# COURSE OF MARKET

Hopmen Differ as to Future Firmer Prices Are Asked on Front Street of Prices.

#### SOME LOOK FOR A SLUMP

Break in Values Would Draw Speculative Element Into the Arena. Plenty of Lots Offering, but Not Choice.

HOPS-Conditions in Oregon market from growers' and deplers' standpoint.

BUTTER-City creamery men in faor of a reduction. EGGS-Fresh Oregon stock is up. POULTRY - Slight improvement

noted in prices, PRUIT-Season for Summer varieties drawing to a close SUGAR-Another 15-cent advance in

all grades.

ly watched by men connected with the trade nd a variety of opinions are expressed as to the future of prices. Dealers are not confident their views are correct that they are willing to subscribe their names to their statements. Everyone knows it is impossible tell what action the growers will take and much naturally depends on their attitude

the immediate future. What will happen late in the season, of course, no one pretends ms it has been, the large number of short sales made. The goods pount be delivered on se contracts, and if the short sellers cannot buy at a low price, they will have to pay a setter one. It is, therefore, up to the holder

toward the market. Few of the men in the

trade are sanguine of improvement in

say what the price will be. A prominent Polk County dealer who has een in the city thus expressed his viewe: "I cannot see how this can fall to be an off year for the growers. The market looks any hing but strong to me and I am prepared for a hig slump before long. buying being done is to fill short contracts and soon as this ceases and growers find there are no orders in the market, they will full over one another in their efforts to sell. When prices get down below 10 cents there will be snother story to tell. You will find speculators umping into the market then and buying to

bent the band." A well posted local dealer thinks that price recede when the short covering has been accomplished, but does not believe the market will fall much under 10 cents, which is mp at all as prices are but little above that now. He declares that buying at 10 cents will prevent any further decline.

The buying by shorts, however, does not show any sign of immediately elackening. Not uch trading has been reported for the past two days, but the country is full of buyers yet and some big transactions can be looked the next few weeks.

A few orders were on hand yesterday, but ealers find it very difficult to arouse any inereat on the part of the Eastern trade. A great many hope are on the market, which sows a willingness on the part of the growers of the lower grade goods in all sections to sell at corrent rates, but it is a fact recognised by all that nothing is harder than to buy etrictly fancy growths at prices now

Among the transactions announced yesterwas the purchase of \$7 bules of Sal Monday, bought 97 hales of prime to choice hope at 12% cents. Other recent transactions Henry Vogt and 34 bales from William Senvey & Metzger on Saturday night

serg. It shows a gain of 600,000 American dredweight over last year, and suggests

ooth in quantity and quality, especially in he Spect and Halleriau districts, where the ield this year gives beautiful hope, of full the and rich quality.

he Sanz district is estimated to yield this extra 210,000 American hundredweight, gainst 110,000 last year, the Auscha district per 14,000 hundredweight, against 47,000 inst year. In 15 has The world's hop crop is estimated as follows a American hundredweights:

Absace
Primeta
Austria

Sanz district ... 209,000
Auscha district ... 77,000
Dauba district ... 22,000
Galicia ... 22,000
All other districts ... 47,900 ... 377,000
Eussia ... 96,000
Eussia ... 96,000 16,000 . 2,251,000 This is about 600,000 hundredweight more

the forthcoming hop season. At present avarian hops, medium quality, are offered are at \$11 to \$13 per American hundredweight; Sanz quality at \$21 to \$25.

### CONDITION OF BUTTER TRADE.

iew quotations today. The local manuer, one company holding out for the old price. hty butter quotations range from 30 to 32% the demand has fallen off and receipts of

re or less shading of prices is resorted to.

### SUMMER FRUIT SEASON ENDING.

inue to come in, but attention is being to oranges, bananas, apples and pears. ong yesterday's receipts of grapes was a of very fine muscats from the Santa Cruz untains. Fiorin Tokays are about done for,

variety on hand. A shipment of peaches cam from The Dailes preterday and offered at 65 cents to \$1.15. Plenty of huckleberries are arriving now and are bringing 7 to 8 cents. Two care of sweet potatoes arrived yester day. A car of bananas is due today.

POULTRY MOVES BETTER.

Fresh Eggs Scarce,

market yesterday, and as receipts were limited, conswhat stiffer prices were named. The big retailers were not on hand, but purchases by smaller dealers cleaned up the street very well. Old bens and Springs were quoted at 146; cents and mixed coops at 11. Turkeys were also firmer at 17 to 17% cents.

Fresh Oregon eggs continue very scarce with sales of guaranteed stock generally made at 30 cents. Higher prices would result but for the presence of ample supplies of Eastern eggs.

Another Advance in Sugar. An advance of 15 cents in all grades of refined sugar was announced yesterday morn tog. Coming so soon after the 15-cent rise of last Sarurday, it created something like excitement in the grocery trade. The two advances are explained as being a movemen o restore the normal parity between the Coast and the Bast. In some quarters it is believed that the relations between the Wortern Refining Company and the Hawalian people are at the bottom of the deal.

Bank clearings of the Northwestern citie yesterday were as follows:

ON BULLISH FOREIGN NEWS

Russian Government Reported to Be Buying Wheat for Relief of Famine Sufferers - Shipments Are Decreasing.

CHICAGO, Oct. 11,-The wheat market opened firm, with December unchanged to be higher, at 801,986c. Wet weather in the United States imparted some firmness to the situation, but the factor of apparently greatest invarion, but the factor of apparently present importance was a cablegram from Odessa to a well-known concern here reporting the Rus-sian Government as buying wheat for the re-lief of the famile sufferers. It was also claimed that shipments from Russia are declaimed that stipments from Russia are de-creasing. Throughout the entire day, demand from shorts constituted the chief source of buying. Offerings were comparatively small. Consequently prices advanced uninterrupted-ly. The strength of cash wheat at Minneap-olis was a factor contributing to the upturn. For December the highest point of the day was reached at 86%c. The market closed strong with December \$6%c higher, at 86%s

86%c. Wet weather in the West was the main for warket. December dosed he higher at 44%c. December oats closed higher higher, at 28%c. Liquidation of October lard and ribe had a swakening influence on the provisions market.

At the close January purk was off Sc. lard was

down 567%c, and ribs	were 25	6c lower

STARTS FRESH BUYING OF STOCKS AT NEW YORK.

Lines Are Later Sold Out When Call Loan Rates Recover, Coalers a Feature.

f loanable funds, which appeared in the call loan market this morning, started the professional operators to buyton stocks. The rate for call leans recovered later in the day and stocks bought earlier were sold out. The result was a considerable increase in the activity in the market over that of yesterday and on several preceding days.

The large supply of funds early in the day

at 5 per cent was offered by hankers closely connected with the flotation of the Japanese joun. This led to the inference that the pro-ceeds of the subscriptions paid on Monday were being replaced in the money market. When this supply had been absorbed, rates rose again to near the prevailing rate of yesterday. Sterling exchange rose vigorously and the supposition that preparations for the re-mittance of the Japanese funds were a factor in the exchange market caused a feeling of district of the easing effect caused by the plesing of these funds in call loans, which

presumably would be only temporary.

Reports were current also of maturities falling due on very large sterling loans which had New York Cetten Market,

NEW TORK, Oct. 17.—Cotton futures closed strength of the exchange market. Cotton and grain bills continued scarce in the market steady at an advance of 2 points to a decline of 4 points. October, 9.35c; November, 6.4c; December, 9.55c; November, point. Gold was marked up further in the running, p. 175c; March, 9.82c; April, 9.88c; May, 204c.

Sterling evchange recovered a fraction at Paris, but continued downward at Berlin, the discount rate at the latter point, however, yielding a shade. Heavy retrenchment was shown by the Imperial Bank of Germany's weekly statement. Rates for time money in New York were strong and the bid for 60-day loans was advanced to 5% per cent, with the asking rate at 5% per cent. There were no further transfers of currency to the South through the subtreasury, while from San Francirco there were additional large receipts

through that institution.

During the upward movement of prices, the coalers continued conspicuous and the highpriced members of the group made new high records. Beyond the general prosperity in that industry there was no news to explain the movement. The meeting being held in this city of organizations in the steel trade to consider advances in the prices of different lines of finished products gave a firm tone to the steel industrials. The Republic Steel stocks were helped in addition by gossip regarding the probable dividend action at temograw's meeting. The announcements of the entry of United States Steel and General Electric inerests into the American Locomotive direct erate was taken to explain the previous advance in that stock. The coming meeting of the Amalgamated Copper directors for action on the dividend gave occasion for a speculative morement in that stock. The day's net move-ment was inconclusive and the closing tone was every and at small loses as a rule.

Honds were irregular. Total sales, par value, \$3,000,000. United States 2 and the new 4s registered declined is and the new 4s coopen advanced is per cent on call. CLOSING STOCK QUOTATIONS,

steady call in the wool market for grades that are most wanted by the manufacturers of woolens. Meantime the worsted mills cannot be said to have retired from the market. Prices Closing Sales, High, Low, 81d, 230 r 37,800 80% 85 85% Adams Express

CARS ROLL DOWN A BANK

Many Passengers Injured in Train-Wreck in Wyoming.

CHEYENNE, Wyo., Oct. 17 .- Thirtyfour persons were injured, three pernaps fatally, in an accident to the northbound passenger train on the Cheyenne & Northern Railroad, a Colorado & Southern branch line, at 10:30 A. M. today, near Horse Creek, 35 miles north of Cheyenne. The train was rounding a curve when the .moker and day coach left the ralls and rolled down the embankment, a distance of 29 feet The locomotive and baggage car and passed over the weak spot in the track in eafety. Many of the unfortunate passengers were planed under feats and in the wreckage and their cries

were pitiful. The most seriously injured are: Miss Clara Hinsky, back injured and prob-ably a fracture of the skull; George Woodbury, St. George, Utah, laborer, injured internally; J. P. Burns, Chey-enne & Northern Railroad, injured internally and in back and side: J. T. Towery, of Cheyenne, United States livestock inspector, back and shoul-

ders badly bruised, Those seriously injured were brought to Cheyenne on a special train and were taken to St. Joins Hospital this afternoon. There were less than 50 them escaped unburt. Many of the injured were Greek Inborers, who were in the smoking car.
