

DIG PROGRAMME FOR CLOSING DAY

Attendance Expected to Exceed Any Occasion Except Portland's Own.

SPECIAL STATE EXERCISES

Receptions, Musicals, Dynamiting of Sham Battleships, and Band Concerts Will Be Features for Saturday.

ORDER OF THE DAY, OCTOBER 12.

- 9 A. M. to 12 M.—De Caprio's Administration Band, Transportation building. 10 to 11 A. M.—United States Artillery Band, Government Terrace. 11 to 12 M.—Free biograph exhibition, Government building. 1:30 to 4:30 P. M.—Free illustrated lectures, California building. 2 to 3 P. M.—Free biograph exhibition, Wyoming exhibit, Agricultural building. 3 to 5 P. M.—Free biograph exhibition, Nebraska exhibit, Agricultural building. 2:30 P. M.—Grand concert by the Ellery Royal Italian Band, Gray's Boulevard bandstand. 3:30 P. M.—Concert by De Caprio's Administration Band, California building. 2 P. M.—Illustrated lecture on Alaska, Government building. 3 P. M.—Free illustrated lecture on the American Navy by Barry Bulkeley, Navy Department, Government building. 3 P. M.—Illustrated lecture on the Panama Canal, Government building. 3:30 P. M.—Timber-testing by Government experts, Government building. 3:30 to 4:30 P. M.—Concert by the United States Artillery Band, Government Terrace. 4 P. M.—Special atrial flight by the atrial flight, City of Portland. 5 P. M.—Government buildings close. 6 P. M.—All exhibit buildings except Foreign and Oriental buildings close. 7:30 P. M.—Grand concert by the Ellery Royal Italian Band, Gray's Boulevard bandstand. 8:30 P. M.—Concert by De Caprio's Administration Band, California building. 7:30 P. M.—Grand electrical illumination of Exposition grounds and buildings. Further information may be obtained from official daily programme.

Tomorrow—and then the end. Saturday, the last day, is to be made a fitting climax to Portland's great Fair. It will be an occasion calculated to leave a lasting impression with those who attend to pay the last respects. The attendance should be larger than on opening day or on the Fourth of July. In fact there should be nearly as many people on hand as there were on Portland Day. The Exposition can hardly be termed the greatest success without a big closing-day demonstration on the part of the public.

For many days the programmes for Saturday has been under consideration. At this time one of the most elaborate programmes since the opening of the Exposition has been arranged for and additional features will be added today.

Every Building Will Be Open.

Every building and every department will be open from early in the morning until late at night. There will be band concerts every hour of the morning, afternoon and evening and the various state buildings will receive the public as in former receptions. Amusements, special closing exercises are being planned by a majority of the state buildings.

The final closing of the Government building will take place on the morning of the Fair. There will be band concerts every hour of the morning, afternoon and evening and the various state buildings will receive the public as in former receptions. Amusements, special closing exercises are being planned by a majority of the state buildings.

ADMISSIONS, 24,102.

The turnstiles recorded 24,102 admissions yesterday.

ing the greatest percentage of membership. There were 24 members in the McMinnville team. No Portland teams were entered, not having a membership of 21, which is the required number to enter in the competitive drill.

Several thousand people saw the three companies drill, and while the teams were almost equally matched, the decision of the judges met almost universal approval. The evolutions and grand drills of the Astoria team were particularly good. All of the teams were greeted with loud and continued applause when they were drilling. Captains Murphy, Donbar and Smith of the Oregon National Guard, stationed at the Exposition, acted as judges.

Order of the Day.

- The order of the day so far as arranged up to last night follows: 8 A. M.—Gates open. 8 A. M.—Exhibit buildings, Government buildings and Trail open. 9 to 10:30 A. M.—Concert by De Caprio's Administration Band, Grand Colonnade, near Administration building. 10 to 11 A. M.—Concert by United States Artillery Band, Government Terrace. 11 to 12 M.—Free biograph exhibition, Government building. 11 A. M.—Aerial flight by Lincoln Beachey in Captain Baldwin's airplane, "City of Portland," Exposition Aerodrome. 11 A. M.—Illustrated travelogue and lecture on "Panoramic Colorado," by Gilbert McClurg, Government building. 11 to 5 P. M.—Free biograph exhibition, Government building. 2 P. M.—Illustrated lecture on Alaska, Government building. 2 P. M.—Free biograph exhibition, California building. 2 to 5 P. M.—Free biograph exhibition, Wyoming booth, Agriculture building. 3 to 5 P. M.—Concert by De Caprio's Administration Band, Gray's Boulevard bandstand. 2 to 5 P. M.—Free biograph exhibition, Nebraska booth, Agriculture building. 2:30 P. M.—United States Liferiving Service drill, Gull's Lake. 2:30 P. M.—Grand concert by the Ellery Royal Italian Band, Gray's Boulevard bandstand. 2 to 5 P. M.—Farewell concert by De Caprio's Administration Band, Transportation building. 3 P. M.—Illustrated lecture on the American

Navy by Barry Bulkeley, Government building. 2 P. M.—Illustrated lecture on Irrigation, Government building. 2:30 P. M.—Lecture on the Panama Canal, Government building. 3:30 P. M.—Timber testing exhibit, Government Forestry building. 4 P. M.—Special atrial flight by Lincoln Beachey in Captain Baldwin's airplane, "City of Portland," Exposition Aerodrome. 4:30 to 4:50 P. M.—Farewell concert by United States Artillery Band, Government Terrace. 5 P. M.—United States trumpeters sound the signal to drop colors, all flags on Government buildings hoisted down as Artillery Band plays the "Star-Spangled Banner," and Government building closes forever. 6 P. M.—Exhibit buildings, except Foreign building and Oriental building, close. 7:30 P. M.—Grand concert by the Ellery Royal Italian Band, Gray's Boulevard bandstand. (If weather is bad concert will be held in Auditorium.) 8 P. M.—Farewell and Oriental buildings close. 11 to 12:15 A. M.—Grand farewell concert by the Ellery Royal Italian Band, Gray's Boulevard bandstand. 10:30 P. M.—Grand "Good Night" display of fireworks and blowing up of six warships, Gull's Lake. 1 A. M.—Gates and Trail close, grounds dark.

PYTHIANS DRILL AT FAIR

ASTORIA TEAM, UNIFORM BANK, TAKES FIRST PRIZE.

Hubbard Gets Second Place and McMinnville Third in the Contest on Fair Grounds.

Rain did not interfere with the celebration of Pythian day at the Lewis and Clark Exposition yesterday.

MRS. M. J. WESSEL, WHO SUPERINTENDED EXHIBIT WHICH TOOK GOLD MEDAL.

Clark Exposition yesterday, more than 3000 Knights of Pythias attending, the Fair from all parts of Oregon. As the features of Pythian day were to take place out-of-doors, the advent of rain early in the afternoon was expected to be a serious drawback.

But the meeting of this thriving and growing order are not of the kind that become disheartened because of a little Oregon mist, and promptly at 2 o'clock, as scheduled, the uniformed ranks of the Knights of Pythias marched through the gates. After a short parade through the grounds, they assembled in the large plaza in front of the Oregon building, where a competitive drill was held, which was participated in by companies from Astoria, Hubbard and McMinnville. Here they were also reviewed by Brigadier-General Atkin, of the Oregon Brigade, Uniform Bank, of E. McMinnville.

Astoria was awarded the first prize for proficiency in drill, receiving a cash remuneration of \$125. Hubbard was second, with a prize of \$100, and McMinnville got third place, receiving \$75. McMinnville also received a cash prize of \$50 for bringing the greatest percentage of membership.

The presentation of the prizes was made by Grand Marshal Marion F. Davis, of Union, who was elected to the office he now occupies for the ensuing year Monday.

After his speech, Grand Chancellor Davis presented the prizes. The members of the three companies united in giving three cheers for the grand chancellor and for Brigadier-General Atkin. The companies then broke up and spent the night in seeing the Exposition and in hitting the Trail.

Catholic Schools' Day. Free admission will be granted today to teachers and students of all Catholic schools. The day has been designated as Catholic schools' day and many students are expected to take advantage of the opportunity to see the Exposition again. Priests familiar with the faces of their students will station themselves at the pass gates to identify those seeking free admission.

California Will Entertain. The California Commissioners will entertain in their building today in honor of the various exhibitors at the Exposition. There will be a special musical programme and refreshments will be served. The reception will begin at 2 P. M. and continue for an hour.

ASK JOINT SESSION

Counsel Wants Circuit Court to Sit en Banc.

IN REED WILL LITIGATION

Attorney Joseph Simon States That Whatever Verdict, Appeal Will Be Taken to the Supreme Court of Oregon.

A request that the four judges of the State Circuit Court of Multnomah County sit in joint session and hear the trial of the Amanda W. Reed will be made by Joseph Simon, attorney for the estate, yesterday morning. Mr. Simon said the case would be appealed to the Supreme Court no matter whether the contestants or the estate won. Judge Frazer remarked that in that event he did not see why it was necessary for the four judges to sit in the case. Mr. Simon responded, "If the four judges cannot afford to sit in an important case like this, I do not see how they can take the time to sit together in any case. My reason for making this request is that the decision of the four Circuit

judges would have great weight with the Supreme Court. Judge Frazer contended the will on the ground that under the California law not over one-third of an estate can be devised for charitable purposes, and she left all the real and personal property of the estate to an institution of learning to be known as the Reed Institute. The contestants allege that at the time of her death she was a resident of Pasadena, Cal., and has estate therefore subject to the provisions of the statute of that state. County Judge Webster, after hearing evidence, decided that Mrs. Reed was a resident of Portland with Winter place in Pasadena. The amount involved in the suit is about \$50,000.

REASON FOR POSTPONEMENT

Attorney Declares He Wants to Attend the Exposition.

"I desire to go to the Exposition with my family, and S. C. Spencer wants to attend the Republican peace conference," said James Gleason, attorney, in Judge Frazer's Court yesterday in asking for the postponement of the trial of Henry Clay Jordan and his son O. F. Jordan. They are charged with having falsified the books of the International Manufacturing & Mining Company, of which they were officers.

"I can try a lawsuit any time," Mr. Gleason proceeded to say, "but there are only three days of the Fair left and my family want me to go with them."

Judge Frazer looked astonished and asked: "Is this the only reason for asking for a continuance of the trial?" "Yes, it is against the bridge rules for teams to go on the space reserved exclusively for the tracks and cars. The court did not declare against the sale of the guard rail, but Judge George held that reasonable rules were proper and the guard rail was not in dispute."

SAVINGS BANK EXPLAINS

Why the Coffey Check Was Turned Down—"No Funds."

PORTLAND, Oct. 11.—(To the Editor.)—We wish to make an explanation in regard to the publicity given to our bank in connection with the nonpayment of a check drawn by J. O. Coffey.

Mr. Coffey had a savings account in our bank amounting to \$200, which is not subject to check. Nevertheless, he drew a check in the amount of \$100 and left the city. The next day the check was presented at our paying window and was turned down for nonpayment of funds.

We have over 700 savings depositors in the bank, and when checks are presented, the paying teller has no time to look over the savings accounts, and is not supposed to do so. Anytime when Mr. Coffey's check was presented, the paying teller refused payment on account of no funds.

It seems that Mr. Coffey was then arrested in Tacoma for obtaining money under false pretenses, or something of that kind. A second time, the check was presented at our bank, and the bookkeeper told the party presenting the check that Mr. Coffey had no funds in a general account.

It seems that there was anything in his credit in the savings department, it was not subject to check.

While we feel very sorry for Mr. Coffey, there is only one rule to follow in banking, and that is written down in our savings passbook very plainly. Article 3, of our savings passbook, reads as follows: "Deposits may be withdrawn by the depositor, either personally, or by order in

writing, or power of attorney, upon producing the passbook and having the same entered therein." Article II reads as follows: "At a final settlement of a deposit account, the passbook must be returned to the bank. Had Mr. Coffey complied with these regulations, plainly printed in his savings account book, he would have saved himself and ourselves all this trouble. But the following letter from Mr. Coffey shows that he acted in good faith, no doubt, and thought he had a right to check against the account, but, after a full explanation of the matter, as shown by the letter, Mr. Coffey fully exonerates the bank and its officials.

Very truly yours, W. H. MOORE, President. P. S.—You understand, a passbook is negotiable, and, accompanied with a written order, must be paid for by the bank for the amount of the balance.

The letter to the bank from Mr. Coffey follows: PORTLAND, Or., Oct. 10.—Oregon Savings Bank, City-Gentlemen: In reference to the article that appeared in The Oregonian, and to the general statement that has been made in reference to the unfortunate affair of the late Mr. Coffey's arrest, I beg to state that, at the time I opened my account in the Oregon Savings Bank I was not aware of the fact that it was opening a savings account, and did not, and thought he had a right to check against the account, but, after a full explanation of the matter, as shown by the letter, Mr. Coffey fully exonerates the bank and its officials.

Very truly yours, J. O. COFFEY.

The purchase by the University Club of the residence of Louis G. Pfunder, at 427 Washington street, completes that organization's plans for having a permanent headquarters in the city. The corner of West Park and Stark was sold to the club by H. W. Scott about six months ago, and the Pfunder house, which is commodious, will be removed and strictly on club house lines. The present quarters in the Falling building have been only temporary and are not suited for the purpose of a permanent club house. The club house, when completed, will offer all reasonable accommodations to its members and will compare with any club in Portland. The upper floor will contain ten sleeping apartments, with bath, and the main floor will be the parlors or social hall, a large library, rest room and office. The dining-room will be on the main floor of the addition and will be designed in anticipation of enlarged membership. The billiard and pool rooms, bar and Turkish baths will occupy the basement. By the time the building is finished the new club headquarters will represent an expenditure of about \$40,000, and \$25,000 of this having been paid for the lot.

The University Club has attained a membership of 29 in the four years it has been in existence and it is one of the most exclusive organizations of the kind in Portland, and the fact that all its members are of the highest social and intellectual places it on a high intellectual plane. The foremost citizens of Portland are among its members and keenest interest is taken in the club's remarkable growth and in its welfare.

Mr. Pfunder's family expect to vacate the house just sold to the club by the fifteenth of October, it is possible and in that event the removal of the building will not be delayed but work begun at once.

What to See Again Before the Fair Closes

AN exhibit, small in number but vital in interest, should not be lost sight of in the Transportation building. It serves the same purpose as the exhibit on electricity. Side by side, or rather, in the same building, are the exhibits of a non-expert of the exhibit on electricity. Side by side, or rather, in the same building, are the exhibits of a non-expert of the exhibit on electricity.

Some specimen that they may have some vague notion that they ought to recognize. But its name and belonging, its color in nature, its possible value, the neighbors it indicates, how ignorant are most persons. Our eyes are held. All this four months now past these dictionary books educate himself in this Exhibition into, at any rate, the primary class of mineralogy.

Books are to most of us sealed—the language is unfamiliar, the written description we cannot identify—but here has been, and is for just three days more, the chance to make a slight acquaintance with the mineral world. The bridge of Nations just this once more on our way to the palace that the nation has built and filled for us. Can we pass without learning by heart the features of this view, our today to be gone tomorrow? The clearest blue vault overhead, the waters of the lake dimpling under the gentle breeze, the sparkling of the fair city on the hill sparkling in the sun, the dark green of the masses of fir-clad hills, the darker for the shadows in which they stand, and in the East the snow pyramids, Hood and St. Helens, so close they seem in the clear air. As we pass, the alps rise from its moorings, and mounts gently in the distance, the snow-capped peaks, the steers his craft here, there, and about, now higher, now lower, until every movement and gesture is plain to the crowd of gazers. The number of the count of the quickened revolution of the fans at the head of the strange ship, and she responds at once. The white rudders of the stern change, the stern ever so slightly and the ship veers round at once in answer. So easy, so safe, it looks that the sense of danger is not present. Each wonder has its explanation by the time some other Exposition opens its gates, rides in airships, or on aeroplanes, will not be as open to the visitor in search of excitement as the present. Each wonder has its explanation by the time some other Exposition opens its gates, rides in airships, or on aeroplanes, will not be as open to the visitor in search of excitement as the present.

Remember what varieties of mineral wealth are hidden in Oregon hills a last look should be taken. Few have made acquaintance here with the possibilities of the finished blocks of fine grained concrete for the upper structure. In price and appearance, it suggests the granite. It compares favorably with brick, when used in corresponding grade of strength and thickness.

Outside the back porch of the Idaho building stand three great blocks of bituminous coal. Whoever in Oregon believes in the early development of coal fields, the state of superior quality to the lignite which is so far the only product of the mines, (and who that knows anything of the geology of Oregon is faithless in this matter?) should not pass these blocks without examining them and specially noting the analysis attached to each. So will he have a basis of comparison with samples from Oregon, which will come to the front in early days to come.

RAILWAY HAS COACH

Wagons May Not Trespass on Bridge Right of Way.

DRIVER BROSY CONVICTED

Knocked Down Bridgetender Who Assaulted Him, Is Convicted in the Municipal Court and Loses on Appeal.

HOGAN IS VERY RESTLESS

Man Who Confessed Killing of Woman Cannot Sleep.

A cost could, but very nervous man is John D. Hogan, self-confessed slayer of Mrs. Louise Jenkins, who walked into police headquarters early Tuesday evening and gave himself up. By an information filed in the Municipal Court yesterday by Deputy District Attorney Adams, the prisoner is charged with murder in the second degree.

Hogan is greatly disturbed because of the fatal affair, which occurred Saturday night, and during all of Tuesday night he slept very little. The least noise would waken him, and he was never found asleep when the station officers entered the jail.

Yesterday afternoon, Hogan posed for a photograph. He was perfectly willing to sit, and said he had no reason to conceal anything. He candidly told of the affair that has landed him in jail, and which, if proved guilty, will send him to the penitentiary for life. As published yesterday, he maintains the blow that killed Mrs. Jenkins was delivered in self-defense, and that he did not know she was dead until Tuesday night. He says he recalls quite clearly the brawl that ended in the death, although he was slightly intoxicated at the time.

Although Hogan claims the death of Mrs. Jenkins was purely accidental, or the result of a blow delivered in self-defense, the state will attempt to prove murder in the second degree. The penalty for this, if proved, is life imprisonment in the penitentiary.

Yesterday Hogan engaged the services of Attorney Samuel H. Gruber, who will defend the prisoner. Hogan is from Chicago, and is a stamp and dye man by trade. He declined to make any statement concerning his family, and would not say whether he was married.

Any one can take Carter's Little Liver Pills as very small. No trouble to swallow. No pain or griping after taking.

PRESENT STATUE TO STATE

HEROIC FIGURE OF MISSOURI FOR CAPITOL GROUNDS.

Commission From That State Gives its Good Will in Giving Symbolic Creation.

Oregon was made the recipient yesterday of the imposing statue that stands in front of the Missouri building at the Lewis and Clark Exposition. It was given by the Missouri Commissioners as a token of good will.

The statue will be placed at Salem. It is a heroic creation symbolical of Missouri. The figure of a woman bearing the shield of the state, representing a value of \$2400. A site at the Oregon capitol is to be selected at once and the statue will be removed there immediately after the close of the Exposition.

The presentation occurred yesterday forenoon. E. E. McJimsey, vice-president of the Missouri Commission, presented the communication to President Myers of the Oregon State Commissioners stating that the statue had been given to this state. President Myers promptly wrote a note of acceptance and appreciation. The communication from the Missouri State Commissioners to the Lewis and Clark Exposition take pleasure in presenting to the State of Oregon, for removal to the State Capitol grounds at Salem, the heroic statue of the Missouri State, immediately in front and to the left of the Missouri State building.

"This statue, as you are aware, is typical of Missouri and bears the shield of the state. It is a heroic creation, a perpetual and pleasant reminder, to all who shall hereafter look upon it, of the proud and affectionate regard in which the daughter, Oregon, is held by her mother, Missouri. It is the earnest wish of E. E. McJIMSEY, Vice-President."

Clackamas Children to Come. OREGON CITY, Or., Oct. 11.—(Special.)—Arrangements have been made by School Superintendent Zinser by which the pupils of the Clackamas County schools will visit the Exposition the last day of the Exposition. A special rate to school children has been made for the day by the Oregon Water Power & Railway Company.

Elery Band Concert Sunday. Although the Lewis and Clark Exposition officially closes next Saturday night, the Elery Royal Italian Band will not conclude its engagement until Sunday. It will give a concert Sunday afternoon in the bandstand on Gray boulevard, following which Director Ferullo will be presented with a purse which is being raised among the music-lovers of Portland. The California building will also be open on Sunday. The regular 25-cent rate for admission will be charged at the Fair Sunday. It is understood that all of the Fair attractions will close Saturday night.

Itinerary of Lewiston Trip. The general passenger department of the Oregon Railroad & Navigation Company will issue an artistic Itinerary for the excursion of Portland business men to the Lewiston-Clarkston Fair. It will be an artistically designed and cleverly arranged booklet, which in addition to the itinerary of the trip will contain the personnel of the party and brief address in which is set forth the purpose of the excursion. It is being prepared by R. M. Hall, O. R. & N. advertising agent.

Founders' Day Exercises Postponed. PACIFIC UNIVERSITY, Forest Grove, Or., Oct. 11.—(Special.)—Because of the Oregon Congressional Association, which convenes here next week, the faculty has postponed Founders' day for one week. This is the annual student celebration. Under the direction of the senior class a fine programme is in course of preparation for October 25.

University Club Home WILL MOVE PFUNDER RESIDENCE TO ITS LOT. With Site and Renovated Building, the Cost Will Be Forty Thousand Dollars.

The purchase by the University Club of the residence of Louis G. Pfunder, at 427 Washington street, completes that organization's plans for having a permanent headquarters in the city. The corner of West Park and Stark was sold to the club by H. W. Scott about six months ago, and the Pfunder house, which is commodious, will be removed and strictly on club house lines. The present quarters in the Falling building have been only temporary and are not suited for the purpose of a permanent club house. The club house, when completed, will offer all reasonable accommodations to its members and will compare with any club in Portland. By the time the building is finished the new club headquarters will represent an expenditure of about \$40,000, and \$25,000 of this having been paid for the lot.

The University Club has attained a membership of 29 in the four years it has been in existence and it is one of the most exclusive organizations of the kind in Portland, and the fact that all its members are of the highest social and intellectual places it on a high intellectual plane. The foremost citizens of Portland are among its members and keenest interest is taken in the club's remarkable growth and in its welfare.

Mr. Pfunder's family expect to vacate the house just sold to the club by the fifteenth of October, it is possible and in that event the removal of the building will not be delayed but work begun at once.

Business Items. Is Baby in Cutting Teeth. Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, kills the pain, cures wind, colic and diarrhoea.

Habitual constipation cured and the bowels strengthened by the regular use of Carter's Little Liver Pills in small doses. Don't forget this.
