#### SHOOTS WHILE HE FLEES

Fusilinde Follows Him, but He Escapes After Disabling Only Policeman Who Knows Him.

Search Continues.

OMAHA, Neb., Sept. 6.-During a run ning fight between police officers and a man believed to be Pat Crowe, the alleged kidnaper of Eddie Cudahy, and a com-panion, just before midnight tonight, Parolman Albert Jackson was shot through the leg and the two men made their es-cape. None of the other officers was injured. A large detail of officers was immediately sent to the spot to try to locate the fugitives. The fight occurred locate the fugitives. #### Only One Man Knows Him.

Ever since Crowe returned to Omaha several weeks ago, Chief Donahue has had a force of officers, most of them in citizen's clothing, seeking to capture him. This task was extremely difficult, because e of the officers knew Crowe, Jackson teing an exception. It was learned by the police yesterday that Crowe was in Comaha and extra efforts were made to locate him. Jackson and Officer Leahy were sent to Lower Sixteenth street. Where Crowe was believed to be.

#### Shoots Policeman and Flees.

About 11 o'clock tonight Jackson saw a man whom he recognized as Crowe with a companion in a saloon at Sixteenth and Dorons streets. He sent Leahy for additional officers, meantime watching the man himself. The men left the saloon just as a car carrying additional officers came up, and Jackson started to follow them. Seeing that they were being fol-lowed, the two men opened fire on Jackson, one builet breaking his leg. The other officers started in pursuit, joining in the fusiliade of shots being sent after the fugitives. The latter, however, made good a temporary escape.

Half the police force was sent to the district in which the shooting occurred and was put to work to locate and arrest The pair. This they had not been success-ful in doing up to midnight.

#### Jackson Sure It Was Crowe.

While the police have no positive knowledge that one of the men was Crowe, they do not hestitute to believe that such is Officer Jackson, who was acquainted with Crowe, says that there can be no doubt of the identity of the man. He says the man recognized him, and, realizing that he was an officer, took a desperate charge of getting away by using his revolver. That the fugitive is a desperate man there is no doubt and every effort is being made to secure his

Commission Deny Rebates Are Given Armour Company.

WASHINGTON, Sept. 6.-The Armou Car Lines Company has been granted by the Interstate Commerce Commission a extension until September 10, in which to file its answer to the inquiry concerning rates between refrigerator lines and rail

The time in which to answer as set original finally expired yesterday, and the replies which came in were made public today The Southern Railway, the Atlantic Coast Line, the Central of Georgia, the Atchison Topeka & Santa Fe and the Pennsylvania have filed their answers.

The Santa Fe makes the same claim oncerning its business relations with the refrigerator lines. The Santa Fe denies that it, or any of its agents, undertakes the business of the refrigeration of shipments of fruits or vegetables, or that the Santa Fe Refrigerator Dispatch Company acts by or under the authority of the respondent. It is set forth that the Santa Fe Refrigerator Dispatch, which controls the business of refrigeration on the Santa Fe lines, has not acted for the railway in the application or collection of refrigerator

The road denies emphatically that by way of rebates or other devices it has collected a lower rate or charged more from some shippers than from others for the refrigeration of fults or vegetables in transit. Refrigeration charges are not published, says the respondent, for the reason that it does not engage in the business of refrigeration, and that it doe not make or collect any charge therefor

#### Government Will Let Inter-Island Business by Contract.

WASHINGTON, Sept. 6.-The Philippine Government has decided to discontinue the operation of the II coast guard the inter-island water ships and turn the inter-island water traffic of the Government over to commercial lines of steamers. To accomplish this purpose, specifications have been pre-pared and within a few days proposals will be invited both in the Philippines and this country, for carrying the mails and Government passengers and supplies over 21 routes in the islands.

This plan is practically a return to the methods of transportation in vogue under Spanish rule. When the United States established civil government, the II coast guardships were purchased and put into commission. Previous to this four commercial companies, owning lines of steam-ers, conducted the business; but since then the Government ships, including the operation of several transports belonging to the Quartermaster's Department of the Army, have been carrying the several states of the control of the carrying the several states of the control of the carrying the several states of the carrying the carrying the several states of the carrying t Army, have been carrying the mails and all of the Government passengers and freight traffic.

Some time ago complaint was made to the Philippine Government by the owners of merchant steamers that their business had been ruined through the use of Gov-ernment ships. The Civil Governor appointed a committee to investigate, and the action decided upon is in accordance with the recommendation of this commit-tee.

There is a double reason for asking American ship-owners to enter the compe. tition for the shipping trade of the islands, one to prevent a combination among the commercial lines now established there by which an exorbitant price might be se-cured for the transportation of the mails. Government freight and passengers, and cured for the transportation of the mails.
Government freight and passengers, and
the other to meet any possible complaint
on the part of the American ship-owners
that they had been excluded from partici-

pation in this business.

The proposals are so drawn as to extend for one year, the period in which steamers may be put into the trade, giving time for the construction of light-draft steamers, the type required in those waters.

# Splendid New Silks

Opens Today in the Silk Store. Fifth-Street Annex-First Floor.

Continuing Three Days-Today, Friday and Saturday Only

When a Portland store is given business that should naturally belong to New York, there must be good reason for it. In the case we cite we think the reason may be summed up in one word-Values.

One day last week two ladies-tourists from New York City-came shopping to our "Silk Store." They both have accounts with one of New York's largest and leading retail silk stores. We sold them silks and makings for three gowns, and they assured us they were positive they saved more than enough to pay for the making by purchasing here. So are we. This store does not get all it could for a piece of silk, rather it aims to give best possible values. Sometimes—like all stores—it gives unusual bargains, of which the following is a fair example.

There are thousands of yards of silks in today's offerings.
