SOCIALISTS PLAN PROTEST ON LOSS OF SUFFRAGE.

Belief Induces Convention to Adopt Strike as Defense of Universal Suffrage in Germany.

JENA, Duchy of Saxe Weimar, Sept. 22.—Herr Bebel, the leader of the Socialist party in the Reichstag, had one of his great days in the convention of the National Socialist Democratic party today.

The day was devoted to a hot debate on a lengthy resolution proposed by Herr Bebel in favor of a general strike by the working classes for political effect under given circumstances.

Herr Bebel said he saw impending danger of the abolition of universal suffrage in the case of election of members of the Reichstag, and the aim of his resolutions was to meet such a situation with a strike en masse.

The discussion at the afternoon session brought out sharp opposition to Herr Bebel's resolutions from leaders of labor unions and from several important Socialist members of the Reichstag.

ARMED INVASION OF SAHARA. Baron de Forest Plans to Found Empire in Great Desert.

NEW YORK, Sept. 22.—According to the Herald's Tangier correspondent, a passenger on board the steam yacht Honor, who is well acquainted with the plans of Baron de Forest, is authority for the statement that, under the pretext of a mere hunting trip, the Baron has prepared an armed exploring expedition to the Desert of Sahara.

For this purpose, the yacht is supplied with from 300 to 400 repeating rifles, with ammunition. It is stated that Baron de Forest intended to found a Saharan Empire, believing that his influence and millions would enable him to carry out the scheme successfully.

Baron de Forest has been recently in frequent communication with a famous French Africanist. His idea is that the execution of his project would be of political advantage to the British government.

The correspondent, after filing a dispatch containing the above facts, cables that he has received a private communication from Mogador to the effect that Baron de Forest and party started on the night of September 15 for the Desert of Sahara.

The correspondent of the Herald at Las Palmas states that Baron de Forest's yacht, the Honor, arrived there on the morning of September 15 and sailed at midnight on the 16, probably to Tenerife for dispatches. The Honor remained six days at Mogador, whence she came here. She carries a crew of 38. The Baron and Baroness de Forest were both on board, together with Mr. Harris, of Tangier, and several distinguished-looking members.

CALABRIA IS SHAKEN AGAIN

Earthquakes and Storms Add to Sorrows of Italy.

NEW YORK, Sept. 22.—Earthquake shocks continuing yesterday in Calabria, says a Rome dispatch to the Herald. At Amantea two women were killed. At Ajello a manorhouse fell and 12 persons were injured. At Bruilo a church fell, and there was a further damage to Cozena, Catanzaro and Monteleone.

There was a cloudburst at Bari, the wind capsizing a sailing vessel in the harbor, and six persons were drowned.

At Porrici, near Naples, there was another cloudburst, and the flood brought into the town many large blocks of lava from Vesuvius. Service of the street-cars was interrupted. It is not believed there are many victims in the ruins.

At Zambrone a man has just been taken out alive, after being entombed 11 days. General Lambert has made an official list of the damage by the earthquake. He finds that 22 towns and villages suffered great losses; the dead number 580, and the injured 3000.

At a meeting of the ministers, at which the Mayor of Rome and the president of the Bank of Italy were present, it was decided to hasten the distribution of relief as rapidly as possible. All the prefects

in Calabria have been notified to place all relief contributions at the disposal of the central committee from Rome. The uniting under one head of the contributions is necessary to avoid the distribution of an excess in some localities, leaving others with a deficiency.

MINORITY HOLDER A FOOL

Jersey Judge's Opinion on Investment in Corporations. NEW YORK, Sept. 22.—Argument was heard at Newark, N. J., yesterday, before Vice-Chancellor Pitney, on a motion for an injunction to restrain the Utah Copper Company from carrying out an agreement with the Guggenheim Exploration Company, by which the latter concern would become the owner of 51 per cent of the stock of the former.

E. A. Weil, of Salt Lake City, vice-president and director of the copper company, is the complainant. He owns 20 per cent of the stock of the company. To carry out the plan which Weil is opposing, the copper company desires to increase its capitalization to \$5,000,000 and issue \$1,000,000 of 4 per cent 15-year bonds. The bonds and the \$1,500,000 new stock are to be turned over, under the plan, to the Guggenheim concern. At one stage of the proceedings the vice-chancellor exclaimed:

My idea is that a man is nothing more than a horn fool to take any stock in a company unless he goes in with men in whom he can have confidence and who will manage the affairs of the corporation regardless of the rights of the small stockholders. I like to see a company managed on its merits, with a due regard to the small as well as the large stockholders.

Mr. Weil has obtained several temporary injunctions, restraining the copper company from carrying out its plan, and one of these will prevent a meeting set for tomorrow to put the new plan into execution. The vice-chancellor reserved decision for a week.
