of the market continue to vary wide-Many dealers looked for a steady uningiven prices a slight boost. Parmers naturally be encouraged by the advance in view of all the talk of a lower level to be reached, may be willing to sell rly now. Trading was reported fairly

The likelihood of any further buying on apanese account is scouled by some traders that all the requirements of that of the opinion that the 50,000 tons ught for Japan will not prove to be half ought in view of the almost entire crop

ack at the present time and no new tonage engagements are announced. Late re-

pert:

No precipitation of consequence occurred throughout the state during the last week and all late crups, with the exception of corn and hops, are in need of a good souking rain. Light frost occurred Thursday morning on some of the bottom lands in Southern Oregon, but no damage resulted therefrom.

Threshing is practically completed in Western Drayco, while east of the Canada Mountains this work continues under favorable clicumstances. The yield of both when and barley continues good in the Columbia and the Grand Ronde Valleys, but in the Willamette Valley and Southern Oregon the grain yields were generally below the average.

tle," says Grange Judd Farmer. "Compar ively little blight is reported from Michigan ut many advices from that state my indi time for unfavorable developments to irreparable damage was done during the dry spell, this making the outlook for 60 to 75 per cent yield, as compared with 1904."

A general decline in milifeed was an nounced pesterday, bran (new) being quoted at \$18 and shorts at \$19. This lower price is in accordance with the graduel reduction in wheat values. Stocks are not heavy, as there is a good San Francisco demand.

PORTLAND QUOTATIONS.

India-There is so far no word that the disastrops drouth over wide areas in the Panjaith. United Provinces and elsewhere has been effectively broken. This drouth affects the Autumn harvest of native food grains, such a large part in providing food for India's teeming million. Wheat seeding is due to commence in September and may be continued till December.

Amarralia-Mail advices continue to describe trop prospects as very farorable.

Argentian-Cable advices received in Liverpool again report lounts in Santa Fe. Our own cable of last Friday reported favorable weather conditions and an excellent wheat plant in the North.

France-linfavorable reports of the harvest continue to be received from the north of France, but south of Paris growers appear to be fairly well satisfied. So far there has not been much trading in the new crop, except in the center. The weather has himdered the work of ingathering in some parts and in others it has been such and difficult owing to lodaing, while labor troubles have also caused hindrance.

SOARING RAIN NEEDED.

SAN FRANCISCO GRAIN MAR-KETS WORK FIRMER.

Accumulation of Grapes and Peaches Causes Weakness - Potatoes

Are in Oversupply. *

EAN FRANCISCO, Sept. 5 .- (Special.) - An undercurrent of strength was apparent in the ocal grain market. Wheat and barley options opened lower, but soon worked firmer of her harley at 90%c, the highest prices of the gated nearly 1500 tons, but included much chevalier from Salinas Valley. Cash prices

in limited supply and firmly held. Grapes and peaches accumulated largely over Sonday and with receipts liberal today, these ruits were decidedly weak. Several carloads ern Oregon, arrived and shippers will hardly make a profit in such an overstocked market. (holde Bartlett pears were firmer owing to decreased receipts and good inquiry. The apple market was in fair shape, supplies being moderate and stock fit for immediate use in good demand at firm prices. Citrus and

tropical fruits were steady. During the two days' respite from business, Diring the two days rever large and the arrivals of river potatoes were large and the market became weaker under the accumulation. Two carloads of sweets arrived. The combination price was \$1.65. Onlone were a alack demand.

Butter and eggs were more active and well sustained. Cheese was weak. Receipts, 42,200 pounds butter, 138,400 pounds cheese, 32,000 dozen eggs. VECKTABLES-Cocumbers, 20840c; garlic, 5855jc; green peas, 584c; string brane, 185c; tematoss, 30875c; okra, 50865c; egg plant, 59

Bears Cover Short Contracts

DAY'S NEWS IS FAVORABLE

Unparalleled Movement of Merchandise Over Ratirond Lines Excellent Condition of Corn and Cotton Crops.

from the short interests, which had been largely extended in the course of last week's aggressive bear campaign, was credited with a large part of the buying. The evident fact that the market had recovered its reseming power discouraged further attacks by the bear party and they were inclined to cover their short contracts on a large scale. The market gave every appearance of improvement as a result of the clearing out of weak ac counts in the course of last week's liquidation. Topheavy apoculative accounts end of the large extent and vulnerable pools had paid the penalty for their liquidicious commitments.

The foreign markets took a favorable view of American securities and the advance in prices effected abroad yesterday during the boliday here, was a potent factor in driving the bears to cover. As prices did not rise above the London level at once, there was a profit in buying stocks for London acrount on the arbitrage operations against raise made at the higher level there beforehend. A large part of the early demand here was attributed to this London buying.

The favorable character of the day's news helped to restore the confidence which was shaken while prices were falling tast week. Railroad traffic officials, in speaking of husbress and prospects, were driven to the use of superlatives.

The movement of general merchandise over foreign markets took a favorable

ness and prospects, were driven to the use of superlatives.

The movement of general merchandise over the railroad lines is pronounced unparalleled. Shipments of the sensiter grains are growing in volume and officials professed discouragement over the prospect of getting this movement over the prospect of getting this movement over the prospect of getting this movement cleared before the new corn begins to come forward in large volume. Shippers are protesting against the lack of adequate facilities on the part of the roads and complaints of ear shortage come from all quarters. The interruption by yellow fever embargoes makes again exception amongst the Southern railroads, but otherwise the chorus of complaints of cangested traffic is practically unanimous. The weekly bulletin of the Weather Bureau spoke with unusual absence of reserve of the excellent condition and the rapid advance of the corn crop. Even the cotton crop added its influence to the side of improvement by reason of the reported condition of August 25 issued by the Agricultural Department. White showing some further deterification from the July percentage, the figures were so much beavy univading of cotton and a slump in the price of that commodily followed.

The bear party in stocks was decidely upset by these various developments. During the first hour of the market, their buying was on an enormous scale, a large proportion of the dry's total bustness being concluded within that period. Prices being concluded within that period. Prices being concluded within that period. Prices being concluded within that period.

CAUSES SLUMP AT CHICAGO

Reaction in Grain Pit Aided by De clines in Northwestern Markets. General Selling by the Cash Houses.

CHICAGO, Sept. S .- Weakness developed in Initial quotations on December were a shade lower to highin higher at 8146514c. On fair demand from commission-houses Decem-ber touched 8146514c. A reaction, however, soon set in, resulting in a decline of over hi-cent a bushel. Selling by cash bouses, influenced by liberal receipts at Minneapolis, was a feature. Arrivals of wheat today at Minneapolis were 838 cars, compared with 659 a year ago. Another factor, apparently over-looked sariler in the day, was the large exports of wheat from Russia shown in the world's shipments. Notwithstanding numerous reports of crop failures in Russia, shipments from that country during the preceding week were 4,520,000 bushels out of a total move-ment of 9,364,000 bushels. The market was further depressed by an increase of 1,416,000 bushels in the amount of breadstuffs on ocean passage. Near the close, a decline of about a cent in the price of cash wheat at Minne-apolis caused additional selling of option months here. Por December the lowest point was reached at \$1@81%c. The market closed weak with December at \$1%c, a loss of %@

had a weakening effect on the corn mar-Another factor was the moderate decline in the price of corn at Liverpool. De-cember closed %6%c lower at 43%643%c. A report that abipments of oats from Russia would be small, owing to damage to the crop, had a steadying effect on the case mar-ket. December closed unchanged at 26%c. Provisions suffered a decided slump as a result of persistent liquidation, due to a 10c decime in the price of live hogs. Selling of September pork was a feature. At the close October was off \$25c, lard was down 125c

	and ribs were 10c lower. The leading futures ranged as follows:

NEW YORK, Sept. 6.—There was a slight recovery in the English tin market, the market electing at \$147 los for spot and \$146 lies for futures. Locally, the market was steady, with spot at \$2.00\$22.50c.

Copper was a shade higher abroad, closing per day. Free buss.

EXPORTS OF RUSSIA

at 670 Se for spot and 670 2e 60 for tutures.
Locally, however, it was unsettled, with buyers refusing to follow the recent advance and reports current, of, small transactions at a chaifs under recent prices. Eaks and Electrolytic are quoted at 16.25@16.75c and casting at 18.87ng/16.37ngc.

Lead was quiet locally at 4.85@4.90c, but joined in the general advance abroad, closing at 128 5s in London and at 5.75@5.55c locally.

Crop Failure Talk.

Spiler was injective and singler in both markets, closing at 228 5s in London and at 5.75@5.55c locally.

Iron was integular abroad, with Glasgow closing at 51s 6d and Middlesboro at 48s 6d.
Locally, the market was unchanged.

Break in Cotton.

NEW TORK, Sept. 5.—A sensational deciline in the prices of cotton futures followed the publication of the Government monthly cropreport today. Price to the report, the market had been very nervous, but generally firm, and just before the report was issued firm, and just before the report was issued firm, and just before the report was issued firm, and past 10 to 13 points higher. Fifteen minutes after its publication there was a break of nearly half a cent and a net deciline as compared with last Friday of 31 and 35 points.

Catton futures closed: September, 10.27c; October, 10.41c; November, 10.44c; December, 10.51c; January, 10.51c; February, 10.61c; March, 10.67c; April, 10.68c; May, 10.76c.

World's Wheat Yield.

BUDAPSET, Sept. S.—The Hungarian Minister of Agriculture in his yearly estimate of
the world's crops, shows the wheat yield to
be about the same as last year. Rye is at
least 10 per cent lower, bariey is somewhat
leas and nate considerably lighter. The maize
crop will be larger owing to the great American harvest, which more than makes up for
the large deficiencies in Europe. World's Wheat Yield.
