Chandler Tells of Obstacles to Rate Law.

RAILROADS' GREAT POWER

Ex-Senator Points to Array of Capital Which Will Corrupt Legislators and Asks People to Help President.

CONCORD, N. H. Sept. 25 .- In a series of open letters to Edward A. Moseley, of the Interstate Commerce Commission, ex. Senator William H. Chandler, of New Hampshire, defines his attitude toward the Esch-Townsend rate bill to come before Congress at its next session, and calls the attention of the Commission to some of the dangers that beset the at-tempts to pass the bill, as they appear

Mr. Chandler lays great stress on the attitude of the railroad companies and says the methods of defeating the measure to be part forward next Winter would be dangerous amendments or additions to the Each-Townsend bill "under the guise of friendly improvements, but really as ratiroad tracks." Mr. Chandler says fur-

You cannot reasonably expect that a law can be passed through both houses of Congress which shall make a reasonable transportation rate fixed by the commission take effect immediately and remain in force until reversed by the Court of Review, when Mr. Samuel Spencer, in behalf of the railroads, has amounced that they will not permit either of two things. These two things, Mr. Chandler charges, are the giving of power to the Commis-

These two things. Mr. Chandler charges, are the giving of power to the Commission to substitute in a particular case a rate or price which in their judgment is judg or reasonable in the place of one judged by them to be unjust or unreasonable, and the enactment "of statutes which provide that a rate of transportation one fixed by any authority shall retion once fixed by any authority shall re-main perpetually in force thereafter until changed by the Commission or by court."

Chandler further charges that \$12,000,000,000 capital, representing 210,000 miles of railroad, are arrayed against the President in his attempt to pass rallroad legislation. He also charges that by fur-nishing free transportation the rallroads will attempt to corrupt legislation. Mr. Chandler asserts that lawyers, ministers of the gospel and newspapers are especially cared for by the railroads, not-withmanding that the system is grossly illegal, and closes his letter with an apseal to the American people to help the

KING WILL HANG TODAY

Most Famous of Canadian Murders to Be Expinted.

FORT SASKATCHEWAN, N. W. T. Sept. 28.—(Special.).—Hangman Radelive, the Dominion executioner, is busy today preparing the scaffold on which Charles King an American from Salt Lake City, Utah, will hang tomorrow for one of the most fiendish murders ever committed in the northern wilds of Canada.

Nearly two years ago Charles King arrived at Edmonton. He was accompanied by an English mining prospector named Edward Hayward. They said they were going into the unexplored North to seek for the mineral wealth hidden there, of which so many fabulous tales have been brought down to civilization during the last few years. In Edmonton they bought an outfit and left for the North. They camped on the shores of the Lesser Slave That was the last seen of Hayward

Indian cunning was the result of King's undoing. An Indian named Sikachese noticed tracks that looked strange to him and he decided to look into the matter. He followed them to the lake and then went to Sergeant Anderson, of the Royal Northwest Mounted Police, and brought the matter to his notice. Kisanis, an-other Indian, also noticed the tracks and followed them to the men's camp. Here he saw two men. Several other Indians also saw the two men in camp.

The Indians watched them, and on September 18, 1903, the third night of their stay, they heard a shot in the direction of the camp. Eager to-know the meaning of it. Kisanis went to the camp in the morning, but could see the tracks of only one man leaving the camp, while the other was nowhere to be seen. His discovery was at once communicated to the res King was captured by Ser-

The number of new cases reported today was something of a surprise, in the face of the reports of the two previous days, but it is taken as a matter of course. Surgeon White and Dr. Souchon, of the State Board, are working together with the view of relieving the country parishes and the city of such restrictive quarantines as have absolutely shut down travel. Dr. Souchot has sent out a circular letter to the parish health authorities suggesting that, as the date of frost, October 10, is so near, it will be just as well

JAPANESE SURGEON - GENERAL SPEAKS OF CHRISTIANITY.

Tells How, Mourning Drowned Child, He Was Called to Battle-Mistakes of Missionaries.

DETROIT, Sept. 29 .- Intensely dramatic was the moment today when Surgeon-General Suzuki, of the Japanese navy, fresh from the battles of the Japan and Yellow Seas, declared with sincerity before the Rallroad Y. M. C. A. Interantional Convention that he had been for 23 years a Christian, Very proudly he added that his wife and five children shared his belief. Tears dimmed many eyes when the distinguished Japanese surgeon told broken-ly of the drowning of another child, his 12-year-old daughter, just two days be-fore he had been called into the thick

of the recent fighting. He had not urged the question of religion in his family, he said, having abated, trusted it to the guidance of God. His eldest son had been the first to become a convert. Next the wife had been con verted through the influence of her son and all the family had followed in the steps of these two.

Struggling to control his emotion General Suzuki declared his faith it the Christian belief of the future life, saying of his little daughter, whom he mourned: "She has gone to our own kingdom." Further evidencing his high conception of the beauty and power of the Christian religion, General Suzuki credited the missionaries of Japan with ecoming broader and broader in their

FEJERVARY FOR PREMIER

King-Emperor and Kossuth Both Express Desire for Peace in Dual Monarchy-Universal Suffrage Is Proposed.

BUDAPEST, Sept. 39.-The situation is secoming clearer, and evidence is acumulating that both the coalition leaders and the King-Emperor are earnestly endeavoring to find a way out of the difficulty. Statements have been issued, emanating, it is understood, directly from the entourage of the King-Emperor, denying any intention on the part of the crown of wounding Hungarian national suscepibilities, and an article from the pen of tate that he and his associates went to boycott. Vienna a week ago with every peaceful intent, but that they were not given an opportunity to demonstrate to the King-Emperor that the coalition does not conemplate any obstinate opposition to his lemands and the Hungarian nation wishes to live at peace with Austria. These are regarded as indications that the negotia-tions between the crown and the coalition leaders will be renewed with some hope

It is believed by well-informed person that Baron Fejervary will be reappointed Premier with the right to carry on the elections on a platform calling for universal suffrage, and that by this means a government majority will be secured in the Hungarian Diet.

Quiet has been completely restored in the city. There was no sign of disorder

The leaders and the King-Emperor realize that some way out of the present sit-untion must be reached at an early date. as otherwise the economic condition of Hungary will become so bad that serious disturbances cannot be avoided, if indeed a real revolution does not break out. A much more optimistic feeling prevails tonight, especially over the fact that pub tement has been almost completely

MORE UPROAR IN REICHSRATH Galleries Are Cleared and Premier Makes Conciliatory Speech.

VIENNA, Sept. 29.-There was a stormy meeting today of the lower house of the Reichsrath, which is discussing the government's declaration of policy, the people in the galleries taking part in the uproar. Eventually the session was suspended until the galleries were cleared. The Premier explained his declaration regarding the revision of the laws of 1867. He said the revision could only relate to the treatment of the joint affairs of the two halves of the monarchy, which from time to time must be regulated according to analogous expression. The Premier exto analogous expression. pressed the conviction that a new form of co-existence between the two halves of the monarchy would eventually be found on the condition that both countries should retain the rights guaranteed by the laws and full liberty of decision. He did not doubt that the legitimate rights guaranteed by the laws and full liberty of decision. He did not doubt

the two states but also the monarchy as a whole would benefit. During the session there were frequent conflicts between the Socialists and anti-Semites, which led to disturbances and the clearing of the galleries. ,

MAY REAPPOINT FEJERVARY

Premier Now Coming Around to Hungarian Coalition.

BUDAPEST, Hungary, Sept. 29.—The fact that Count Albin Czariky, President of the Upper House of the Hungarian Diet, has been summoned to an audience of the King-Emperor next Saturday, is not considered here as implying that the Count will necessarily be invited to form a Cabinet. On the contrary, there is a disposition in many quarters to believe that Baron Fejervary may be reappointed to the Premiership. The latter is now understood to support the contention that Hungary has the right to establish inde-

pendent customs in her territory. This has created a favorable impression.

The Nationalist students are demanding the expulsion from the university of all students of Socialistic tendencies. The leaders of the Coalition majority and the newspapers are doing their ut-most to caim the political passions and prevent a clash of the factions during street demonstrations, warning the pop-ulation that the reactionaries would there by be given a pretext for oppressive ac-

Swear Before Their God to Resent Division of Province.

CALCUTTA, Sept. 22.—Fifty thousand Bengalese assembled at the Temple of Kalighat have sworn by the Goddess Kali to boycott British goods as a protest against the partition of the Province of Bengal. The administrative work of the Province, according to the views of the Home and Indian Governments, had grown to such unwieldy proportions as grown to such unwieldy proportions as to necessitate a division of the labor, hence the partition of the province into

two Lieutenant-Governorships.

The Bengalese are intensely resentful at what they characterize an attempt to split the population and impair their national ity. At scores of meetings throughout Bengal, the people have pledged themselves to support the boycott, which has now received the sanction of the priests. The scene at the Temple of Kalighat, the greatest in Bengal, was striking when the immense assemblage took the oath, "in the holy presence of the Goddess Kall not to use foreign goods, buy articles in foreign shops when available in native shops or employ foreigners on any work that can be done by our countrymen." CHICAGO, Sept. 28 .- Federal Judge Fred J. Humphrey today sustained the de-murrer filed by United States District At-torney Morrison to the plea in abatement made by packers seeking to have indict-ments for alleged restraint of trade de-clared void. Judge Humphrey said he made his decision on broad grounds with-out taking into consideration technicali-ties which the Government advanced against the plea in abatement.

will be drawn about the middle of October.
After the decision had been given, the
defending attorneys tried to amend the
fourth plea by the insertion of the word
"for." This met with resistance from
the District Attorney, but the court
promised that if the law was clear on the
point he would allow it. The Government
is said to fear a trick in the insertion of
the word.

The District Attorney moved that the defendants plend to the indictment. It was announced that a demurrer is to be filed by the packers, attacking the face of the entire indictment as far as defects and insufficient allegations are concerned. The defendants were ordered by the court to plead next Thursday morning. court to plead next Thursday morning, the pleadings to be taken up on argument before Judge Humphrey by the foilowing Monday. In the meantime, a bill of exceptions is to be prepared by the defendants to the ruling made by Judge Humphrey today. Exceptions were taken by all of the defendants to the court's ruling on every count in the plea. This was for purpose of appeal after the trial was for purpose of appeal after the trial. One of the points in the pleading which attracted considerable attention and which the court declared had given him some difficulty, was in regard to the rights of Judge S. H. Bethea to receive the return of the indictment. It was ar gued by the defense that he was sitting in the eastern division of the Northern District of Illinois and received an indictment voted in the Northern Division of the Northern District of Illinois. The Dis-trict Attorney declared that (if the law of March 2, 1966, which created the position now held by the judge and also rearranged the district was construed against his contentions) there was no court and there was no judge and there was no return of the indictment.

The court surprised almost everyone in ourt when he read from President court Roosevelt's message in the Congressional Record of last November, in which it is declared that Judge Bethea was appointed as a successor to Judge C. The packing-house business today is so highly organized and concentrated in so few hands that this fact, together with the keen competition between the rallroads, practically makes it possible for them to dictate rates for dressed beef and packing-house products," said. Mr.

According to figures submitted by Mr.
Ripley, the expense to the Santa Fe road for hauling a car of dressed meat from Kansas City to Chicago is \$82.19; packing-house products \$85.00 and livestock \$64.71. Mr. Ripley claimed that his company lost money on every car of dressed beef hauled between Kansas City and Chi-

"Strictly speaking and under normal conditions," said Mr. Ripley, "the rate on dressed beef should be 150 per cent higher than on livestock. It actually costs the railroads 40 per cent less to handle cattle than it does to haul dressed beef in refrigerator cars."
