

HOTELS ON CANAL

Shonts Lets Contract for Housing and Feeding.

PROTESTS FROM LOSERS

Markel, of Omaha, Will Build Hotels and Restaurants Across Isthmus—New York Bidders Appeal to President.

NEW YORK, Sept. 8.—Chairman Shonts, of the Panama Canal Commission, announced today that he had awarded a concession for feeding and housing the greater number of the canal employees to J. E. Markel, of Omaha. Following a month's visit to Panama, Mr. Markel has worked out a comprehensive scheme, which includes the early establishment of ten hotels along the canal and railroad, each of them to accommodate from 150 to 250 lodgers, and twice as many diners. These hotels, it is declared, will compare favorably with the better class of commercial hotels in this country, and will be used chiefly by the higher-salaried employees. The average rate for board and lodgings will be about \$36 a month.

For the laborers employed on the canal, or in any way identified with that project, the concessionaire will at first establish 20 commissary camps and later 100 additional ones, each with kitchen and dining-rooms. Laborers will have the privilege of buying their food cooked or uncooked at these camps, and in either case will be furnished with the necessary table appointments. The average rate for laborers for cooked food will be about \$14 a month.

Food Trains Every Day.

Part of the contract provides for transportation at cost of all food supplies and materials used by the concessionaire. It is the intention of the concessionaire to run a train across the Isthmus every day from Colon, supplying the proposed hotels and camps with fresh meats, fruits, vegetables, bread and laundry; also daily supplies of ice.

The amount involved in the contract, which covers a period of five years, and will become operative as soon as Mr. Markel concludes certain preliminaries, is not disclosed, but runs into millions of dollars.

Losing Bidders Protest.

H. Balle & Co. and Hodgins & Dumas, bidders for this city, who were the only other bidders for the Panama concession, today sent telegrams and letters to President Roosevelt, at Oyster Bay, protesting against the awarding of the contract to Mr. Markel. At the same time the two firms addressed letters to Mr. Shonts withdrawing their bids. In the letter that this action might invalidate an award to Mr. Markel by leaving only one bidder in the field. In a statement given to the press, the protesting firms declare that the Panama contract involves no less than \$30,000,000.

Hodgins & Dumas assert that, after presenting their bid, they received a letter from Mr. Shonts, in which he intimated that their figures were too low, and set forth a number of conditions which were not mentioned in the draft of the proposed contract, on which the bids were based. Hodgins & Dumas declare that they received this information about 3:30 o'clock on Wednesday afternoon, and were told by Mr. Shonts' secretary that his principal required an answer by 5 o'clock. Deducting the time consumed in telegraphing, they assert they had only ten minutes to revise their bids.

Mr. Shonts, in an interview tonight, declared the charges baseless and absurd.

ENGINEERS DISCUSS CANAL

Take French Location as Basis and Consider Details.

WASHINGTON, Sept. 8.—The Board of Consulting Engineers of the Panama Canal met today. The discussion related to the size of the locks and of the canal itself.

The complete conclusion reached by the board as to the results of the three-hour meeting today, was that the location of the canal as marked on the official maps of the Commission known as the French location, should be accepted as a basis for the detailed discussion.

The questions as to the type of canal to be built, its depth, width and height, and the number of locks to be used, were all touched on, but no conclusion was reached.

On Tuesday morning the full board will meet at Mr. Parsons' office and thereupon return to Washington.

WE MEAN WHAT WE SAY!

A few years ago, when Roger Walcott—now deceased—was Governor of the old "Bay State," the teacher of a class in a public school which included a young son of the Governor asked the pupils one day if they knew who was the Governor of Massachusetts. No one knew. The teacher suggested they ask at home and be prepared to answer the question next day. The following morning young Walcott was asked if he knew who was the Governor of Massachusetts, and he replied: "Pa says he is—but he is such a joker."

No matter how reliable a person or a store may be, there will still be some "doubting Thomases" who will question their statements at times. For instance: A well-known Portland lady came into the store on Monday last, and, walking up to the manager of the "Lace Store," said: "I saw in the paper this morning that you were selling \$1 chiffons today for 48c the yard. Of course, I know that 'ONLY AN ADVERTISEMENT'—but if you've a real good chiffon for 48c a yard I would like to see it." Our lace chief quietly led her up to the counter where the advertised chiffon was on sale, showed it to her without remark. "Why!" she exclaimed, "this IS a REAL dollar chiffon." And after taking a piece to our "dark room" and turning on the electric lights, that she could better get the effect of the goods as they would appear made up for evening wear, she purchased materials for a beautiful evening gown.

Of course, it was a REAL \$1 CHIFFON—otherwise it would not have been advertised as such. That woman was a new-comer to the city, and we've won her business by telling the TRUTH. How easy it is to BUILD BUSINESS, after all—when one has the foundation of TRUTH to start from and the right material to build with. We don't wonder the values we offer excite surprise among those who haven't an every-day acquaintance with the store—they're the biggest surprise the tourists meet with on their trip. But home-folk are used to getting grand bargains here—they expect them and we never disappoint. Today's are among the best of the new season. But—shop before 6 P. M. This store is not open evenings.

The Newest in Autumn Millinery
"Bijou" Salons—Annex, Second Floor.

The Pretty Patent Leather Hats 98 Cts.
The prestige of this season by its triumphs in High Art creations and so well established its reputation for exclusive values that no woman is content to select an expensive hat without consulting her tastes here. But the popularity of this department of our great business is seen to a greater extent in the medium-priced hats, some made in our own workrooms, others the conceptions of America's leading Eastern milliners. Hats which show all the beauty and style of the higher-priced ones—at a trifling expense.
The PATENT LEATHER HAT has taken a strong hold upon the popular fancy of smartly dressed women this season, and we again demonstrate our leadership in value-giving by offering these stylish hats, suited for wear of miles or months, a splendid "in-between-season" hat in ready-to-wear shapes which embrace French Salons and Continental—a lot just received from New York—at a choice.....98c
