ALL CHINA AROUSED

Boycott Taking Form of Anti-Foreign Crusade.

MERCHANTS CAN'T STOP IT

Begun to Shut Out Competition, It Spreads Through Efforts of Agitators and Reported Outrages in America.

SHANGHAI, Aug. 13.—(Correspondence of the Associated Press.)—The American boycott in China is already more than a commercial menace. It is now considered by many to be the forerunner of an anti-foreign agitation. Business men in Shanghai, who at the beginning were in-clined to laugh, have been astonished at the manner in which the propaganda has

been promulgated in the interior.

In its conception the boycott was believed to have been fathered by a group of officials in Pekin. According to re-port, certain Chinese firms with a jarge quantity of American goods in stock tool advantage of the movement. They them-selves had bought forward as far as June. 1906, and were anxious to keep their smaller competitors out of the market. The latter would be prevented from buying, and the instigators of the scheme would be able to sell at their own figures. Mr. Rockhill, the American Minister, and the Consul-General in Shanghal, Rogers, assured the Chinese that their case would be considered by the next session of Congress and for six weeks there

Toward the end of June, however, Mr Conger, ex-Minister to China, made a speech in which he ridiculed the idea of Chinese organization. This speech, wired out at once by the Chinese agents in America, brought down a storm of in-dignation in the native press.

Campaign Becomes Vigorous.

The three students and their sister who related to influential officials. The incident occurred at a most unfortunate time, for there was violent comment in the Shanghai Journals and the demand for an effective boycott was resumed. Cer-tain of the younger men in Shanghai, most of whom had been educated in Japan, or whom had been educated in Japan, started a vigorous newspaper campaign, insisting that strong measures must be taken to force the United States to revise her immigration laws. A certain Shanghal paper, edited by a Japanese and supposedly subsidized by Tokio, was par-ticularly bitter in its attacks on America and Americans. The native press printed sensational stories, claiming, for example, that 750 Chinese had been murdered in New York and that similar affairs were of daily occurrence. Subscrip-tions were collected from the wealthy merchants in Singapore, Penang, Hongkong, Manila, Canton and Shanghai and throughout the country. Placards were posted in the river front cities, cursing and reviling those who were weak enough to use American goods. Americans were hooted in the streets.

Agitators Now in Control.

The movement has now passed entirely ut of the hands of the merchants. The larger piece goods, kerosene and cigar-ette wholesalers all suggested that it was time to call a halt. But the agitators were in power. Where ten years ago there were not more than a dozen, there are today 50 Chimmen who read newspapera. The reports of murders and out-rages in America have incensed the peo-ple. They now refuse even to buy cer-tain kinds of Japanese and Shanghal milled goods, because they resemble the American articles, being afraid that the merchants will try to dispose of sor their boycotted stock under another

guise.

The men who encouraged the scheme American manufacturers must be paid for all the goods that have been or-dered ahead, and it is doubtful whether a number of the wealthiest men in Shanghai will be able to weather ess they are able to sell or cancel their orders.

CHINESE BOYCOTT PLACARD

Consul Sends One, but Says They Can't Maintain Movement.

WASHINGTON. Sept. 18.—The Department of Commerce and Labor has received from a United States Consul in China a copy of placards that have been distributed in various provinces to stimulate the boycott against American goods. The placards are 4 by 11/2 feet, and are district, covered with crude drawings showing American policemen clubbing Chinese and hanging them by the queues. Underneath the picture is the statement: "This is the way the Chinese are treat-ed in the United States."

The Consul, whose name is withheld, wrote the department that the Viceroy of his province is doing all he can to pre-vent the distribution of the offensive pla-cards, and has offered large rewards for the names of the persons responsible. He adds that, in spite of the campaign conducted by anti-foreign extremists, the boycott is waning.

WASHINGTON, Sept. 11.-Postal recelpts for the 50 largest cities in the United States, compiled by the Third Assistant Postmaster-General, aggregated for August \$5,819,151, against \$5,334,917 for the corresponding month in 1904, or an increase of 9.07 per cent.

The highest percentage of increase shown by any city was that at Portland, Or., where the Lewis and Clark Exposition raised the receipts to \$44,965, an increase of 54.05 per cent over the receipts

for August, 1904. The next largest increase was 25.51 per cent at Los Angeles. The only cities showing decreases were St. Louis, due to the heavy receipts last year from the Louisiana Purchase Exposition in that city, and Peoria, Ill., and St. Joseph, Mo. The receipts of the five largest cities were as follows: New York, \$1,197,679; Chicago, \$80,405; Philadelphia, \$331,155; Boston, \$336,028; St. Louie, \$299,403.

BLACKMAIL TO BANDITS

Russian Oil Men Reveal Impotence of Government at Baku.

LONDON, Sept. 13.—The Petroleum Re-view of the current week publishes a remarkable memorandum presented by the Baku oil producers to the Russian Minister of Finance, M. Kokovsoff. It de-clares that, owing to the utter helplessness of the police, the producers are compelled to purchase safety from the ban-dits living in the villages of Balakhan, Sabontchi, Romani and Zabral by periodcal payments of large sums of money, or that otherwise the whole of the oil region would suffer from their depredations. The producers propose that the inhabitants of these villages, which they say are mere dens of robbers, should be transferred.

The gunboat Princeton, now at Pana ma, is the nearest warship to Ccotal, in the Province of Segovia, where Albers is imprisoned. But the last-named town is 70 miles inland, over a rough mountain range, from the coast, and the trail is not passable by any vehicles. Amalpa, on the Guif of Fonseca, on the southern boundary of Honduras, appears to be the nearest port to Ocotal. The Parlimon Company, whose agent

Albers was, has sent a lawyer named Brubaker from Philadelphia to Ocotal to assist in his defense.

An American gentleman of much intelli-gence and high character, who has been traveling in Central America for the past few months engaged in scientific work, has written a detailed account of the Albers case to friends in Baltimore, which has reached here. He states that he is entirely familiar with the case, and reports as follows:

The Limon Company, of , which Albers is the manager, is located at Jalapa. Segovia, near the border of Honduras. This corpora-tion is engaged in gold and silver mining and in raising wheat and tobacco and has made quite large investments in good faith.

It appears that in March, 1905, a company of armed men, led by one claiming to be a licutenant in the Nicaraguan army and alleging that it was sent by the Government To-bacco Syndicate, demanded of Albers that he permit it to enter and carry away his stock of tebacco under selsure.

Afters replied that he had no contraband tobacco; that he obeyed the law; that he paid the government; that he held official receipts for all tobacco in his stores. He furthermore said that the first who tried to enter his door would be shot, but he would permit the licutenant to go through with one man and inspect the tobacco, in order that his assertions might be proved. This was done and no contraband tobacco was found. Following the search of the Limon Company's premises the executive at Managua, the capital of Nicaragua, issued a decree ordering that any one holding tobacco in stock should obtain a permit and should be fall to do this, his tobacco would be configurable or the contrabacco applied for permits and were refused them.

Evils of Immigration Traffic.

WASHINGTON, Sept. 13.—Dr. Morris Fisher Berg, of New York, an agent of the Bureau of Immigration, who was sent abroad to investigate allens afflicted with loathsome and contagious diseases, today made his report to the Department of Commerce and Labor. He says that after a very careful report, that steamship companies can prevent these undesirable classes from coming to the United States. He charges that there are a great many frauds, particularly in Italy, practiced in getting immigrant passengers for steamships coming to this country, and that one of the greatest evils is the employment of "runners" who go through the country and tell the peasants that all America is a "land of milk and honey." The report does not make any specific recommendations.
