DRAIN MAY BECOME CONSUL

Washington Adjutant-General Said to Be Friendly With Root.

SEATTLE, Wash., Sept. E.—(Special.)
—Officers of the Washington National
Guard have the story that AdjutantGeneral James A. Drain, who has served under Governor Rogers, Governor Mc-Bride and Governor Mead, is soon to re-sign to accept an appointment as Consul to a South American post. Lieutenant-Colonel Otis Hamilton, of Colfax, a Dem-ocrat, who supported Governor Mead during the last campaign, is slated by the guardsmen as his successor. Colonel seerge B. Lamping's commission as commander of the Second Regiment expires October 12, and at that time Captain Matt formley, a Philippine veteran and now Adjutant of the regiment, is expected to succeed him. This would leave the po-sitions of Lieutenant-Colonel and Adju-

tant to be filled by other appointments. The story is based upon sound political judgment, whether guardsmen are cor-rectly informed or not. Adjutant-General Drain is a friend of Elihu Root, Secretary of State, through when the Consular ap-pointment is expected to be delivered. Drain met Secretary Boot when the New York attorney was at the head of the War Department. The two were thrown much in contact during the National organization of National guard of-ficers, for Drain took a most important part in that work. The congress adopted a resolution calling for the organization of a general Zemstvo bureau and declaring that the representatives of the Zemstvo in the city should participate in the Gosudarstven-nain Douma (the lower house of the National Assembly) organizing therein a ma-jority for their own interests and the furtherance of their work in the cause of

cotting the bureaucracy.

Several of the Polish Lithuanian delegates made heated speeches. They declared that, if the Russian intellectual classes are not to be represented in the Douma, the borderlands would be left to ight the struggle for liberty alone.

The Siberian delegates petitioned that the right of suffrage be extended to Siperia as soon as possible.

After a lengthy debate the following solution was adopted:

The Zemstvo and Municipal Congress considers that the National Douma will not give national representation in the true sense. Hav-ing in view, however, that the electoral as-sembiles, uniting a great part of the social forces of the Empire, may serve as rallying forces of the Empire, may serve as rallying points for the general movement looking to the attainment of political freedom, this congress recognizes the necessity for those Russian citizens who are united on the present programme formulated by the Zemstvo Congresses to seek to enter the Douma in the largest numbers possible, forming there a number group with the object of obtaining united group with the object of obtaining constructed of personal liberty and equality.

One hundred and thirteen Zematvoists and 66 municipal delegates are attending the congress.
