Special Announcement of Interest to Boys and Girls

AND THOSE FATHERS AND MOTHERS WHO ARE INTERESTED IN A NATIONAL EDUCATION FOR BOYS AND GIRLS.

Look Out Boys! The Girls Have Entered the Race!

And it's evident they mean business. A course in Manual Training is of as much benefit to girls as it is to boys or grown-ups. And the girls seem to know it, and have made a strong start to win out a prize or two in this contest. A lady said yesterday, and she's the great city wife of a well-known business man of the city: "I would like to take that course myself, and have one of those benches and set of handsome tools set up in a room at home." And we directed her to the Portland branch of the American Manual Training School in the Falling Building. Portland folk have learned to think much of the opinion of that eminent and reverend gentleman—

EDGAR P. HILL—
Read What He Says of Manual Training:

AN OPEN LETTER.

454 Aljer Street, Portland, Or.
American Manual Training School, 401 Falling Building, City.

Gentlemen—Some months ago I purchased an American Manual Training outfit for my boy. We are much pleased with it. Mr. Beardsley's method is admirable. I believe heartily in manual training, for it is my conviction that when a boy has learned to handle tools skillfully it will be easier to do the same thing when it comes to intellectual and moral things. Very sincerely,
EDGAR P. HILL.

Given Away Free 3 Complete Scholarships With the American Manual Training School of Chicago.

This school is under the direction of that famous instructor, Professor R. F. Beardsley, who was the pioneer in introducing Manual Training into the graded schools in the United States. Professor Beardsley was for seven years the Supervisor of Manual Training in the Chicago public schools. The entire course of instruction and the individual requirements of students is under the personal supervision of Mr. Beardsley. It helps boys to find their work—to find themselves. It cures em of the drifting habit and teaches them to spend their leisure time in a rational manner. Boys whose ages range up to 20 years are in the most receptive mood for this training, though many older boys find it a delightful occupation for leisure hours. The three scholarships we have secured will be awarded on Thanksgiving day to the three boys or girls who receive the three highest marks in the popular voting contest now on. A vote will be issued with every 25-cent purchase. Ballot boxes are distributed conveniently about the store, as in former contests, and the three boys or girls receiving the largest number of votes before 6 P. M. of Wednesday, November 23, will each receive a FREE SCHOLARSHIP WITH ALL TOOLS AND BOOKS NEEDED IN THE COURSE.

See the outfit in the Manual Training Demonstration Display—Fifth-street window. Get your parents, teachers and friends to vote for YOU, boys. Remember—every vote counts, and the winning of contestants will be published during the week on certain days throughout the contest.

"COMFORT" AIR-TIGHT WOOD STOVES.

Made of sheet steel; something new; all parts made by machinery and dies, therefore, all parts are alike and fit perfectly. Top double-seamed to body; no rivets; highly finished, pleasing and smooth in appearance.

"QUICK STEEL HEATERS" FOR COAL.

The improved manner of attaching the top and bottom to the body makes it absolutely air-tight. Being made of heavy steel, in place of cast iron it becomes heated through quickly and radiates the heat into the room shortly after starting the fire, thus saving coal. It presents a pleasing and smooth appearance and is a new feature in Heating Stoves.

"Peculiarities"

A Portland (Or.) man tells a good story in a leading Eastern publication that forms a good application for a store "editorial." It runs thusly: "A gentleman who was in the habit of stuttering was asked why he did so. 'Th-th-that's my p-p-peculiarity. Everybody h-h-h-has his p-p-p-peculiarities,' replied the gentleman.

"I have no peculiarities," said the inquirer.

"D-d-d-don't you s-s-s-stir your t-t-tea with your right hand?" "Yes."

"Well, t-t-that's your p-p-p-p-peculiarity. Most p-p-p-people u-u-use a spoon."

Yes—we all have our peculiarities—stores have theirs. It's a peculiarity of ours that we want to give our patrons best service. Most intelligent service. We aim to employ the most skilled helpers, the most pleasing salespeople. We aim to instruct them in the art of being pleasing to you; of building a character and good health for themselves; of never misrepresenting, even tho' they lose a sale by telling the TRUTH. We aim to make them cheerful, that they may spread a cheerful atmosphere about them. In short, we aim to help every person in our employ to better himself or herself physically, financially and morally. We endeavor to show them their own possibilities, to help them to HELP THEMSELVES; to elevate the profession they are engaged in. Wouldn't you prefer to be waited on by INTELLIGENCE rather than by STUPIDITY? Wouldn't you rather look up to the clerk who serves you and admire his or her CHARACTER that refused to deceive you, tho' a one-time sale might depend on his doing so, rather than feel a distrust and abhorrence of the person whom you know to be wholly without PRINCIPLE, who comes forward to wait on you when you enter a store? The former means BUSINESS BUILDING, the latter prehistoric storekeeping. The former is "Scientific Salesmanship," made up of TRUTHFULNESS and APPLIED KNOWLEDGE. Which do YOU prefer—reader? To associate with Intelligence or Ignorance when shopping? We prefer to surround you with the former. Some stores don't care—or prefer the latter. That's their "PECULIARITY."

Wonderfully Pretty Autumn Millinery

"Bijou Salons"—Annex—Second Floor.

Every hat has the chic and smart effect of an imported Parisian pattern hat that leaves the OLDS, WORTMAN & KING workrooms from the deft fingers of our artistic milliners. Hats are of better quality and newer styles than are found elsewhere. In many instances we copy Paris hats, not the ones we show, for those are exclusive, and will have no duplicates west of Chicago, shown there only by that city's style leaders. Our hats win every woman's admiration at sight. The prestige of our millinery salons is strengthened this season by its triumphs in high art creations—and so well established is our reputation for exclusive models that no woman is satisfied to select an expensive hat without consulting her tastes here. But the popularity of the millinery store is built up to a greater extent in the medium-priced hats, which show all the style and beauty of the higher-priced ones—at a trifling expense. We invite your inspection, whether you have buying in mind or not. Here are the correct and authoritative styles, with no more to pay than you would be asked by stores of absolutely no standing in the style world for inferior productions of questionable parentage. Choose as you will.
