Folk Speaks at Philadelphia on :: Civic Reform.

VAST CROWD CHEERS HIM

He Tells People That Aggressive Patriotism Is Needed-People to Blame for Rottenness in Municipal Affairs.

PHILADELPHIA, Oct. 16.-The great battle between the Republican organ-ization and the City party, the municipal reform party recently formed was enlivened today by the visit of Gov-ernor Folk of Missouri, who came to lend his voice in the interest of good government. The Missouri Governor to-night addressed a large and enthusiastic lience in the Academy of Music. He spoke under the auspices of the City Club, which claims no connection with the City party. Mr. Folk had an exceedingly busy day, and his reception wherever he appeared during the day and evening was flattering

The crowd that attempted to gain engreat that the doors were closed before the meeting began. Several thousand persons who could not get in were addressed by City Party speakers. While the speaking was in progress Governor Folk arrived and the assemblage would not permit him to enter the building until he had addressed it. He made a short speech. When he entered the academy the entire audience stood up to welcome him. With him on the stage were George Burnham, Jr., president of the City Club, Former Postmaster-General Charles Smery Smith, Former United States Attorney-General Wayne MacVeagh, William Potter, former U. S. Minister to Italy and about a hundred citizens of prominence. Mayor Weaver occupied a proscentum box and was given a warm welcome when he appeared. Aggressive Patriots Needed.

President Burnham in explaining the objects of the club, said the organizaobjects of the club, said the organiza-tion was allied with no party, that it neither endorsed nor hamed candidates, but stood ready to help and genuine movement for good government. He pre-sented Mayne MacVeagh, who made a brief speech, introducing Mr. Folk. Mr. Folk sald in part:

The most conspicuous fact of municipal ents in the United States today is that they are governed by the few and not There is more aggressive rottenness and less aggressive patriotism in our large cities than anywhere else. If the patriotism can be made as aggressive as the rottenness, the problem of good government would be solved by the people taking the government into their own hands. If corruption exists in Philadelphia, the people are to biame; if corruption is to be eradi-cated, the people alone can do it. The fight ou are making here is a battle which will be felt by every town, city and state in the land. The benefit of a victory for good gov-ernment will be universal and the evil efernment will be universal and the control of a defeat will demoralize those who believe in good government by the people. The average man does not appreciate the solemn duty he owes his city, state and his

the land means the patriotism that comes from the heart, not from the head. Many men would be welling, if need be, to give up their lives for their city or state if they are needed, sometimes, and this kind of patriot-ism cannot be too highly commended, but the man who is willing to live for his city and state every day is the man that is needed just now. There may be as much patriotism in giving one's time to the betterment of civic conditions and the election of good men to office and purifying the ballot as in baring one's breast to the builets of n enemy. There never was a time when he need of patriotic men in public affairs actuated alone by the public good and fewer

POPULAR FUND FOR JEROME ..

His Committee Asks Subscriptions to Pay Campaign Expenses.

NEW YORK, Oct. 16.-At a meeting of the executive committee of the Citizens' ... Union today, at which District Attorney Jerome was present, an appeal was is-sued for the support of Mr. Jerome's reelection. In the campaign there will be associated with the executive committee of the union a number of well-known citizens, including Carl Schurz, Robert Grier Monroe, H. Deforest Baldwin and William S. Griswold. For the expenses of the campaign, advertising, watching the polls. etc., the union calls for a popular campaign fund of \$50,000, contributions to which will be received by Isaac N. Selig-

at \$5.50 QUICK MEAL STEEL RANGES -SPECIAL. A Range is not bought every day. In fact, if a good one is se-

lected a few will do during a lifetime. A few dollars more or less in price does not determine whether a Range is cheap or dear. You want the best; that is the very

The lasting quality is, of course, the main thing. Other points to be considered are: How much fuel does it require? Is any part of it liable to give out, to crack, break or warp? Does it heat up the kitchen, or is all the heat put to use in cooking and baking? Will it

wear well, and is it ernamental as well as useful, and easily kept clean? Among other valuable features possessed by the "Quick Meal" Steel Range are these: The body of the Range consists of an outer and an inner wall of steel, and between these walls is located a thick layer of asbestos board. Asbestos, not being affected by the fire, and a nonconductor of heat, holds all the heat inside of the Range for cooking and baking, instead of throwing it out into the kitchen. That is the reason the Quick Meal bakes in half the time ordinarily required. That is the reason the Quick Meal uses so extremely little coal or wood, and that is the reason it keeps the kitchen cool. Its heat is not radiated into the kitchen as a Range composed largely of castiron would do. We do not have to tell you that the "Quick Meal" is the best in this respect, as well as in so many others. Just lift up the top and look at the inside that part which must stand the fire-and you will see walls up to 34-inch thick; a thick, braced, arched oven top and a ribbed and ventilated firebox. The firebox is both ribbed and ventilated to keep it from becoming
