

FURTHER DELAY IN NAMING JUDGE

President May Not Fill the Vacancy in Oregon Until December.

HITCH ABOUT ROSEBURG

Hitchcock Objects to Hegardt, but Fulton Offsets Objection With Letters From Army Engineers Indorsing Him.

OREGONIAN NEWS BUREAU, Washington, Oct. 2.—President Roosevelt may not appoint a Federal Judge for Oregon, or a Registrar and Receiver for the Roseburg Land Office until Congress assembles next December. It is not definitely announced that there will be this further delay, but that is the intimation which the President gave Senator Fulton today when the latter called to urge the Roseburg Land Office appointments.

The Senator told the President that he and Secretary Hitchcock had agreed upon B. L. Eddy for Registrar, but had been unable to reach an understanding as to the Receiver. The President informed Mr. Fulton that Mr. Hitchcock now objects to the appointment of G. B. Hegardt as Receiver, having become convinced, after inquiry, that Mr. Hegardt was not a proper man for the place. He did not state the grounds of objection.

To offset this objection, Mr. Fulton handed to the President very strong letters from the Acting Chief of Army Engineers, and Major W. C. Langitt, speaking in the highest terms of Mr. Hegardt, who for 17 years has been in direct charge of Government work at the mouth of the Columbia River under the Army Engineer Corps. The indorsements, which are official, seemed to offset the objections raised by Mr. Hitchcock and the President kept them, promising to take the matter up with the Secretary at once.

CANNOT HOLD THEIR CLAIMS

Squatters on Shoshone Withdrawal Have Wasted Their Money.

OREGONIAN NEWS BUREAU, Washington, Oct. 2.—The 180 odd individuals who have erected cabins on rich timber land in Shoshone County, Idaho, and whose names were quoted in the report of Special Agent Schwartz, recently published, have not inflated homestead entries, as was erroneously stated in these dispatches, but have merely made settlement claims. In the opinion of officials of the Land Office who have examined these claims, every person named in Mr. Schwartz' report is endeavoring by unlawful methods to get title to Government timber land. Not one of these persons has inflated entry, either homestead or timber, but all have had shacks or cabins erected on quarter sections of valuable timber land before the lands were surveyed and subject to entry, in order that they might have some basis for alleging settlement which would enable them to initiate before anyone else could get the land when opened to entry.

In some cases, as some of the claimants admitted, it was their intention to make homestead entry and avail themselves of commutation privileges, while others say they intended, after making homestead filing, to change and make the timber entry. But in every case these settlements discovered by Mr. Schwartz were made solely for the purpose of holding this land until the builders of cabins deemed it expedient to make entries. To make use of these alleged settlements, prospective entrymen would have to swear to residence on the land, but with one or two exceptions they have failed to actually reside on, or prove, the land, and therefore establish no rights which will be recognized by the Land Office.

If any person named by Mr. Schwartz shall hereafter attempt to make entry of lands on which these cabins have been erected, claiming prior right by reason of settlement, such entries will undoubtedly be cancelled, as these men have established no rights which the Government will respect. The special agent's investigation showed that many of these persons had built cabins thinking it was the proper way to get hold of the land and were not aware that they were violating the law. They claim to have merely followed a long standing practice in Idaho. It is a safe prediction that not one of the 180 persons named by Mr. Schwartz will be permitted to make entry of the land within the proposed Shoshone forest reserve on which cabins have been erected.

The Land Office records fail to show that J. P. O'Brien or J. W. Graham, of Portland, named on the list, have made any filing whatsoever, but show they have mere settlement claims, which will avail them nothing, neither having actually lived on the land or improved it.
