IT'S THE BIGGEST BARGAIN IN THE UNITED STATES It's a 45-Caliber Springfield Breechloading Centerfire A1 Army Rifle

charge \$20 to \$30 for one as good.

It is first-class, perfect, always in splendid working order, and probably the best general use rific, the world ever saw. The Government made it for its soldlers, and Uucle Sam never supplies his fighters with second-class firearms. It was supplanted by another rific because the Government believed that a new invention of smaller caliber might possibly be more effective, and always de-termined to have the best that can be made, these rifles were thrown upon the market and 1 se-cured 40.000 of them at a figure so reasonable that I can afford to sell them now at the small price named above. The gun has been used by the army and National Guard for 30 years, and still is in use by the scouts and constabulary of the Philippine Islands, which is sufficient proof that there is nothing better for the hunter, ranchman, sportsman or for home protection, and at 22.75 is certainly tection of the homs.
