NEW YORK MARKET DULL

Selling Side Taken Almost Entirely by Trading Element-Canadian Pacific Only Issue to Show Strength.

NEW YORK, Aug. 30 .- As was to be expected, the effect of yesterday's historic even temouth found clearer reflection on the stock exchanges of Europe than on our own London, Paris and Berlin reported a vastly botter tone. This was shown in the improved prices for Russian and Japanese issues, advances in British consots and London's pur-chases of American sacurities. The universal gratification expressed by funnciers justified the belief that America's interest in an honorable peace was based upon something more than sentimental grounds. The New York market refused, however, to be guided by those shroad.

It would serve no distinct purpose to sur the day's movements. Suffice it to say they were unimportant as a whole, and reflected general apathy. The greater part of the day's operations were obviously professional, the early selling movement originating with a trader who was, until recently, on the long side. Instead of an overnight accumulation of buying orders, many commission-bouses had orders to sell, and the selling side of the market was taken almost entirely by trading element. It is not to be dealed that the stocks offered today were absorred with no outward signs of congestion. At no time was the market active or broad.

The only stock that showed decided strength in the opening dealings was Canadian Pacific. Reading's decline of more than 2 points was regarded as just natural in view of the company's poor showing for July. Amalgamated Copper declined on heavy selling by traders, who assumed that the end of hostilities in the Far Elset would necessarily curtail the demand for the metal. There was also an in creased belief that the recent speculation in metals had reached its limit for a time. Other features of weakness were Union Pacific, St. Paul, New York Central, Erie, Louisville & Nashville and the United States Steel is-

sion, but later, on its oversold appearance, traders went in and bought the active larges. hares and gains in Eric and United States Steel common. The strength of these slocks, together with a 5-point advance in Pacific Coast, were the only notable features of the final hour, the market showing weakness at the close. There were wide differences between London and local prices at the opening ping orders well filled and the local trad London probably took 30,000 shares

Bonds were irregular, value, \$4,765,660. Units guint. Total sales, par United States bonds were all unchanged on call.

Another weakening influence was a moderate decline at Laverpool. WARHINGTON, Aug. 30.-Today's Treasury Throughout the day. September was subjected to persistent selling mostly from pit-traders, although a prominent long made liberal offerings. Until late in the day the market lacked any builtsh incentive and prices steadily de-clined. September closed at 18%-0784c and

December closed at 80%@80%c. A feature of trading in the corn market was a sharp upturn in the price of September lellvery. Pit-traders sold short early in the ecision on the expectation that the usual eleventh hour liquidation would cause a con-siderable decline. The market, however, re-ceived excellent support from cash interests GOOD DEMAND AT SAN FRANCISand commission-houses. In consequence, early sellers turned buyers during the last half of the section, resulting in a radical advance in the price of September. Distant deliveries were firm in sympathy with the bulge in the Heavy Receipts of Grapes Cause were firm in sympathy with the bulge in the price of September. Weather was again fa-vorable for the rapid maturing of the crop and cables were lower. The market closed firm with September at 531g, a net advance of 14c; December closed the higher at 424,043c. Weakness of wheat had a bearish effect on the oats market. This advantage was of small volume and fluctuations were narrow. The circular inclosed by Captain Pope is a long affair, headed "Food for Thought," and is dated Portland. August 26. It is mostly taken up with denouncing what it terms the "Krebs-Pincus-Smith-Durst combination." and urges holders to sell their 1906 hops before the new crop is heavested and then sell their crop is harvested and then sell thet 1900s as early as possible,

FORMER ESTIMATE HOLDS GOOD. Condition of Hop Yards in Benton County-

Picking Begins Monday. CORVALLIS, Aug. 50 .- (Special.) - Picking is expected to begin next Monday in all the hop-yards in the vicinity of this town. Later exti-mates of the crop bear out the former forecast-that the lowland yards will be as good or hetter than last year, and that on the up-lands the yield will be much reduced. For example, the yield last year in the Osburn yard was 112 bales. The estimate this year is 125 bales. Two years ago it was 197 bales. The accease in the immediate vicinity of Corwills has doubled in the past two or three years. The Clarence Ireland yard, with a former yield of only a few thousand, is ex-pected this year to turn off 50,000 pounds.

UNFIT FOR INDEPENDENCE

Conclusion Of Tall Party After Conference With Filipinos.

MANLIA, Aug. 30.-The jast session of the conference with the agitators for the independence of the Philippine islands developed the fact, according to a consensus of opinion among the congress-men present, that the Filipinos are altogether unfit for immediate independence. Apart from the problems presented in the civilization of the Igorrotes, the Moros, Macabebes and other tribes, it would be cruel, it is believed, to the people of the slands at large to turn them over to the mercies of theorists and demagogues. They would then experience the worst kind of exploitation. The statements of the speakers at the meeting were widely divergent, those of the mercenary faction being in contrast with the native agita-

tors. The Provincial Governors, when they were heard, emphatically declared that the whole people of the islands were unfit for independence for many years. It de-veloped during the session that the two principal agitators had been under sentence for various crimes.

Colored Bishop Forced Out. NEW YORK, Aug. 30 -As the result o serious illness, brought about on account of worry in the treatment accorded him by the officials of a colored church in this city and two churches in Brooklyn. Bishop Benjamin W. Arnett, one of the best-known colored men in the East, has resigned as bishop of the New York dio-cese of the African Methodist Episcopal Church. The bishop's council of the church relieved him yesterday of all work in connection with the Philadelphia, New Jersey and New England conferences, which with the New York conference, comprise the first Episcopal district.

Bishop Armet's approximate of Dr. S. Bishop Arnett's appointment of Dr. S. T. Tice, as presiding elder of the New York conference, is stated to have stirred

up the trouble. Great pressure was brought to bear on the bishop to remove Dr. Tice because of the latter's political affiliations, but he would not consent and finally resigned his office, three of the churches having threatened to withdraw.

Survey of Yakima Reservation. OLYMPIA, Wash., Aug. 30 .- (Special.)-Proposals for the survey of the extension of the Yakima Indian Reservation westerly to the mountains, as authorized by up an act of the last session of Congress,

postoffice addresses of Oregon hopgrowers, are being called for by United States Sur-have circulars printed and mail them veyor-General E. P. Kingsbury. Bids for doing the work will be received up to noon tember 27. The extension to the Yaktma Reservation is in fulfillment of the old treaty with the Yakima Indians, under which they were guaranteed a reservation "extending to the mountains." The new extension carries the line to the mountains and the other summits west and southwesterly from the present reservation. The greater part of the new

area lies west of the reservation. In the Government's estimate the area of the extension is given at 8,233,835 acres. Admitted to the Bar.

SALEM, Or., Aug. 20.-(Special.)-James Cole was permanently admitted to the bar today, and W. R. Litzenberg was admitted on nine months' probation.
