BOARD DESIRES NO HASTY ACTION

Bid on Irvington Sewer Goes to the Committee on Rules.

MAYOR WANTS NO SCANDAL

After Prolonged Discussion by Members of Executive Board Pacific Bridge Company Finds It Will Have to Wait.

When the question of awarding the con tract for the construction of the Irvingnpany, on its bld of \$135,785.45, came up bofore the special session of the Execu-tive Board yesterday efternoon, there was a manimity of feeling among the morn-bers that before giving the corporation the right to go ahead, every possible pro-tection should be thrown around the property-owners, who otherwise might be at the mercy of some scheming con-

ideas on the subject. He sounded the keynote to the whole situation by ex-plaining that already there had been a rent deal of scandal connected with th building of sewers in this city, and he building of sewers in this city, and he was averse to having his administration mixed up with them. The general dis-cussion that followed the motion of Mr. Peery to adopt the report of the sewer committee recommending the award of the contract to the Pacific Bridge Com-pany, developed such an antagonistic sentiment in the Board to act handly in the matter that Peery withdrew his motion, and voted with all the others t refer the question to the committee on rules, with power to investigate and at the same time draft a new rule of the covering all future proceedings of

Cogswell States Position.

C. A. Cogswell at the outset stated that as a member of the sewer committee he had voted to accept the bid of the Pacific Bridge Company, and while still satisfied that it was legal and proper, deemed it expedient to proceed with caution, as some questions had lately arisen that ought to be looked into, especially with reference to the proper preparations of the specifications, and he thought the Board ought to have the benefit of expressions on the subject from both expressions on the subject from both expressions. Bridge Company, and while still satisfied City Engineer Wanzer and the present City Engineer.

Opinion of City Attorney.

With a view of securing as much light as possible bearing upon the situation, Mr. Conswell said that he had solicited the City Attorney's opinion in relation thereto, and submitted the following renly from the municipality's legal adviser, oder date of yesterday:

In compliance with your request for a writaward of which contract to said company has been recommended by the committee on sewers of the Executive Soard, I have so ad that it would have to be decided by the you that I can find no valid legal obtained by the group of directors. About \$100,000 etacle to the award of the contract to said thought necessary to seect a memor

whom of the city to require contractor, in hunting hide for this class of work, to in-ude with their bids itemized schedules of egate amount for the whole named in the bid of the concontract is named in the bid of the con-tractor, the payment has been made upon the basis of deductions and extras, and for the actual amount of work and material at the rares stipulated in the itemized schedules. It would appear from the specifications pre-pared by the City Engineer for this contract that deductions and additions are not conplated, and yet sheets containing schedules of prices for extra work and material to meet "unforeseen obstacles" are attached to the bids, which fact may be claimed by the contrator as a modification of the specifications and consequent claim made by bim of being entitled to allowance for extra work, while no deductions for less work or material than imated could be made by the city, and it estimated could be made by the city, and it is therefore impossible to say whether the bid of the Pacific Bridge Company will actually be the invest price to the property ascessed for the construction of this saver, unless the contract expressly provides and significant that neither deductions nor extra shall be allowed. I am yours very respectfully. L. A. M'NARY, City Attorney.

In view of the City Attorney's somewhat doubtful feeling in the premises, Mr. Cogswell moved that the City Audi-tor be asked to return the certified checks to all the bidders with the exception of the Pacific Bridge Company, and refer the latter's proposal to the committee on rules, holding that if the specifications were wrong the Board would have to re-advertise anyway. Mr. McPherson seconded this motion, whereupon Mr. Peery withdrew his motion to adopt the report of the sewer committee.

Discuss the Proposition.

Mr. Gearin objected to referring the matter to the committee on rules, claiming that they were in possession of the legal opinion of the City Attorney, and it ought to go before the sewer committee again. If anywhere. He called on City Engineer Taylor for his views, and the latter stated that he had examined the latter that he had examined the had examined the latter that he had examined the had e the bids as well as be could in the short space of time he had been in office and the slight opportunity allotted him for ting any considerable attention to the matter on account of pressure of other details, and seemed to think the specifica-

Mayor Lane States Views.

At this point Mayor Lane ventured to suggest that there was a necessity for making some positive rules concerning bids of this character. Either the bid of the Pacific Bridge Company was irregu-lar and should be thrown out, he said, or else it was correct, and in any event he thought the whole thing rught to be threshed out. Under the present condition of things, if the contractors encountered a rockpile it would cost the city a great deal for extras, while if they had easy ground all the way, there would be no deductions. In the opinion of the city's executive, every protection was thrown around the contractors and none around

the property-owners or municipality.

"There has been trouble before in this city concerning sewers," remarked Mayor Lane significantly, "and I don't want this administration to get mixed up with

well explained that while a member of the sewer committee of a former Ex-ecutive Board, of which A. L. Mills was

on forme containing the detailed

cific Bridge Company, appeared before the Board and made a statement, in which he claimed that at the time of making out the bid for the construction of the Irvington district sewer, he had been given the form at the City Engineer's office, which he had filled out and submitted as his proposal, and that he was not aware at the time of the necessity for any additional or detailed statement, and was only apprised of the City Engineer's custom when it was too late to segregate the different items. He thereupon put in a bid on a typewritten form, under the impression that the usual printed form was for ordinary sewers, and the other style for those of exceptional magnitude, similar to the one untional magnitude, similar to the one un-der consideration. He pleaded a lack of knowledge as his excuse for the error.

Goes to Committee on Rules.

City Engineer Taylor corroborated Manager Simons in this respect, and said: "When the advertisement of the Irving-ton district sewer came up, I asked my deputy if he had prepared extra copies of the special form of bid and found that he had not dope so properly, as there were no iterized sheets accompanying

them. I thereupon instructed him to do so, but Mr. Simons got his blank form before they were prepared."
"What object is gained by putting on those detail sheets?" asked Mr. Gearin.
"To govern any changes in the specifications," replied City Engineer Taylor.
Mr. Gearin thought there was no question as to the validity of the bid, and was of the opinion the Pacific Bridge Company was bound by the plans and specifications of the City Engineer, which

are referred to and made a part of the contract, to complete the sewer for the amount of its bid. Without further discussion the matter was referred to the committee on rules with authority to further investigate and eport at the regular meeting of the body

City Engineer Taylor admitted last night that it was something unusual for bids to fall \$18,778.87 below the Engineer's estimate, as was done in this case, it generally being the other way or closel proximating the Engineer's figures.

MAYOR LANE APPLIES IN BE-HALF OF PORTLAND.

Oregon Commission Asks That Hardt Be Entirely Removed From Jury of Awards.

Mayor Lane, on behalf of the City of Portland, yesterday afternoon made formal application to the Oregon State Commission for the Forestry building at the Lewis and Clark Exposition. In his appli-cation, which was authorized by the pass-ing of an ordinance, Mayor Lane states that pegotiations are now under way for the purchase of an acre or more of the ground under and surrounding the Forestry building. Mayor Lane said the price asked for the ground was \$7000 an acre. As provided for in the act creating the Oregon State Commission, the building will be turned over to the City of Portland upon the close of the Exposition, with the processor of the Exposition, with the processor of the Exposition of th understanding that it is to become perma-

WHY JAPAN MADE PEACE

Crop Failure Made Financial Break down Imminent in Empire.

TOKIO, Sept. 29 .- Notwithstanding the silence of the government, the real fact is disclosed that Japan made peace at Portsmouth in fear of a financial breakdown. The war proved more costly than had been calculated and the rice and cereal crops seemed doomed to failure. Instead of sunlight and warmth during August, when the crops ripen, there was continued rain and exceedingly cool weather. While some improvement may still be in store, it is still certain that the rice crop promises to be from 15 to 25 per cent below the average and far below last year's crop, when it was marvelously

Bix months more of war would have meant very hard times, for the masses of the people are very poor and rice is bread and meat to them.

Let us give you a word of warning. But let us say it so loudly that you can not fail to listen and take heed. Your daughter's health may be hanging in the balance,

awaiting a little advice from you.

Will you give her the right advice?

No time is so critical in a young girl's life as when she begins to bud into womanhood. An entire change takes place in the system which

often has violent and dangerous after effects. A pure, harmless, building, tonic at this time, is absolutely needful and nothing will serve the purpose so well as Cardui. It starts the young girl right, relieves pain, soothes nervous irritability and insures regularity of function. It is a perfect curative medicine for all female diseases,

both in young and old. Sold by every druggist in \$1.00 bottles.
