senic as Preventive.

VELLOW FEVER AT NEW ORLEANS.

NEW ORLEANS, Aug. 23.-Report to 6 P. M.

NEW ORLEANS, Aug. 23 .- The yellow fever report continues to show an improvement in local conditions. There was no news of a gloomy character from the country today, Passed Assistant Surgeon Corput made an investigathan of the work done in St Joseph and St. Charles parishes and this indicates that what threatened to be a very us group of foci has been con-

New cases are reported as follows: Hanson City, 1; Willswood plantation, in Jefferson parish, 1: St. Rose, 2: Pat-terson, 11: Lake Providence, 5: St. Bernard parish, 7: Mississippi City, 2. report from Dr. Stark, State Health Officer at La Fourche, received tonight, says that Dr. Devron reported to him today that up to date he had found 170 cases of yellow fever and 200 cases of dengue at Leeville, and conditions were such that help was eeded immediately.

Quarantine Not Very Injurious.

The quarantines have fortunately been put on in a season of Summe duliness and, if they are taken off when trade becomes active, the only inconvenience will come from the obstructions to the movements of traffic.

One of the features of the situation that is attracting attention is what are termed new fool in excess of the

number of cases under treatment. It is an encouraging feature because it is an indication of a slow extension of the fever, which is particularly true of the district above Canal street. In order to take no chances, the authorities are not to cancel new foci until after 30 days have elapsed.

Large quantities of rock salt have

been purchased by the Federal author ities with a view of salting stagnant gutters and pools. The salt is expected o destroy the pools as breeding places for mosquitoes,

Soldiers Grow Restive.

Some of the soldiers stationed at the United States barracks are restless under their enforted quarantine. Communication with the city has been absolutely prevented and the appearance of fever in St. Bernard makes it probable that no communication with that parish will be allowed. The officers in ommand are, however, exerting themdiers are considered to be abso-

at Terre aux Boeufe, the parish seat. Health Officer Mereaux found five genuine cases and three more were sus-

Craze for New Remedy. Many sensational reports have been

sent away of hero worship of which Dr. Leach, of Minnesota, is the subject. Dr. Leach has been courteously received by the public in general and has been the recipient of much attention. Many thousands of people here are taking arsenic and many would like to see an jactual test of it. But there is no truth in the statement that the entire population is mobbing the doctor's hotel in

the effort to have an audience with him. The doctor addressed a large meeting tonight, the feature of which was consideration of Dr. White's letter printed today in which it was shown that Congressional committees, after hearing opinions of the Army and Ma-Mrine Hospital surgeons, had refused to authorize commissions to experiment with arsenic as a prophylactic plague, cholera and yellow fever,

FEVER KILLS BALL LEAGUES

National Commission Holds Them in Suspended Animation.

CINCINNATI, O., Aug. 28.—The five ritory, whose property rights and con-tracts were seopardized by the yellow fever, will be protected by the National commission. The commission also recognizes the rights of the ballplayers to

play elsewhere and earn a living.

The decision affects the Southern League, the South Atlantic League, the Kentucky, Illinois and Tennessee Leagues, the Cotton States League and the Southern Texas League, some of which have disbanded for the senson, and others of which may be compelled to.

Fever Prevents Veteran Reunion. CHATTANOOGA, Tenn., Aug. 22.-On account of the yellow fever scare, Wild-

er's brigade will not hold its annual re-Society of the Army of the Cumberland,

FORCE HUNGARY TO YIELD Fejervary Will Adopt More Vigorous Policy With Diet.

BUDA PEST, Aug. 22.—A finisterial conference was held at Ischl, Upper Austria, yesterday, under the presidency of the King-Emperor, at which the Hungarian political situation was under consideration. It is the opinion of the news-papers here that the conference has not increased the chances of an understand-ing between the ministry of Premier Fejervary and the majority in the Hungarian Diet.

In the event of failure to reach an agreement, Premier Feiervary will continue to direct the affairs of the kingdom. It is said, however, that the cabi-net will henceforth follow a more vigorous policy and will endeavor to break a star as Ezra Kendall and so strong down the passive opposition of the recal-citrant municipal and other Hungarian sured. authorities.

Germany Demands Cheaper Meat.

BERLIN, Aug. 23 .- The agitation for the opening of the frontiers to the free im-portation of meat and live animals has taken the form of telegraphic appeals by associations and municipalities to Chan-cellor von Buelow, especially from Thur-ingia, where prices are alleged to be 40 The lively buriettas open and close the per cent higher than formerly. There seems no doubt that the price of meat has risen 40 per cent during the last ten years and from 20 to 30 per cent within a year, but those who are investigating the situation are divided as to the causes whether the increases are attributable partly to the generally increasing scale of living or altogether to the customs duties and the sanitary barrier to the importa-

Gold Stampede in Australia.

SYDNEY, N. S. W., Aug. 24 .- (Special.) Two prospectors have discovered gold-bearing ore on Pine Creek, near Orange, which has been arrayed at the New South Wales Mine Department and declared to be worth \$10,000 a ton, being rich in gold and silver. There has been a rush to the new gold fields, and claims have been staked out over miles of the country bordering on Pine Creek.

Family of Seven Drowned.

Stanford Estate Agents Said to Have Made Offer.

SENSATION AT HONOLULU

Bills of Experts, It Is Said, Would Not Be Questioned if Findings of Death by Poison Were Revised.

HONOLULU, Aug. 21.—The tragic death f Mrs. Jane Stanford has been recalled a sensational story published here to the effect that the representatives of the Stanford estate practically offered mone tary inducements to local physicians to change their opinion that strychn caused the death of Mrs. Stanford. It alleged that the bill of \$150 of Dr. C. B. Wood, who performed the autopey on the body of Mrs. Stanford, has been refused payment by the estate on the ground that the territorial authorities should have performed the autopsy.

Dr. Wood declared he was employed or behalf of the estate by Dr. Humphries, and the latter said that he considered the refusal to pay Dr. Wood to be amaz-ing, as he considered the employment of a private autopsy physician to be proper The Star, in its story of the matter, says that in different interviews the representatives of the estate represented to the physicians that it would be satisfac-tory to the estate if they could revise their findings of poisoning, and in such event their bills were not to be ques-tioned, and that Drs. Humphries, Day and Wood would be paid the amount of their

claims of \$150. ment to place their version of the scien-tific facts of the case before the public in final justification of the decision concerning the cause of the death of Mrs.

GOLD DREDGE TO GET HIDDEN WEALTH FROM BURNT RIVER

H. W. Goode, Ralph W. Hoyt, C. E. S. Wood, W. H. Hurlburt and F. M. Batchelor in Directorate of New Corporation.

************* PROFITS IN SIGHT. Gross returns in gold saved from an average acre on Burnt River (20 cents per cubic yard).....

Cost of dredging average acre (48,400 cubic yards acre (48,400 at 5 cents). Net profit over all expenses

\$7,260 Available gold-bearing area 5,400 acres

Some of Portland's leading business mer have organized a corporation for gold dredging operations in the Burnt River Valley, Baker County, right in the heart of the gold-bearing district of Eastern Oregon. H. W. Goode is president of the new corporation, known as the Western Exploration & Dredging Company. F. M Batchelor, the secretary and manager of the corporation, who has just returned to Portland, reports that the work of esting the ground in detail is progressing rapidly, and the results are highly satisfactory. A steam drill now on the way from the East will materially assist the gang of workmen now on the ground.

Millions are reported to be in sight on the company's land, and, like the fan Treadwell mine of Alaska, the gold is

there, simply awaiting systematic opera-tions to yield a fortune. Other well-known business men in the directorate of the incorporation are: C. E.

Like the S. Wood, of the law firm of Williams, Wood & Linthicum, vice-president and attorney; Ralph W. Hoyt, cashier of the Merchants National Bank, treasurer: W. H. Hurlburt dent of the Oregon Water Power & Rail-way Company; R. J. Holmes, president of the Holmes Canning Company, and of

it has been known that these bottoms ; were very rich in gold, and many at-tempts have been made by old-fashioned and hand-made machinery to wash the gold from the gravel holding it. The gold found varies in value from tiny par-ticles to nuggets worth several dollars

Was it not for the fact that the auriferous gravel lies in an area almost flat, it would have been worked years ago by the ordinary methods of placer mining. It has simply been the physical obstacles which prevented hydraulic miners from attacking the gravel. Water they could obtain, but the debris constantly inter-fered with the progress of the men at

work. It is only a few years ago that the first gold dredge was designed to meet a sim-flar condition in Machine New Zealand. Am-

Machine, erican miners were quick to see the possibilities of the dredge, and the improved American gold dredge of today is one of the most wonderful pieces of large machinery in successful operation.

Burnt River is a narrow, winding stream, which empties into the Snake River near Huntington. Its head-waters are near the famous Bonanza group of mines. Its course is through a gold-bearing country from end to end.

line was built through this country years ago, construction was for a time suspended, just after a long fill near Weatherby was completed. Upon returning to the grade, the foreman Grade Fill, discovered that mixed as When the O. R. & N. Company's main

discovered that miners had found the fill was made of good pay dirt. They had wheeled the dirt to the stream, washed it and wheeled it back into place, minus many dollars' worth of the precious

The Western Exploration & Dredging Company has options on 5400 acres of bot-tom lands and river channels, placer and hydraulic claims along Burnt River. The property is divided into two tracts of 2790 acres each, separated by a narrow box canyon. The upper tract is near Bridge-port, the lower near Durkee, a station on the O. R. & N. Company's line, affording excellent transportation facilities.

nie Young, was a six-year-old child, who had been left by her mother, a Beston woman, in the charge of Hope Young. This child and the infant daughter of Hope Young were found ahandoned in the woods near Plymton, Rigby County, last June. Both children had been bound and gagged and, when a searching party found them, Minnie Young was dead. The other child survived.

Marsh Not Automobile Murderer.
