been found in the home of Mrs. Julia McMaher, of Pelham Road, near Eastern boulevard, and consist of overalls and jumpers. These are smeared with blood. The last seen of Girard was when he left home on Thursday morning at 4 o'clock.

FOUND UNDER HAUNTED OAK

Body of Young Woman Is Identified by Family.

NEW YORK, Sept. 17.—The body of the young woman found under what is known as the "Haunted Oak," just east of Pelham Road, in The Bronx, Saturday, was identified today as that of Augusta Pfeiffer, 22 years old, whose home was in Pelham Road, a few hundred yards from the spot where her body lay. She was the stepdaughter of William Pfeiffer, who was also her uncle, her mother's first husband having been Pfeiffer's brother.

The identification was made through Frances Breiner, the daughter of Mrs. Louise Breiner, with whom Miss Pfeiffer was living. Miss Pfeiffer was well known and respected in the neighborhood in which she lived. She and the Breiner house Wednesday evening to meet her brother, and carried a small dress suit case, in which she intended to put some clothing that the brother was to bring her. This case was found near her body.

The walk from the street-car to her home is a long one, and it was while on this journey that she was assassinated, according to the police theory. The autopsy today showed that she had been dead about 12 hours when her body was discovered. This would place the time of death early Saturday morning, and following this theory, the girl must have been unconscious for a considerable period, or, if conscious, she was too badly injured to move.

After questioning members of the family and others, the police reached the conclusion that the crime was committed by some one of the rough element in the vicinity.

A man and a woman and five boys were held by the police tonight as witnesses. Captain Burfield at the same time intimated that the police had a definite clue as to the murderer, but said the man wanted left the city.
