TAFT COMES HOME

Discusses Affairs of Philippines and Orient.

INDEPENDENCE IS FAR OFF

He Thinks Chinese Borott Will Fade Away-Outbreak of Ladrones in Cavite-Japanese Sentiment on Peace.

(Continued From Page 1.)

ever free from blame in respect to them, than a native government.

Some of the younger men of education have been advocating immediate independence. It therefore became necessary to state with considerable emphasis the policy of the administration on this subject, and to say that in the opinion of the administration, there was no possible hope for independence short of a generation, because the people could not be fitted for self-government in that time, indeed, it will probably take a much longer period.

in the outmon of the administration, there was no possible hope for independence short of a generation, because the people could not be fitted for self-government in that time, indeed, it will probably take a much longer period.

The party consisted, as is known, of Democratic as well as Republican Senators and Congressmen, and they in their views represented all sides of the Philippine question, but with a self-restraint and moderation which cannot be too highly commended, it was tactily agreed among the members of the Congressional party on both sides that it would be most unwise for them to discuss before the Philippines their differences of culnion, and therefore that any statement should be made by the representative of the Administration as to the policy of political administration, Hence the sight which some of the irreconcilable Pilippines had hoped for, to wit: a constant combat between the Republican and Democratic members, with the Filipino people as on andience, was not presented, and I cannot express emphatically my appreciation of the patroitic stand which our Democratic brethren took in this matter in remitting a discussion of differences of congress.

Investigate Tariff Question.

All the days in Manila were spent by the Congressmen in investigating agricultural con-ditions with a view to the possible effect of a change of tariff upon the Philippine pro-duction of tobasco and sugar. An oppor-tunity was also given to those Philpines strong-tly in favor of immediate independence to present their views. All this was reported and will be circulated, doubtless, in a Con-gressional document.

present their views. All this was reported and will be circulated, doubties, in a Congressional document.

After a work's festivities in Manila the party proceeded on the transport Logan on a tour among the islands. In Manila, Holio and Cebu we heard complaints of the fallure of the crops and of the stringency of the times. At Tacisban on Leyte, one of the provinces, and again at Legasti, the chief city of Albay, the greatest of the hemp provinces, we found the people very happy and a condition of prospectly prevailing, due to the pentitable production of hemp.

Returning to Manila the delegation resumed its investigations and the consideration of complaints, while I was occupied with conferences with Governor-tieneral Wright, the tarious members of the consideration of government practice and policy.

Recognized Well in Conton.

Received Well in Canton.

Received Well in Canton.

From Manils we went to Hongkong in the transport Logan. There I received a relegram from the President, requesting that I visit Canton and that I conter with the Viceroy on the subject of the begrott then supposed to be in force. The Viceroy was seriously 10 in the but he sent, through the American Consul, an invitation to the entire party to a luncheon with the Provincial Transurer, who represented the Viceroy in the absence of the latter, this function sense being at the Manchu Club in Canton, the whole of the party went to Canton, but I was not thought wice to enter the old city, est the members of the party be insulted. The Viceroy has issued a proclamation commanding peace and directing that no indigits be offered to any American; and it is rue that a number of the venturesome members of the justy went into Canton and were not molested in any way. Still the reat body of them were entertained in a inferent way. We went out on a railroad rip and then up the river to the Manchu link. We returned to Hongkong that night and the part day were the recipients of a Citb. We returned to Hongkong that night and the next day were the recipients of a basquet given by the English Governor of Hongkong colony, Sir Matthew Nathan, and of a surper given by the Hongkong Citb. The next day. September 0, the party divided and about 30 of them continued on beard the Legan, while Miss Roceveit and her immediate party lowether with a number her immediate party, together with a number of members of Congress and others to the number of 20 went direct to Taku and Pekin. About 60 of the party, these who landed today, took passage on the Korea at Hong-long and went to Amer. Shanghai, Nagasaki, Kobe and Yokohama, the regular stopping places for the Pacific Mail line.

Tokio Riots Aimed at Minister.

Tokio Riots Aimed at Minister.

We heard much while we were at Shanghal of the riots in Japan, brought about by the papular diegust with the terms of peace with Rusela, and at first we were greatly exercised, because it seemed as if the disturbances were directed against foreigners, especially Americans. Upon going to the seat of the disturbances were directed against foreigners, especially Americans. Upon going to the seat of the disturbances however, we found them to be greatly exaggerated and that their purpose had been confined to the expression of hoscility toward the ministers and police, who had most unwisely interfered with some peaceful public expressions of disapproval of the torms of the treaty.

Our party went eshore at Kobe and a number went from there to Nikko, to Koyoto, to Cosaka and Yokohama by rail and all were breaked with great politeness and no one was offered any indignity. The Emperor was good enough to send the Chamberiah and others to greet us at Yokohama and the Guvernots of Yokohama and Tokto and the Mayore of the two cities came to explain that the disturbances were not directed against the Americana, but against the police, and such were the results of my investigation. The trip home on the Korea was very pleasant.

Improvement in Philippines.

While the conditions in the Philippines.

While the conditions in the Philippines were not as favorable as we would like to have them, and probably will not be favorable until the depressing conditions shall be followed by a prosperous season, still progress to being made. The government is more efficient inefficient men are being climinated and things are estiling to business. Beconcey its being practiced more and more in the government: Pilipinon are being introduced very rapidly to take the pilace of Americans and on the whole, in looking back over two years, decided stops forward have been taken. Of the questions which were opened when we started on this trip, and in the settlement of which it was hoped the trip might lead to say that before we reached the islands as astirated and recicles and cemeteries. I am glad to say that before we reached the islands a satisfactory law had been enacted which, it is hoped, will rapidly dispose of these cases. The law refers the issues directly to the Supreme Court.

There was also remaining unsettled a question about the title to one-half the Friarriand-those owned previously by the Dominicum Order. After a conference with the separations of the two mordistrictory and the difference as to price, a matter of some 200,000, will be left to adjustment by arbitraction.

The question of the operation of the internal revenue has the conference with the surface and the difference as to price, a matter of some 200,000, will be left to adjustment by arbitraction of the awarding tobacco and also and the difference as to price, a matter of some 200,000, will be left to adjustment by arbitraction of the two texts of the conditions of the law taxing tobacco and also and the difference as to price, a matter of some 200,000, will be left to adjustment by arbitraction of the two texts of the conditions of the saw taxing tobacco and also and the difference as to price, a matter of the saw and the condition of the condition of the conditions of the saw taxing tobacco and also and the dif While the conditions in the Philippines were

Boycott Will Fade Away.

With reference to the buycoit in Canton and China, I am not sufficiently advised to speak with great authority. My impression is that it will fade out because of the necessity that the Chinese merchants are under of patronizing America to secure what will be to great demand in Manchuria. Chinese merchants themselves are tesing money and their influence is not likely to further it. Suggestings were made as to possible amendments in the exclusion laws which, without in any way opening the doors to the coolis clara, would remove the stigms which the present

regulations, it is insisted, put upon the classes entitled to enter. I have those suggestions from merchants in Honakong and elsewhere and shall present them to the President. The President's proclamation and assurances that justice would be done the Chinese had an excellent effect.

Japanese Opinion on Peace.

Many of the people in Japan are disappointed at the terms of the peace, but the great sober majority of that people, I am sure, are deeply grateful (that people, I am sure, and grateful to President Roosevest for his assistance in bringing it about, and conscious of the fact that Japan was under a great strain and that true statesmanship required that, when she could make an bonorable peace, she should do so. The peace is bonorable, in that she accomplished everything and that, had she continued the war for the indemnity, she would simply be in the attitude of fighting for money. There is not, in my judgment, the slightest fear that the people of Japan will not continue to be as friendly to Americans and America as our reception. In July showed that they were then.

then.

Of course, it is too soon to speak of probable legislation by Congress upon Philippine matters, but I am sure that the trib has added greatly to the interest in Philippine question which will taken by the members of Congress who were in the party, and that the more accurate information which they now have will lead to wise and intelligent legislation.

OPINIONS OF CONGRESSMEN

Independence in Distant Future. Awakening of China Begun.

SAN FRANCISCO, Sept. 27 .- Members of the Taft party who arrived from the Orient today have summarized, for the Associated Press, their impressions as

Representative Cooper, of Wisconsin, chairman of the House committee on insular affairs, said:

One effect of the trip will be, in large measure, to take the question of immediate Philippine independence out of politics. Personal study of the situation has I think, convinced the members of our party. Democrats and Republicans, that the inhabitants of the Philippine blands are flot now capable of free self-government. This conclusion is admitted to be true by educated, conservative Filipines themselves, though they, like a majority of the other people of the telands, hope for an independent government when the inhabitants of the islands shall become fitted to maintain it. The prosperity of the Philippines depends

It. The prosperity of the Philippines depends upon their agricultural productions.

The United States has done many noble, wonderful things in the Philippines, but its most giorious work is the establishment there of a splendid system of American common schools. These schools, steadily increasing in number, attended now by \$75,000 children out of an enrollment of more than \$50,000, will, more than any other influence, help to abolish the multipute of fluences and concerns. the multitude of disjects and tongoes and regenerate the people of the Philippine Isi-

China Is Awakening.

Our experiences in China and Japan were most interesting and instructive. China is being affected by powerful influences, one internal and the other external, and these are at last having an effect on her ancient conserva-tiem. To me the most significant thing of the last having an effect on her ancient conserva-tism. To me the most significant thing of the whole trip was a statement made during a conversation that I had at Canton with a Chinaman high in Chinese business and of-ficial life. I had remarked upon Japan's great success in peace and war. "Yes," said he, "we Chinamen have ob-served Japan's success. We have studied the reason for it, and we know why she has suc-ceeded. We are going to profit from our study. China sught to turn over. She must

study. China sught to turn over. She must turn over. I assure you that she will turn over. It will take time. Powerful influences are opposing, but China is going to turn

Among other things he declared that the greatest benefit ever conferred by one nation upon another was when the United States ced Japan to open her doors. All this,

from a Chinaman now an authority upon China, was very significant. The trip has left many important and lasting impressions, but the chiefest of these is the impression of the great part that the United States is playing and must forever continue to play in the world's affairs, and of the consequent grave responsibilities that attach to citizenship in the United States, and especially to membership in the American

Naval Bases in Philippines.

Representative Foss, chairman of the House committee on naval affairs, said: I made this journey largely for the purpose of making a study of questions coming within the scope of the work of the committee of which I am chairman. I had the good fortune to reach Japan soon after the battle of the Sea of Japan, and was given every facility for inquiry and investigation by the Japanese mayal authorities. I return home more firm ly convinced than ever of the vital importance of the establishment of an extensive and thor-oughly equipped naval base in the Philippines.

Patterson Takes Gloomy View.

Senator Patterson, of Colorado, said: Senator Patterson, of Colorado, said:
The Philippines, the more you know of them
the more serious appears the problem. I am
convinced that in their government we are
getting farther and farther away from Secrelary Taft's patriotic and humane policythe Philippines for the Pilipino and ultimate
independence. The guif between the native
and the American is widening. I fear the
Philippines are a smouldering volume.
My visit to China has convinced me more
than ever of the wisdom and secessity of
Chinese exclusion. I believe the buycout will
anon be over, but in any event American mansoon be over, but in any event American man hood and civilization is of greater moment than Chinese commerce. Japan won me from the first. An admirable

people in many ways. The disgust after the treaty was an organized effort to pervent the Emperor from ratifying it. Japan is the most formidable competitor that the United States and England will have for the com-merce of Asia, and in a few years, if they hold their own against Japan, many economic and industrial changes must take place.

Taft Will Study Sacramento River. SAN FRANCISCO, Sept. 27.—Secretary Taft will leave tomorrow morning for Sacramento by boat. He will be taken up the Sacramento River as the guest of the California River Improvement Association and be informed of desired changes in and along that watercourse.

RESIGNS CANDIDACY RATHER THAN CAUSE REVOLUTION.

Accuses Paima of Using Force and Avoids Revolt Lest United States Intervene in Cuba.

HAVANA, Sept. 27.-Jose Miguel Gomez, Governor of the province of Santa Clara, who was nominated by the Liberals for Presidency, has resigned his candidacy. In letters to the executive commit-tee of his party he gives the reasons for his action, laying part of the blame on the United States, owing to the Platt amendment. Governor Gomez says:

amendment. Governor Gomez says:

It is impossible to continue the campaign within the bounds of the law. The government has won a complete and overwhelming victory. With Liberals in jail and with the rifles of armed forces and even the daggers of hired assassins against unarmed voters, the problem confronting me is whether I should continue to lead my followers to the polit and permit them to become the victims of this sort of treatment.

One other road is open, that followed by other nations in analogous efreumstances, namely, the right of revolution; but Cobarands in a peculiar position, as an armed

siands in a peculiar position, as an arms conflict would inevitably bring foreign inter vention. Before this was accomplished, how vention. Before this was accomplished, how-over, our maxerial prosperty, which is to a great extent in foreign hands, would be de-stroyed, while the neutral sigments would suffer. Therefore, I, who had the courage to rebel against Spain, which was a thousand times stronger than Palma's government, de-cline to accept the responsibility of plunging the country into war.

SEIZE ARMS OF LIBERALS

Arsenal Contains Dynamite and Other Kinds of Ammunition.

PINAR DEL RIO, Sept. M .- The police

here today visited the house of a promi-nent Liberal and seized a large quantity of arms and ammunition. At Tunus rural guards found 14 cases of dynamite and other explosives. Italian Agitator Expelled. HAVANA, Sept. 27 .- The Italian agita-

tor, Jose Pinnino, was deported to Carta-gena today on a cattle steamer. President Palma's decree ordering his deportation on the first steamer leaving Havana was carried out. The government is informed that Pinnino had been expelled from Admits He Killed Villuendas.

CIENFUEGOS, Cuba, Sept. 27.-A rura guard named Acosta, who is in a hospita seriously wounded, says that he killed Congressman Villuendas in last Friday's fight after he himself had been wounded.

BLAMES THE BOYCOTTERS

Bomb-Throwing at Pekin Attributed to Anti-Americans.

PEKIN, Sept. 27.—Nothing has trans-pired yet regarding the motive of last Sunday's outrage. Prominent Chinese be-lieve it was a direct outcome of the anti-American boycott movement, the more violent of the agitators resenting the restraining measures of the government. The generally accepted view of the affair is that it was directed against the dy-

been identified, but he is known to be-long to the better class. Viceroy Yuan Shat Kai, of the Chill Province, is taking energetic steps to capture the conspira-

Cannot Suppress the Boycott.

SEATTLE, Wash., Sept. 27 - (Special.) Chinese merchants in Seattle state that they have mall advices from Canton which declare the Viceroy of that province has acknowledged his inability to put down the boycott. The Viceroy insists that the merchants and people will buy as they see fit. He add, though, that the sentiment is being resisted and that some guins have been made by the government's ef-forts to supptess the boycott.

WAS SMITH'S PLURAL WIFE

Prophet's Sister-in-Law the Bone of Contention Among Mormons.

SALT LAKE CITY, Sept. 27 .- Mrs. Catherine Phillips Smith, who claimed to have been the plural wife of Patriarch Hyrum Smith, who, with his brother, the so-called Mormon prophet, Joseph Smith, was slain by a mob in the jail at Carthage, Ill., in 1844, died here today. Mrs. Smith has been a central figure in the entroversy that split the Mormon Church into the two branches known as the "Brighamites" and the "Josephites."
To disprove the allegation of the
"Josephites," or the reorganized church, that the so-called prophet Smith had never countenanced the polygamous practices of the Utah Mormons, Mrs. Smith two years ago made affidavit before a notary that she was not only the piural wife of Hyrum Smith, but that 'the scal-ing was performed by the prophet, Joseph Smith, himself, in Nauvoo, State of Illinois in August 1857

of Illinois, in August, 1842."
She further testified that so great was the feeling in Nauvoo against persons suspected of having entered into plural marriage that with her mother she moved to St. Louis near the close of the year Up to the day of her death Mrs. Smith maintained the accuracy of her affidavit,

HOODOOED BY A BISHOP

Subway Tavern Can't Succeed, and Closes Finally,

NEW YORK, Sept. 21 .- (Special,)-Even the change from clerical to lay nuspices did not remove the "hoodoo" from "the Subway Tavern," the institution once opened with religious services by Bishop Potter. It this afternoon closed for good Since the original management gave up in diagust some time ago, the owner, W. H. Skidmore, has been conducting it on his own behalf. At 2 o'clock today locks were put on the doors and a sign was placed on the windows reading: "Closed for repairs."

"Mr. Skidmore said: "It is closed for good. It did not pay at all and I have lost money. No more Subway Tavera

The Subway Tavern was dedicated as a temperance saloon by Bishop Potter, August 2, 1994, and immediately thereafter became one of the curiosities of the city and was included in the list of sights on the routes of "rubberneck

DR. HARPER NEAR HIS END

Malady Is Said to Have Mastered President of Chicago University.

CHICAGO, Sept. 27 .- (Special.) -- Alarm-CHICAGO, Sept. 27.—(Special.)—Alarming reports come from the bedside of President William Rainey Harper, of the University of Chicago. It is said his malady has at last mastered him, and that he has but a short time to live. The family and physicians refuse to confirm these reports, but statements made privately

Harper is in a critical condition. Absent members have all been summoned home. The report from the university late to-uight is that Harper's condition is un-

SURGEONS AID IN VICTORY

Convention Hears of Care Taken of Gunners' Sight.

DETROIT, Sept. 27.—Surgeon-General Suzuki, of the Imperial Japanese Navy today in his address before the conven-tion of Military Surgeons of the United States, made what was declared by Med-ical Director J. S. Wise, of the United States Navy, to be the most valuable contribution of modern times to naval

'Much of our success in the treatment of wounds," said Dr. Suzuki, "I ascribe to the fact that before every engagement I ordered each, member of the crew to bathe and put on perfectly clean under clothing. On a great many cases of shot wounds fragments of clothing are carried into the body, and our insistence on clean underclothing prevented many cases of blbod-poisoning among our wounded. Our experience during the war proved that the conning tower of a warship is a most dangerous situation; fragments of shells penetrate through the sitts in the tower made to furnish the commanding officer a range of vision do great damage. Real-izing this fact, Admiral Togo in all the naval engagements directed his fleet from the compass bridge of the Mikasa without

the compage bridge of the Mikasa without receiving the slightest wound.

"The vision of the men who fire the guns on a warship must necessarily be of the very best if their shots are to count. Before every engagement, the segments in the Japanese fleet examined carefully the eyes of all the gunners. Any of them found with slight impairment of vision were treated, and if the impairment was too grave to yield impairment of vision were treated, and
if the impairment was too grave to yield
to immediate treatment, they were transferred to another station and their places
filled by men whose eyes were perfect."
An address by Colonel Valery Havard.

U. S. A., on his experiences with the Russian Army in Manchuria, was the feature of the afternoon session. Colonel Havard said that losses from ar-tillery fire in the Russian-Japanese war were greater than from this source in any previous war. He as-scribed this somewhat to the fact that much of the time the artillery fire between the two armies was so heavy that it prevented the men from getting into close enough cobtact to make their rifle fire entirely effective.

PASSENGER TRAIN IS AFIRE

Result of Collision in Which at Least One Man Is Killed.

CONNERSVILLE, Ind., Sept. 27.-(Special.)-A passenger train is burning at Glenwood, eight miles west on the Cininnati, Hamiliton & Dayton, as the resuit of a rear-end collision with a freight train this evening. An unknown tramp was burned to death and eight persons

were injured.

The engineer of the passenger did not see the freight, on account of a curve in the road ar that point, and when the train dashed in view the cars ahead were within 100 yaffds of where the collision occurred. The engineer and fireman jumped, and were hurt, but not fatally. All the passengers were badly shaken up and more or less cut and bruised. J. B. Grosscup, of Lincoln, Neb., is injured the

Grösscup, of Lincoln, Neo., is imported in worst of any, and may die.

Shortly after the collision fire started in the debris and the fire is still raging, the debris and six box Three passenger coaches and six box cars were consumed. The cause of the disaster is believed to be due to the alleged carelessness of Conductor Fox, in charge of the freight, who was busy switching in the yards at Glenwood and forgot to keep tab on the time of the passenker. He has disappeared.
