The capture was made by a party of hunters from Dayton, composed of ex-Sheriff Silne, Superior Judge Miller, of Columbia County, and others.

WITH PARTY OF HUNTERS

Bert Taylor Is a Cowboy and Left the Walla Walla Penitentiary Last Friday Without Saying Goodbye.

Ex-Sheriff Silne was in Walla Walla the day after the escape, and Warden Kees gave him descriptive circulars that had been printed, asking him to look out for him while on his hunt in the mountains. The party of hunters came upon the sheep camp at about 8 o'clock in the evening, and as Judge Miller presided over the Superior Court in Whitman County at the time Miller was convicted, his identification was easy. They took him in custody for the night, and the next morning Mr. Silne started with him for Walla Walla, reaching here about 8 o'clock last evening. After being safely behind the bars again Taylor said: "I made my way from the penitentiary to a point near the Bruce Parrell place, where I caught a horse. I made a rope out of the pants of my convict garb by which to guide myself, and then rode on up Mill Creek until I came to Table Mountain. From there I took the sheep trails through the mountains until I reached the sheep camp. I have a friend over on Salmon River whom I expected to furnish horses for me to make the ride across the British Columbia line."

SKIN DISEASES SPEAK FOR THE BLOOD

Skin Diseases speak for the blood and tell of the acid-laden, poisonous condition of that vital fluid, and of its effort to throw off and rid the system of the poisons and waste matters that have accumulated in it. Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Boils and diseases of this type are all caused by a weakened and polluted blood circulation, and though they may have lain dormant in the system during the cold weather, at the coming of Spring and Summer, when the blood is reacting and making extra efforts to expel all morbid and poisonous matter, they make their appearance. External remedies cannot cure; they soothe and give temporary relief, but often clog the pores and glands, and the poison causing the trouble is thus shut up in the system to break out afresh later on. S. S. S., a purely vegetable blood remedy, cures all skin diseases by going down into the circulation, driving out all poisons and waste matters, strengthening the blood, leaving the skin soft and smooth, and building up the entire system by its tonic effect. S. S. S. cures Eczema, Poison Oak and all skin diseases that enter the system through the pores and glands, as well as those that have their origin in the blood. Book on Skin Diseases and any advice wished, without charge.

In 1896 I experienced at times patches on the inside of my hands that itched and burned, causing much discomfort. I was convinced I was afflicted with a type of Eczema. I consulted several physicians, and used several external applications, receiving but slight temporary relief. I decided to try S. S. S., and soon I found myself entirely cured.
