cost is considerable, the cost thereafter is purely for maintenance,

"No," he continued, "there will no be 30,000 men employed on the work of anal construction. Nobody has ever intimated such a number until these articles were published recently. There is no thought of employing such a number of men or providing for such a

Congressman Stevens, of St. Paul, has

addressed letters to Secretary Hitchcock, of the Department of the Interior, and Indian Commissioner Leupp, vigorously protesting against the proposed sale on the ground that the interval between the first publication of the notice, August 14. and the date of sale, September 5, is far too short to afford lumbermen opportuni-ty to ascertain the quality of the lumber with a view of making an intelligent bid and further, that the Indians who own the land are not properly safeguarded.
