# NO MORE HOP SALES

Market May Open in Earnest at Any Time.

### REPORTS FROM THE YARDS

Twenty-Five Per Cent Shortage in Elliott Prairie and Needy Districts-Weather Bureau on Conditions in Valley.

\* HOPS-No further transactions reported in Oregons. Mail advices FRUIT-Straight car of California

WHEAT-Active trading in interior. Biggs-Latt in local demand, POULTRY-Receipts not equal to

requirements. SUGAR-Another 10-cent decline in refined grades. \*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

erday. The market may drag along to a life ess way for two or three weeks, or it may open suddenly any day. Some of the local calers believe there will be exceedingly lively times before this month is ended, while others do not look for activity before the middle of

Picking in this state will be almost over by the close of this week, though a few of the arge yards will run over into next week. Captain George Pope, writing from Woodurn, sends The Oregonian the following:

"As a matter of information I give you estimated results of the hop crop in this sec ion (Elliott Prairie and Needy district). Of 15 yards finished to date the shortage over last year is fully 25 per cent. Only two yards ere will approach last year's output. The Pope and Blocus yards are in all probability the only once that will come down with last year's figures or within 400 hoges of the same, The quality is superb this year."

The weekly bulletin of the Weather Bureau entains the following hop reports from its OTTEMPORIÕESTR:

Tambili County - Hop-picking about two thirds done; quality good, quantity better than last year; rain did no damage to hops.

Marton County-Hope will be about all picked by the last of this week; cain did not damage them. Polk County - Hop-picking well advanced.

some small yards finished; crop clean, well matured and of excellent quality; some yards show an increase in yield over that of last year, while others show some loss; the aggregate yield in this vicinity will be alightly ow that of former years,

Linn County-The continued good weather has enabled hop-pickers to finish in some yards, two or three days more will complete the picking; yield fair, quality good. Washington County-Hop-picking will be

done in a few days, the yield is better than was expected. Tambill County-Hop-picking is drawing to

In a letter to the Sacramento Union of Sep-ember 16 M. H. Durst, the Wheatland grower, austi: The U. S. A. crup will run from 200,000 to

000 bales not more. Our net exports will from 40.000 to 60,000 bales, leaving about perding to she United States Internal revenue reports the hop concumption in the United States last year was about 224,000 balon. The states instruct revenue reports the hop consumption in the United States last year was about 224,000 halton. The bears deny that any such quantity of hops was used. There is no doubt brewers "skimp" as much as they can, but they can hardly use less than 85 of a pound of hops to the barrel of beer. It seems to me that the following desired a quieter market failing off in the past two weeks that the failing off in the past two weeks that the failing off in the past two weeks that the failing off in the past two weeks that the failing off in the demand yesterday was noticeable. Prices were still firm and unchanged.

SAUSAGE—Ham, 13c per pound; minced ham, 10c; Summer, choice dry, 174c; bologue, long, 54c; welnerwurst, 8c; liver, 6c; blood, 6c; boronsourche described and the same of the past two weeks that the failing off in the past se much as they can, but they can bardly use less than .85 of a pound of hope to the mption demand for 1964s has been seemingly decreased for the reason that all brew-ers have been buying and using all the old stock they could key hands on. It is generally admitted that the old stock

is shorter now than for years. One thing is sure, what was brewed last year can never be used again. The brewers cannot "equeeze as our grandmothers used to do When ten was high.

when ten was high.

Every hale of 1905 hope that is found will be needed, even if England has the large crop predicted. Estimates for England run from 400,000 to 650,000 cwts. As I stated once before, the best crop in the last 20 years was only 12-70 cwts, per acre, or 570,000 cwts, on the present acrongs. If the 1905 crop exceeds that it will be phenomenal. I don't think it will the conditions there are not seen as will. The conditions there are much as they are here—fine ones—but if they yield no bet-ier than here the crop will not be more than

It will be the first of October before they can really say what the English crop has come down at. So we need not, any of us, he scared by the almost daily reports we hear be scared by the almost daily reports we hear of the tremendous crop in Eugland For my part I do not take much stock in them, and it seems to me that we can all afford to go slowing with our sales until October and November, when there will be a demand for quite 160,000 baies of the 1800 coast trop.

One thing is sure, no foreign hope can be imported without paying the duty of 12 cents per pound. So we need have little fear on that accest I can see no reason why prices should not rule from 20 to 25 cents, unless the growers will sell for less, in which event they have only themselves to blame.

Of conditions in New York, the Waterville Times of September 12 eaild:

Those growers who finished picking last week can congratulate themselves, for the weather this week or far has been done in the yards, which are not improving by standing. The late storms will still further decrease the yield, for there must be many hope that will not be worth picking, owing to their turning mouldy. Very few now place that estimates shows 50 per cent of last

On conditions in New York, the Waterville Times of Soptember 12 seals:

Those growers who finished picking law week can compractical themselves, for the week concurrent the themselves, for the superville week to far has been wet and marked the provided of course movid does not affect them. Where the sample, The fact were greatly to their turnyl-more greatly to the provided of course movid does not affect them. Where provided of course movid does not affect them. Where picking has commended the hops are commended as from 11 to 15 and 16 cwt, per array, and the ground suckers, 120, 120 to 15 cwt. Per array in the crop, will be a record of the provided of course movid does not affect them. Where picking has commended the hops are commended as from 12 to 15 cwt, per array, and the ground as followed as some provided of course movid does not affect them. Where picking has commended the hops are commended as from 12 to 15 cwt, per array, and the greatly on Monday and Tuenday, but the provise movid does not affect them. Where the conditions are commended as from 12 to 15 cwt, per array, and the greatly on Monday and Tuenday, but the provise movid does not affect them. Where the conditions are commended as from 12 to 15 cwt, per array, and the greatly on Monday and Tuenday, but the provise movid one may pieces will average as ton per area. Picking has a preced after the provided of course movid does not affect them. Where the course movid does not affect them. Where the conditions are commended as from 11 to 15 and 16 cwt, per array, and the provided of course movid does not affect them. Where the conditions are presently looks like averaging 12 cwt right through.

Mid Kent.—The reports this week with but for examptions all mysak of more movid, which cannot be a record only the provided of course movid of the provided of course movid to the provided of course movid to the provided of course movid to the provi

ewing. The splendld weather of the last weeks has had an excellent effect. Behemia and Bavaria will produce one of the biggrest and best crops of hope ever put upon the market. Our hope show perfect in every par-ticular, being full of lupuline and bright in color. Our crop estimates are as follows:

## Rains Did Not Injure Hops, but Were Detri-

mental to Prunes. The weekly report of the Oregon Weather Sureau says in part: The long dry spell was broken on the 12th by good rates which fell generally in the western and northern portions of the state. These rains were supplemented by showers in scattered places on the 13th, 18th and 17th.

Some Fall plowing and seeding has been done, but the soll is not soft enough for this work to become general. Light frosts occurred in exposed places on several days, but they did Hoppicking is nearly completed and the crop to turning out better than expected. The raine did not injure the hops, but they were detrimental to prunes, the picking and dry-ing of which are well advanced. Reports indicate that the prune crop will be larger than last year, but much less than a full

Late apples are ripening and indicate om fair to good yields. Corn is nearly ripe and it is a good crop Potatoes are generally free from bitght and the prospects for a good yield is much bet-ter than it was before the rains set in.

SALEM, Or., Sept. 19 .- The best hope in the world this year are Oregon hope," says John Carmichael, a buyer for English dealers. "Oregon growers will make a mistake if they sell before samples of the Oregon crop reach England. The quality of the English crop is poor, and the Washington, California and New York hope are inferior to those of Oregon. English brewers must have some choice home for the best beers, and they will send to Oregon to get them. I do not think the market will be fairly open until England has seen our samples."

### Wheat Active and Steady.

The wheat market continues very active, with farmers offering liberally. In fact, the selling is so free that the railroad is unable to bring to tidewater all the grain offered it. Dealers are in hopes that the transportation difficulty will soon be solved. The tone of the market is good and prices hold steady at apple cents for club and 72973 cents for blus-

Less Demand for Eggs.

mand was very alrong, and the receipts did

#### not last long. There was no change in the butter situation.

Sugar Declines Again, The eugar market took another 10-cent drop yesterday on all refined grades, making a decline of 20 cents in two days,

Bank clearings of the Northwestern cities yesterday were as follows:

### Seattle 1,221,780 Tacoma 579,457 Spokane 464,705 PORTLAND QUOTATIONS.

Grain, Flour, Feed, Etc. FLOUR—Patents, \$4.50@4.95 per barrel; straights, \$4.64.25; clears, \$3.75@\$4; Valley, \$2.90@4.10; Dakota hard wheat, \$6.30@7.25; Graham, \$3.25@1.75; whole wheat, \$1.75@4; rys flour, local, \$5: Eastern, \$3.50@5.60; cornmeal, per bais, \$1.90@2.20.

Heavy Movement in the East Causes Weaker Markets.

DEPRESSION AT CHICAGO

Buying by Bull Leader for Time Supports Market, but General Selling Causes an Easy Closing.

CHICAGO. Sept. 18.—Heavy movements of wheat in the Northwest had a heavy effect on the market here today. Sentiment at the opening was rather bearish, and initial quotations showed alight tosses, December being off a shade to highic, at \$25,654c. The principal factor contributing to the caser tone was the continued marketweet movement of enormfactor contributing to the caster tone was the continued marketward movement of enormous quantities of new wheat in the Northwest. Notwithstanding additional rains throughout the greater portion of the Spring wheat belt, arrivals today at Minneapolis and Duluth totalled 1083 cars. At Winnipeg, also, reports showed a marked increase. It was reported that the movement would be much greater but for the inability of the railway companies to furnish sufficient cars. Lower greater out for the inability of the railway companies to furnish sufficient cars. Lower prices for wheat at Liverpool added emphasis to the bearish sentiment here. For a time the market had the appearance of being on the verge of a sharp decline. Pit traders sold the verge of a sharp decline. Fit travers soon freely and caused a slump in the December delivery to 85 jc. A prominent bull, however, came to the support of the market. Forced by the demand from this source, the market raillied, December advancing to 84 jc. Later the market eased off again on renewed selling by out traders and commission-house. selling by pit traders and commission-houses The close was easy, with December at 83%

eavy rains in the Southwest, had a bullish effect on the corn market. The market closed firm. December opened unchanged to be lower at 44%@445c, mold up to 455c, and closed at 44%c. Onts were steady. December opened steady

at 280/28%c, sold up to 28%c, and closed at 28%c. Provisions were comparatively steady. At the close January pork was off 10c, at \$12.52%; lard was off 2565c, at \$6.82%, and ribs were down 2560c, at \$6.4566.47.

## MONEY TENSION RELAXED

BUT STOCK PRICES DESCEND TO LOWER LEVEL.

Paris Bankers Will Place No Obstacle in the Way of Gold Importing.

NEW YORK, Sept. 18 .- It has been assumed for some time past that anxiety over the oney outlook was the sole restraining influence against speculative advances in stocks, the general brightness of the industrial situation serving to cause a chaing against this restraint in professional operations of all classes. The interesting developments in the mency market today were distinctly a relaxing of tension, but this did not cause interest in stocks, the tendency of prices being toward a lower level. The technical condierable advance, which was made in the face of admonitory pleadings on the part of a large element in Wall street, might be held accountable for the reaction in itself.

There were some factors of a positive nature against the market. On the side of the money situation the meet disappointing was the ex-pression of the officials of the Hank of France and other Paris bankers contained in a cable to the Associated Press last night on the prospects of a gold movement to New York. It was disclosed that the Paris banking world would regard a surrender of gold by the Hank of France for shipment to New York with entire equantinity. The impres-sion which has grown up in New York that the forthcoming Russian loan would prompt the placing of obstacles to the withdrawal of gold from Paris is dispelled by this expression of opinion on the part of the Parts bankers. The news of the engagement of \$1,850,000 of gold for shipment to New York contained in the Paris dispatch was confirmed today. The withdrawais up to this

firmed today. The withdrawais up to this time are all from the London market.

The revival of the crisis regarding affairs in Morocco was another disturbing influence in foreign markets. The volume of selling for foreign account was heavy and this played no small part in the market. Pension payments and purchase of foreign exchange by the Postoffice Department are the special items of the Treasury Department's demands. The prospects of the money market were brightened. were brightened.

Bonds were heavy. Total sales, par value, . United States bonds were all unchanged on call CLOSING STOCK QUOTATIONS.

NEW YORK, Sept. 19.-The London tin may ket reacted elightly following the decline of yesterday, closing at £145 5s for spot and £144

quiet with prices a shade steadfer at 31,600 31,90c. 31.90c.

Copper easier abroad, closing 558 12s 5d for spot and 568 10s for futures. Locally, quiet. Lake and electrolytic are at 10@16.25c, and casting at 15.75@15c.

Lead was quiet and unchanged, at \$4.85@ 4.00c in the focal market, but was slightly lower at £13 16s 2d in London. Spelter was higher abroad, closing at £25 To 6d for apot in London, and at 5.8505.80c

Is 86 for apot in Losson, and at 5.8000.85c in the local market.

Iron was easier in the English markets, with standard foundry quoted at 46s 94 and Middlesboro at 48s. Locally the market was firm. No. 1 foundry Northern is quoted at 516.75c 17.25; No. 2 foundry Northern, \$16.25c 15.75; No. 1 foundry Southern at \$16.25c 15.75; foundry Southern soft, \$18.75c 16.75.

WASHINGTON, Sept. 16.—The weekly crop report issued by the Weather Bureau today

35% 101 36% 38% 58% 131% 96 123 90 10% 512% 36% 21 Except in New England and the Middle At-Except in New England and the Middle At-lantic States, where the week ending Septem-ber 18 averaged considerably cooler than usual, the temperature was above the normal and senerally favorable, the week being de-cidedly warm over the greater part of the central valleys, Gulf States and Eastern Rocky mountain slope.

Light to heavy frosts occurred in the Rocky mountain regions, but they resulted in no serious injury.

# BARLEY GOING UP

Another Advance in the San Francisco Market.

### HIGHEST POINT THIS MONTH

Rise Attributed to Operations of the Leading Shippers-Hops Quiet and Declining - Oregon Fruit in Demand.

SAN FRANCISCO, Sept. 19.—Barley was still the strongest feature of the local grain market. December advanced all day, and closed at \$1.06, the highest figure of the present movement. For choice spot feed, \$1.0715 was bid. The bariey advance is still attributed to operations of leading shippers. Re-ceipts, which were heavy and largely sold shead including a big cargo from Port Costa on route for Durope. December wheat closed steadier after some foreneon unessiness. Oats continued firm. All feedstuffs and hay are

continued firm. All feedstuffs and hay are tending upward.

Local handlers of hops report a quiet market with prices declining under prospects for an abundant yield in California. Quotations for old and new hops are 12 to 13 cents.

Applies were relatively firmer in the country than here, but the market is well cleaned up and strady for fancy stock ready for use. up and steady for fancy stock ready for use Growers are asking and obtaining 80 cents f. o. b. for four-tier Hellflowers and Spitzen-bergs. Two carloads of Southern Oregon gravensteins are due on Thursday, Oregon berries are in moderate demand at \$5. Good grapes and peaches are better cleaned up and steadler. A carload of Valencia oranges is offering at \$4 to \$4.50 c. p. b. best grades. Receipts of potatoes were moderate, but the market was quiet and easy. Onlons were lower as the Australian inquiry has not realized ex-

pectations. Butter is advancing on lighter Cheese is steady. Eggs are higher. Receipts, 28,800 pounds butter; 3000 pounds cheese; 28, S6) dezen eggs.

### FOUR WIVES IN TEN YEARS

Grand Jury Indicts Carlton, Brooklyn Bigamist.

NEW YORK, Sept. 19. Indictments accusing Frederick E. Cariton, of Brooklyn, of bigamy in marrying four women, three in Brooklyn and one at Rochester, N. Y., were found by the numbered 9400 bales. The demand was active throughout, with home-buyers taking the bulk of the wool sold. A small supply of me-rinos was in good demand. A few lots of su-perior combings were bought for America at 1897; Mary J. Smith, in Brooklyn, in 1903, and Marie Gorman, in Brooklyn, in 1904. He is alleged to have used the name of William E. Rodriguez in marrying the Rochester girl. Carlton pleaded not guilty, and the hearing was postponed to September 25 on his statement that he wanted a

### witness from San Francisco.
