# COMPARISON OF

Sample Valuations Under the Raises Made by Sigler.

TAX RATE IS MULTIPLIED

Most Noteworthy Increases Are in Washington - Street Realty, Where, in Some Instances, Gain Is Six-Fold.

With the new assessment roll spread open, so that taxpayers might seek therein for errors, the County Board of Equalization in the County Court room yesterday began a session which will last a week, and in the course of the day was visited by many property-owners, some of whom devoted themselves only to scanning the new plan of cash values, and others to the task of finding how they themselves were assessed heavier than their next-door neighbors.

The board is composed of L. R. Web-ster, County Judge; F. S. Fields, County Clerk, and B. D. Sigier, County Assessor. Mr. Fields and Mr. Sigler were in attendance all day, the latter explaining valuations and Mr. Fields placing protests on file. The law empowers the board "to make the proper corrections, if it shall appear that there are any lands or other property assessed twice or in the name of a person or persons not the owner thereof, or assessed under or beyond the actual value, or any lands or other property not assessed. . . . Said board shall not increase the valuation of any property so assessed, without giving to the person in whose name it is assessed at least three days in which to appear and show cause, if any he has, why the valuation of his assessable property, or some part thereof, to be specified in such ce, shall not be increased."

#### Complaints Not Numerous.

Despite the new plan of cash-value assessments, put in practice by Assessor Sigler for the first time, thereby doubling and trebling, and sometimes even more vidual properties, Mr. Fields said there nore complaints than last year, and Mr. Sigier remarked that a number of business men had told him voluntarily that the new system was right and prop-However, loud protests undoub will go up from land-owners, who will not | ing. take kindly to the new method, or who will think their property assessed disproportionately with their neighbors'.

Northern Pacific Railroad yesterday filed a protest against the personal assessment made against its the Scattle organization, and it is hoped property, which is \$331,600, or three to send at least ten delegates from Porttimes as large as last year's. Other protesters were a number of second-hand merchants, who slieged that from the St. Louis ad men, inviting the their stocks were assessed too high. Portland league to be represented at a Jacob Rosenthal went before the meeting which is to be held in Chicago Rosenthal went before the to declare the \$50,000 assess-

where the new assessments in some cases are four, five or six times as last year's. On the average, matter how many members were in atassessments on realty have been trebled and those on buildings and improvements doubled. This has increased the tax burden of realty in the heart of the city which holds cheap buildings or none at all.

The following are sample assessments for 1904 and 1905 on realty and buildings in the busy parts of the city:

#### FIFTH-SIX COMPLAINTS

EQUALIZATION BOARD HEARS PROTESTS.

Most Important Objection to Raises Comes From Northern Pacific Railroad Company.

Fifty-six complaints of over-assessment were filed with the County Board of Equalization yesterday, which was the first day of a week's session. Last year the number of complaints filed with the board upon the first day was 2. The members of the board are Assessor Sigier, County Clerk Fields and County Judge Webster. Judge Webster was out of the city yesterday and no action will be

given in the present assessment. Most of the complaints filed were of minor importance. Several large firms, however, had representatives present, and will probably be heard from later.

The most important complaint was that made by the Northern Pacific Company, asking that its recovery in this county.

asking that its property in this county, not including right of way, track and rolling stock, be assessed at \$15.762, in-stead of \$486,160, the valuation given it by Assessor Sigier. The valuation set forth in last year's list was \$85,340. The company also wishes the fixing of \$17,000 a mile upon its right of way and track reduced to \$7920, and the figure of \$3000 a mile upon its rolling stock cut down to \$1056.

Other important complaints came from local merchants, who alleged that the value of their goods had been overestimated. Jacob Bosenthal stated that the value of his stock of merchandise is \$11,500, whereas the Assessor's figures place it at \$55,300. S. & L. Freedman wish their assessment to be reduced from \$25,000 to \$5000, and C. R. Winslow & Company assert that their property is worth \$27,500, nor \$47,500, as it appears on the list. Jacob Lesser shought that \$800 was a correct valuation for his property. instead of \$15,000, and several others asked reductions in the same preportion. Among the other complainants were the Columbia Phonograph Company, H. Bauman and the Oregon & Washington Lum-

There are few cases where the compianants allege unjust discrimination, specifying wherein the discrimination lies. Many property-owners did not realize that the assessment this year was based upon the actual value of the property, and came before the Board of Equalization with complaints simple because their aswith complaints simply because their as-sessment was higher than last year. After considering the situation as many as half of these left with their complaints

One laundryman appeared before the board and asserted that he had no com-plaint to make about his own assessment, but that his competitors had been assessed too low. After discussing the matter it was decided to call a meeting of all the laundrymen of the city for next Friday, when the assessments will be considered and a rate established which will be fair to all.

#### AD MEN HOLD COUNCIL

Will Be Well Represented at the Seattle Convention.

A regular schedule of rates for the writing of advertisements will be adopted in Portland, if the suggestion of President Whittier, of the Ad Men's League, is carried to its conclusion. The groposition was brought up at the meeting of the league in the tower-room of the Chamber of Commerce building last night, and was favored by a majority of the members present. The plan is to adopt a uniform for the first time, thereby doubling rate of charging for all work done by trebling, and sometimes even more quadrupling the valuations of indiwhich would prevent the cutting of rates among the writers of advertisements and bring good results to all who are engaged in this occupation in Portland. No action was taken, but the matter will come up for further discussion at a future m

Plans are being made by the league to be well represented at the convention of Pacific Coast ad men, which is to be held at Seattle, October 23 and 24. A very cor-dial invitation has been received from

Board to declare the \$50,000 assessment against his stock of shoe goods excessive and to take oath that the actual value was not more than \$11.000. Owing to the protest of one laundryman, all the laundries in the city were directed to send representatives before the Board.

Method is to be held in Chicago October 12-14 for the purpose of organization of advertisers. As ad-writing is comparatively new as a profession, no such organization has yet been formed. The local men favor the movement, and authorized President Whitter to appoint a delegate to this meeting.

A change was made in the by-laws of league in regard to the number of The most noteworthy increases are negative votes necessary to disqualify a oted on Washington-street realty, candidate for membership. Heretofore if

#### Ten-Hour Law Test.

Curt Muller, proprietor of the Grand Laundry, who is charged with compelling Mrs. E. Gotcher to work in his place of business more than ten hours a day, says he will test the law in the Supreme Court. He was arraigned yesterday before Judge Frazer, and pleaded not guilty. The trial was set for October 13. W. D. Fenton and J. T. Geisler appeared as coursel for Mr. J. T. Geisler appeared as counsel for Mr. Muller. Speaking for his client, Mr. Geisler said:

"I consider the purpose of the law in question a wholesome one, and so must every fair-minded person; and I shall personally refuse to take part in any defense which is designed to thwart such pur-pose. But the law as enacted is mani-festly impractical, viewing the same as employe or employer, and it is besides very vulnerable. To prove this condition and the necessity for revising the act, and the necessity for revising the act, my client may be compelled to make this a test case. If he does so it will be for the benefit of all concerned. I, however, shall urge that the organization representing female employes, and the employers, appoint committees to confer on this matter. I am sure if properly presented both sides would agree upon acsented both sides would agree upon and adopt some fair rules for governing em-ployers at present and draft a better statute for the actual accomplishment of the

Demands Damages for Injuries. The second trial of the suit of Henry Violi against the North Pacific Lum ber Company for \$10,000 damages was begun in Judge Sears' court yesterday, and will be continued today. On May 9, 1903. Viohi was employed in defendants' mili as an off-bearer. His foot was caught in a cog wheel and his heel was torn off and his ankle was crushed. He is crippled for life, and says the company is to blame because it allowed the cog wheel to become covered and surrounded with slabwood, and the wheel was therefore not noticeable. The case was previously tried and the lum ber company was granted a nonsuit. The Supreme Court reversed this order and granted a new trial. Governor Chamberlain and Warren E. Thomas appear as attorneys for Viohl, and W. D. Fenton and R. A. Leiter for the de-

#### Children Arrive Unattended.

Hilda Johnson, a chaperone aged 13 years, and Arvid Martin, aged 6, both from Butte, Montana, were noticed at the Union Depot yesterday by the workers of the Travelers' Aid and taken to

headquarters as lost. According to the story told by the little tourists when questioned at the head-quarters of the organi, ation, tickets had been bought for them by relatives in Butte and they were started on the train for Portland. It was the understanding that the smaller of the two would be taken care of by Mrs. William Carlson, an aunt. at Albany, but in the meantime the boy and the girl are both in the care of the Travelers' Aid at 1054; Sixth street, where they will be kept until something has been learned of their case.

Chamberiain's Cough Remedy city yesterday and no action will be taken in the matter of readjusting the assessment prior to his return.

The county courtroom where the board met was crowded all day with propertyowners who resented the high values depended upon. For sale by all druggists. Principal Portland Agents Butterick Patterns, Publications
