Today marks the beginning of the Man-ufacturers' carnival week at the Exposition, and by tonight the festivities will be on in full swing. The opening pro-gramme includes two drawings of prizes during the day and a brilliant reception

given by King Nogero to Queen Columbia, and a fioral parade in the evening.

The reception will take place at 8 o'clock at the foot of the grand stairway, and this will be the first public appearance of their majesties. The King, attended by royal suite and the Imperial band, will leave the Forestry cathedral at 7:45 o'clock, and proceed directly to the place of reception, Queen Columbia, accompan-ted by her maids of honor, and conveyed by a flotilia of gondolas, will arrive in the royal barge at the same time, landing near the bandstand. Immediately after the reception the royal party will pass up the grand stairway to a reviewing stand near the Sacajewea statue, where the floral parade will pass in review. Great preparations are being made for this latter event and it is expected that it will eclipse all past flower shows of

The distribution of prizes will be held 0:30 A. M. and 3 P. M. in the Manufactures bullding. Similar distributions will be also held on Friday and Saturday, and during the three days of the carnival from 5000 to 5000 prizes, aggregating in value \$10,000,

MAYOR OF BOISE IS HERE

James A. Pinney, Pioneer of Oregon, Visits the Fair.

James A. Pinney, Mayor of Boise, Idaho, a pioneer of Oregon, and a veteran of the Regue River Indian wars, in company with Governor Gooding, of Idaho, is a visitor to Portland and to the Lewis and Clark Exposition, having arrived with a delegation of over 400 from Bolse yesterday to attend the idaho day exercises at the Fair today.

Mayor Pinney was among the many who went to California during the gold ex-citment of 1848, but in the succeeding year moved to Southern Oregon where he rea sufficiently inspiring majority to insure its passage over any possible veto, and the early days he went to Boise. In 1881, when the village had 1600 inhabitants, he was elected Mayor.

It was explained that these terms must be compiled with by October I, as otherwise the commission would be empowered to offer the building to either the Oregon Historical Society, the Oregon Pioneers, the Oregon Grangers, or any other public institution of like character within the state, upon similar conditions. The matter was referred to the ways and means committee.

Dr. Davis addressed the Council in be-

half of the district lying west of Union avenue and south of Killingsworth ave-nue, claiming that this portion of the city is now entirely without fire protection on account of the recent disbandment of the volunteer fire department there, and is now at the mercy of the flames. He said the community wanted relief in some shape, and announced his intention of making a similar plea to the fire commit-tee of the Executive Board.

There was a reconsideration of the action of the license committee in revoking the licenses of A. L. Loewen-stein, 205% Washington street; S. Weinberger, of the Imperial Jewelry Company, 54 Third street, and S. Mazorosky, 8 North Third street, it being apparent that the committee acted solely upon the recommendation of Acting Chief Gritzmacher, and not through any personal knowledge of the facts. Willamette River was finally passed in preference to one that had been prepared by Councilman Shepherd. The latter accused the committee of film-fiam work in connection with holding a meeting at an irregular hour and adopting the Rushilght measure while he was absent, but the contention Council Re-Enacts Plumbing was of no avail, although Annand, Dunning, Gray, Preston and Wallace

supported him in his ideas.

Annand's resolution providing that the two plaza blocks between Third and Fourth, Salmon and Madison streets be kept clear of vegetable wagons and venders of other merchandise was referred to committee.

Keliaher introduced an ordinance ap-propriating \$259 towards the drainage of sloughs on the East Side.
A communication was read from Plumbing Inspector Hulme calling the attention of the Council to the necessity of establishing a sewerage system in the Brooklyn district. It was referred to the sewer committee.

YOUNG AERONAUT MAKES SUC-CESSFUL FLIGHT.

With Balloon of "The Gelatine" and Framework of Another Craft He Makes Ascent.

Another successful flight was made yes terday morning by a combination of the two airships at the Exposition, part City of Portland and part Gelatine, with Lin-coln Beechey, the 18-year-old boy aero-naut, at the helm. The balloon of the Gelatine was used, to which was attached the engine and framework of the City of Portland. The balloon attachment of the City of Portland, which was bedly dam-aged last Saturday by being torn by a branch of a tree, is still undergoing re-pairs. As the weather yesterday was very favorable, and the flight of the City of Portland had been announced, it was de-cided to use the balloon of the Gelatine.

The Photographers' Association of that Pacific Northwest, which is now in convention in Portland, met yesterday morning at Arion Hall to listen to the Guild's Lake, rapid headway being made. Upon reaching the Government building. the airship described a graceful figure eight around the towers, and then re-crossed the lake. It made a bee line for vers. Beechey hovered a few minutes over the newspaper row and the Administration building lowering and raising the airship at will. At one time he was so low that the rope hanging from the frame work lacked only a few inches of touching

Beechev returned to the aeronautic conourse direct from the vicinity of the Administration building. After making sev eral circles of the concourse, the airship slowly descended, alighting within five feet of the place whence it began its journey in the air. The general opinion is that the flight yesterday morning was the most successful and satisfactory flight that has yet been made. Not once, while he was in the air, did Beechey lose con trol of the airship, not even for a single minute. He directed it in any direction he desired, either with or against the wind. Several times, to demonstrate his absolute control, Beechey managed the sirable in such a manner as to have it remain stationary in the air, although a slight breeze was blowing. • The flight yesterday morning practically

satrates that the propeller and engine of the Gelatine are at fault. When Comilinson made his flight and his airship falled to respond to its propeller in the way it should, it was thought perhaps that the balloon attachment was out of pro-portion to the engine. The engine of the City of Portland is no larger than that of the Gelatine. The propeller of the Gelatine does not catch the wind as it should, although its revolutions are much more rapid. The City of Portland, or the combination airship, will make another flight at the Exposition Saturday morning at il o'clock. Tominson is at work on the engine of the Gelatine, and he hopes to have it in condition to make another flight within a few days.

## PASS NEW BOX LAW

Bennett Author of Ordinance Governing Saloons.

WITHIN SCOPE HOTELS

Masters, Sharkey, Vaughn and Wallace Vote Against Measure Supported by All Other Members of the Council.

In the regular course of proceedings before the City Council yesterday, Councilman Bennett introduced an ordinance regulating the sale of liquors in barrooms, saloons, hotels and restaurants and prohibiting boxes, boths, stalls and private rooms, alcoves and other rooms in connection with barrooms, saloons, hotels and restaurants in which liquors are sold in quantities less than one quart, and pro-viding as follows:

viding as follows:

It shall be unlawful for any person to conduct, carry on, open, or maintain any restaurant, bar-room, or saloon within the City of Portland that has connected therewith any bug booth, stall, or any private room, except as hereinbefore provided; provided, however, that this ordinance shall not apply to hotels or restaurants in which spirituous, mait, or fermented liquors are not sold in which any such box, booth, stall or private room is so constructed as to be entirely open upon the side facing any ball, hallway, passageway, or room, and the sides thereof do not exceed seven feet in height.

Appearances indicated that the measure

Appearances indicated that the measure ad crept into the procedings like the vis-Itation of a midnight marauder, but the element of surprise was lacking, and it has since developed that it had received full consideration at a secret meeting of 11 members of the Council on Tuesday night, at the office of Councilman Sharkey, in the Chamber of Commerce building, and that there was considerable opposition to its adoption in the shape

Sharkey, however, must have bolted the caucus, because the ordinance was no sooner introduced than he was on his feet with a cry about class legislation, and made apparently strenuous efforts to have it amended in some way.

Bennett contended that the only class

that would be affected by Sharkey's pro-posed amendment would be those who d'd not intend to conduct respectable places. He asked a suspension of the rules and that the measure be placed on its final passage.

Masters opposed any hasty action, on the ground that an ordinance of such grave importance should be referred to the proper committee. "If it will not stand investigation," said he, "It ought not to pass." Vaughn also spoke against suspending the rules.

The motion to refer was lost, and the ordinance was finally passed by the following vote: Ayes—Annand, Belding, Bennett, Dunning, Gray, Keilaher, Menetee, Preston, Rushlight, Shepherd, Wills—It. Noes—Masters, Sharkey, Vaughn,

The saloon men were in high giee last The saloon men were in high glee last night over the situation, claiming that the enforcement of the ordinance will have the effect of prohibiting the sale of liquor in the grillroom of the Portland Hotel by reason of its not being on the main floor, and will also prevent the serving of liquor in any bedroom of that and other local, hotels, including the Hotel Oregon. Perkins and imperial, while the hox and alcove features would stop the sale of drinks in the Pantheon, Grant sale of drinks in the Pantheon, Grant Scott's place, the Hoffman, Theodore Trautman's cafe, Frank Huber's and Dr. Brown's establishment, and that its enforcement will arouse such an obnoxious sentiment in the community that it will kill all future municipal legislation rela-

tive to boxes and that matters will ulti-maely drift back into old conditions, Some of them were so bold as to assert Some of them were so bold as to assert that Mayor Lane was placed in the position of not knowing whether he was afeet or hoseback on the proposition, holding that it would be up to him to order the police to raid the grillroom of the Portland Hotel as soon as it becomes a law, and that he would hesitate to do this.

Joseph Diener Arraigned.
