PLEA FOR PALOUSE SCHEME

#### Can't Be Granted in Justice to Rest of Washington.

OREGONIAN NEWS BUREAU Washington. Aug. 24.-The Director of the Geological Survey is in receipt of a petition zigned by residents of Washtucna, Wash., in behalf of the acceptance of the Palouse trrigation project.

While the desires of the people and the favorable features of scheme will be given due weight by the engineers, the most conservative estimates place the cost of the system at more than double the unt of money available for construction in the state of Washington, It would not be fair to the people of the State to enter upon a work which would years, when there is a prospect remaining that the available fund could be expended from General Linievitch, dated August where early completion and quick returns might be assured.

MERCHANTS PROPOSE PLAN

#### Suggest to Canal Commission How to Supply Laborers.

PANAMA, Aug. 24.-The merchants' committee heid a conference today with Governor Magoon, Chief Engineer Stev-ens and President Amador and his cab-inet. The greatest cordiality was shown

throughout the meeting.

The representatives of the merchants said, as the canal commission considered commissuriats through the zone necessary to the building of the canal, the merchants were not willing to put obstacles in the way of the undertaking, but proposed to limit the commissariat provis-ions to articles of absolute necessity. It was also suggested that the canal commission permit the laborers to make their other purchases from the commercial houses by means of coupons, which the ommission should redeem. SALT LAKE, Utah, Aug. 24.-James Rice, a commercial man from Stevens Point, Wis, has been made the victim of one of the boidest robberies ever committed here. JAPAN TO DEVELOP SAKHALIN

#### Policy Adopted for Settling Island and Managing Seal Rookeries. VICTORIA, B. C., Aug. M.-The steam-

Empress of Japan brought word that

a distinct and practical policy has been inaugurated by the Japanese government with respect to the colonization of Sakhalin with Japanese agriculturists and fishermen, who will be attached as reservists to the armies of Japan. Governald will be granted in the first establishment of the settlers in the recovered property of Japan, and the former convict inhabitants will be deported, it having been decided by the Japanese gov nment to refuse naturalisation to any Russian convicts of Sakhalin, political prisoners or otherwise. The development of the fishery interests of the island will be in the hands of private capitalists, by whom a substantial lease fee or bonus will be paid the government. FRANCE DEMANDS REDRESS.

#### Massacre of Priests Will Be Avenged by Punishment of Innocent.

VICTORIA, B. C., Aug. 24.-According to passengers on the steamer Empress of Japan, word of the massacre of French priests by a Buddhist mob in Yunnan Province, was conveyed to the nearest French Consulate by a native convert of one of the butchered priests, and on August 7 a formal protest was lodged with the Chinese Foreign Minister by the French Minister to Pekin, who was both terse and emphatic in demanding imme-diate reparation and full satisfaction. The Viceroys of the district have been ordered orlly to identify the ringlenders of the offending lamas, and to visit upon them the direst penalties, but it is well understood in semi-official circles that substitution will be taken advantage of by the real offenders, and innocent men will be sacrificed in satisfaction of the French protest.

### Workmen Cannot Cash Checks.

Work which was abandoned on the Portland-Forest Grove electric line several days ago has not been resumed and workmen who hold pay checks from the Atlas Construction Company, drawn by B. E. Hooper, are unable to cash them. The checks, which amount to about \$1490, are drawn upon the Merchants' National Bank and Superintendent Hooper has no funds on deposit. Promises to straighten the matter up have been made, but nothing has been done so far.
The Atlas Construction Company

holds the contract for seven miles of the line, but delays have been so frequent that the Oregon Traction Company is now making arrangements with another California firm to construct the line. According to L. Y. Keady, secretary of the Oregon Traction Company, another company is ready to take the contract and rush the work to completion.

Evidence in Mrs. Taggart's Defense.

WOOSTER, O., Aug. 24.—The deposi-tions of Circuit Judge Berry and his daughter, of Newport, Ky., were read at the opening of the Taggart divorce case today, both declaring that Mrs. Taggart had always, to the best of their knowledge, conducted herself properly. Emma Little, the colored servant-employed by the Taggarts for nine years, then took the stand. She swore that Captain Tag-gart had often been unkind to his wife; that on one occasion the Captain had thrown Mrs. Taggart out of the house and used abusive language.

EXPLOSIONS WRECK HULL

In Terrific Storm in New York, Huge Cotton Warehouses Are Also Set Ablaze and \$500,000 Damage Is Done.

NEW YORK, Aug. 36 .- Struck by lightning during a terrific storm which swept over Staten Island and the lower part of the upper bay at midnight, the ship Mariborough Hill, laden with naptha, lying in the stream midway between Tomkinsville and Stapleton, was burning early this morning, lighting up the bay from

the Battery to Sandy Hook. The crew of 24 men left the ship just after the fire started, and landed at Stapleton. Word was sent to Manhattan for fireboats, which hastened to flood the vessel with water.

Five minutes after the alarm was given one of the hatches, about midships, blew up. The flames poured through the hatches, sprange into the shrouds and began to eat away the sails and cordage. After these burned, the fire settled down into the hold, where explosion followed explosion.

The Mariborough Hill is an iron vessel bark rigged of 22% tons. She was in command of Captain Jones and had cleared for Sydney, N. S. W. The ship is owned by the Mariborough Hill Shipping Company, of Liverpool, England.

NEW YORK, Aug. 24.-A loss of more than \$500,000 was caused by fires in stores Nos. 23, 40 and 41, of the extensive plant of the Bush Terminal Warehouse Company, at the foot of Forty-fourth street, Brooklyn. PEASANTS BREAK OUT AGAIN

#### Wreck Estates in South and Murder and Muttlate Merchants.

ODESSA, Aug. 24.-Fresh agrarian disorders have broken out in the Elizabeth-grad and Alexandria districts, and peasants are destroying the property of the landowners. A big estate at Butzky has been entirely demolished. The president of the Elizabethgrad seems to have per-mission from the government to convoke a meeting of the landlords with the view

to settling the grain question.

During a fair in the viliage of Libovia, a crowd of peasants attacked the merchants. After pillaging their goods, the peasants massacred a number of the merchants and mutilated others, pricking out their eyes and cutting off their ears. Cossacks arrived too late to save the village, which was completely devastated.

GOVERNMENT SUPPRESSED NEW BURTON CHARGES.

Now Denies Making Them, but Mosby Says They Are True-Burton Enters Denial.

OREGONIAN NEWS BUREAU, Washington, Aug. 24.-Considerable mystery is injected into the case of Senator Burton of Kansas, by the denial of the Interior Department and the Department of Justice that they had been making an investigation of Burton's connection with Indian cases in Indian Territory and Oklahoma. Special Agent Mosby, of the Department of Justice, just returned from Oklahoma last night, made statements alleging that Burton had committed irregularities not mentioned in his indictment, viz., had received fees from Indians aggregating \$14,000 for services rendered

after he had entered the Senate. If Mosby made this investigation (and he is extremely free to talk on his work) he must have done so by order of the department. Yet the department disclaims all knowldge of the investigation. The only conclusion reached is that the department did not want its investigation to become known, and since it was prematurely announced, has followed the common Governmental practice and denied all knowledge of it. Mosby insists that his statements are correct.

BURTON ENTERS DENIAL.

Never Took Fees From Chickasaws

After Becoming Senator. ABILENE, Kan., Aug. 24.—United States Senator J. R. Burton, who is at his home here, in an emphatic statement today declared that the Chickasaw warrants issued to him in October, 1901, were in pay-

ment for legal services as counselor to Governor Johnson, prior to his election as Senator. "I have never," declared he, "received one penny in compensation for legal services rendered the Chickasaw Nation since my election as United States Senator before a federal department or any-where else."

NO FEES SINCE ELECTION.

Ryan Says Payments to Burton Were

Made Long Before. WASHINGTON, Aug. 24.-Acting Secretary Ryan, of the Interior Department, today contradicted a statement published here that that Department had made pub-lic a report reflecting upon Senator Bur ton in connection with the school warrants of the Chickasaw Indians. He said that an investigation had been made into the issuance of those warrants, in the course of which the discovery had been made that some of them had been issued to Senator Burton and his brother for services as attorneys, but that no record had been found of the issuance of warrants to the Senator for such services performed subsequent to his election.

Two Women and One Man May Die in Consequence.

Both women and one of the men may die. The injured are: Miss Emma Judge, Miss Agnes Rice, Otto Nevis, and Frank Brown, owner of the motor car. One of the women sustained a fractured skull, while the other was injured internally. Brown is so badly hurt that he could not be removed from the scene of the accident.
