The Deshler Boats Will Ply in the Orient.

TO FLY THE AMERICAN FLAG

Will Cater to the Tourist Trade Between Japan, China and Corea-Kobe Will Be the Home Port ..

Consul-General Henry B. Miller, of Yokohama, Japan, reports to the Secretary of State at Washington the establishment of a new steamer line in the Orient under the management of D. W. Deshler, of Columbus, O. The line is to be known as the Deshler steamers and is to consist of three boats named Ohio No. 1, 1913 tons; Ohio No. 2, 1965 tons, and Ohio No. 2, 883 tons. These are foreign-built steamers to sail under the American flag. Kobe is to be the home port, and steamers will sail every eight or nine days on the following route: Osaka, Kobe, Moji, Japan; from there to Fusan, Chemulpo and Chinnamthere to Fusan, Chemulpo and Chinnam-po, on the coast of Corea; from there to Chefoo and Shanghal, China; from Shanghal they return by the same route, viz., Chinnampo, Chemulpo, Fuzan,

This line is to be especially fitted for passenger service, and it is expected that it will secure a large tourist trade. Here-tofore there has been much difficulty in reaching Corea both from China and Japan, and it is intended that this line of steamers shall provide a much needed transportation service.

ORDINANCE TO BE TESTED

By Friendly Suit in the State Circult Court.

The question as to whether the Federal Sovernment or the Portland City Council has jurisdiction and control over the nav has jurisdiction and control over the lavi-ligable waters of the United States is in-volved in a friendly suit in the State Cir-cuit Court, brought by Harbormaster Ben Biglin against Fred S. Merris, of the Ore-gon Water Power & Railway Company. The City Council recently passed an or. dinance, introduced by Councilman Rush-light, which requires ail launches and

light, which requires all launches and rowboats to carry life preservers.

The launch and rowboat men claim that the ordinance is unjust and that it will put them out of business, especially the rowboat men. The claim life preservers do not last long with the best of treatment, and if they are left to the mercy of the ordinary user of rowboats they will soon be destroyed or lost, and the extra expense will ruin the business. The expense will ruin the business. The launch men claim that the Summer's work on the river shows that there is more danger on land in the city from street-cars with light fenders and overhead live wires. It was learned at the Favorite boathouse that over 100,000 passengers had been carried on their jaunches to of from the Oaks without a single accident.

OCEANO IS IN QUARANTINE

Ordered There by Dr. Earle, Federal Quarantine Officer.

ASTORIA, Ore., Sept. 20.—(Special.)— The British steamship Oceano arrived in this evening after an uneventful trip of 22 days from Kuchniotsu, Japan. Like the Imaum, the Oceano came from Shanghal before calling at the Japanese port, and she brings 1706 tons of supposedly plague infected water ballast taken from the Yangstse-Klang River. Dr. Earle, the federal quarantine officer, has ordered the Oceano to the Government quarantine station, on the north shore of the river, where she will be thoroughly fumigated. She will then be taken outside the bar to discharge her infected ballast and replace t with sea water before proceeding up

Captain F. W. Davies, master of the Oceano, brings no consular bills of health, but he has a Japanese bill of health, translated, and the same certified to by the American Consul at Nagasaki, a do ment almost identical with one brought by Captain Pemberthy, of the Imaum, so this vessel will also be subject to a fine of \$5000 when she enters at the custom house. The Oceano will be held in quarantine for five days.

BEATS THE OREGON'S RECORD

Steamer Dakota Makes Greatest Long-Distance Voyage.

ST. PAUL, Sept. 20.-The Great Northern Steamship Company made public a statement today showing that the worldfamous run of the battleship Oregon from the North Pacific to the North At-lantic during the Spanish War has been outdone by the Great Northern Company's steamship Dakota. The Dakota ran from New York to Seattle, making her first stop at Coronel, Chile, and another at San Francisce.

The Oregon on her trip from Puget Sound to Cuba made within 300 knots of the steaming distance of the Dakota. The Oregon made several stops, San Fran-cisco, Callao, Port Tamara, Ris Janeiro, Bahia and Barbadoes. This, with the detour to avoid Spanish ships, increased detour to avoid Spanish ships, increased the Oregon's mileage. She went through the straits of Magellan, whereas the Dakota went around the Horn. The Dakota put in at Coronel for coal and at San Francisco to discharge cargo, but did not stop an hour owing to defects. From New York to Coronel for 30 days, the propeller went 2,760,000 revolutions without one stop. one stop.

CLAN MACFARLANE ARRIVES Brings Mixed Cargo of Cement, Glass

and Liquor. The Swedish ship Clan MacFarlane arrived in part yesterday from Antwerp via Port Los Angeles with a mixed cargo,

consisting principally of cement, glass preserves and whiskles.

The ship encountered the same rough weather that partly wrecked a number of ships bound for Portland, but came around the Horn without any serious accidents. She has not been chartered for her outward trip and makes one more disengaged sailing vessel in the harbor.

Steamer Captains Arrested.

Captain E. W. Baughman, of the eamer Telephone, and Captain Sherman, of the steamer Bailey Gat-zert, were arrested last night by Harcharging them with exceeding the eight-mile speed limit on the Willam-ette River. Waves created by the two steamers while racing through the harbor are said to have parted the ca-ble which held the Oriental freighter arabia fast at the flour mills, where she is taking cargo. With the assistance of long-horemen, the big freighter was prevented from drifting down the river. It took over two hours to bring the Arabia back to her moorings after the cable parted. Both captains were released on \$50 ball.
