ART ADMIRERS

Women Who Paid \$1 to Join the Japanese Society Charge Bunco.

GET GOODS OF NO VALUE

Yumeto Kushibiki, Japanese Commissioner, Steps to the Front With Promise to Make All' Deficiencies Good.

The war with Russia was child's play to Japan compared with the hostilities which the women of Portland have openly declared against the promoters of the Society of Japanese Art Admir-ers, for those who joined at \$1 per and did not receive the \$1300 and \$500 presents at the drawing are making it warm for the little brown men in the Oriental building at the Exposition

Fake is the cry from all who drew Fike is the cry from all who drew trilles, and the cry is so loud that those who got articles of value are not heard at all. There is no doubt that some good things were distributed, and there is also no doubt that some very cheap things were given out.

The value of the latter is a question of dispute between the Portland women and the Japanese merchants, and to settle all misunderstanding on this point the Japanese commissioner, Yumeio Kushibiki, states that he will personally adjust all differences between the Japanese exhibitors and the Porthand members of the society. This will a charge of vagrancy, but back of the in all probability quiet the miniature charge there rests accusations which war, but yesterday the American forces were very active and there was sharp firing along the lines.

Indorsed by Wakefield.

When the excibitors from Japan formulated the idea of the Society of Jap-anese Art Admirers, they asked their commissioner to obtain permission from the Exposition officials to sell memberships at \$1 each, guaranteeing last night, are: A saloon at First and to give members souventrs valued all Madison streets, owned by R. McCloud, the way from \$1 to \$1000. This permis- in which he is said to have broken A. Warkeneld, director of concessions works, 625 Hood Street, from which so and admissions, convinced the doubtful that everything would be all right, and Mrs. I. Frohman, Woodard, Clarke & Co., and several others accommodated those interested by taking books of Columbia Beer Hall, at Pront and Co-

el Takata

and selling memberships. There was

nothing in it for the merchants, as has been strongly intimated by the irate

victims of the so-called fake drawing, as they sold the tickets in good faith on the strength of the Wakefield letter,

and now that the cry of fraud has been raised by so many members they are

very indignant Both Mrs. Frohman and

they got out of the transaction was

loss of business, as the Japanese auction and the certificate-holders' hopes

of drawing presents of value has kept

None of these firms knew anything nore about the society and the articles a be drawn than the purchasers of cer-

tificates, and that they should suffer

both loss of business and the indignity of accusations connecting them with the

edard, Clarke & Co. state that all

away from their shops.

many of the women opening their packages, and was most indignant at the class of articles which had been palmed off on them as worth a dollar and more. A large number of the Hobart-Curtis guests were "bitten," although one valuable prize went to a guest of that house. The Japanese merchants say that the other side of the story is not told, and give the following names, taken at random from the books, as winners of valuable prizes:

names, taken at random from the books, as winners of valuable prizes:
Screen, value \$1000, Antoinette Walden, Oregon City; cabinet (\$150), Miss Mame Watson, 236 East Couch street; bronze Okimono (\$250), P. L. Brown, Hobart-Curtis; bronze Mizugama (\$80), H. D. Kilham, 256 Washington street; embroidery work (\$15), Tambara, Seventh and Couch streets; tea set (\$60), H. H. Parker, 424 Chamber of Commerce; screen (\$60), Mr. Natsume of Commerce; screen (\$60), Mr. Natsume, Park street, San Francisco; embroidery (\$50), Grace De Graff, \$451/5 Sixth street; vase (\$40), F. C. Aterson, 765 East Main street; cloisonne vase (\$60), Mrs. Ida Ross, 514 Market street. 514 Market street.
Miss Walden, of Oregon City, who is

said to have won the thousand dollar screen, could not be located by the Ore sorian correspondent last night. The screen was on exhibition in the Oriental building before the drawing and was covered by many, but it is claimed by one in a position to learn inside facts that this same thousand dollar screen was appraised by its owners at \$365 when it passed through the custom house. custom officials would not affirm this as the treasury does not allow such information to be given out. But oven at EaS Miss Walden surely "got her money's worth" and can have no complaint.

Kushibiki Will Make Good.

oner Kushibiki insists that all who are not satisfied with their drawrow outside the Exposition gates as he is determined to have all transactions between the Japanese merchants and the American public amicably adjusted. He took up the matter with the Japanese Consul yesterday, and both have decided that Japan shall be cleared of any asper-sions which have been cast upon her by this affair.

SUSPECTED OF ROBBERIES

Young Man Charged With Looting Saloons and Telephones.

Jake Davis, a young man 21 years old, in held at police headquarters on may land the young man in the penitentiary. Davis is thought to be the young man who has robbed a number of saloons and telephone boxes since

last Friday night. Robberies accredited to him by Detectives Carpenter and Resing, who arrested him in a First-street saloon last night, are: A sulcon at First and

SURVEYORS WORK ON COOS BAY LINE

Construction Work Will Soon Begin on Oregon Western Railroad.

ENGINEERS IN THE FIELD

Eighty-One Miles of Road Will Cost \$3,590,000 - Ten Thousand Tons of Rails Are Already Ordered.

Southern Pacific engineers, under the lirection of Chief Engineer Hood, of

rection of the San Francisco offices, but from what is known it is assured that the actual building operations will be commenced as soon as the engineer-ing corps can finish its work and get out of the way.

EASY GRADE IS FOUND.

Drain - Marshfield Surveyors Are Near to Tidewater.

DRAIN, Or., Oct. 25.—(Special.)—The surveying crew which began work here about August 1 on the proposed Drain-Marshfield railroad line is now within a few miles of Scottsburg, at which place the survey reaches tidewater. A very casy grade has been found thus far. Right-of-Way Agent J. W. Nier, who has been on the ground for the past two months, has secured the right of way for a considerable portion of the distance surveyed and is paying cash for the same. Actual construction work has not yet Actual construction work has not yet begun, but is expected to soon and cer-tainly will not be deferred longer than early the coming Spring.

SMALLPOX CASE AT LENTS

Developed Monday, but Health Offi

cer Not Informed Promptly. Dudley Evans, County Health Office was somewhat perturbed yesterday when he ascertained that a case of direction of Chief Engineer Hood, of smallpox at Lents had existed since San Francisco, are busy at work sur- Monday, to which his attention had not

........... SOCIETY OF JAPANESE ART ADMIRERS

Statement issued by Yumeto Kushibiki, Japanese Commissioner to the Lewis and Clark Exposition, regarding the drawing by the Society of Japanese Art Admirers.

The dissatisfaction which has been expressed about some of the articles which were drawn by holders of certificates in the Society of Japanese Art Admirers is most distressing to me, and I will take the personal reponsibility of guaranteeing every member the full value of the dollar which was paid in. I am not in any way connected with the drawing or the society, but as Commissioner from the country which these exhibitors represent I asked permission of the Exposition authorities to allow this drawing to take place, being assured by the parties interested that everything would be conducted on strictly honorable lines.

The manner in which the drawing was conducted does not seem to have been criticised, but those who drew the small prizes are saying they did not receive their dollar's worth. To prove to the citizens of Portland and the United States that there is no attempted fraud about this matter I will myself undertake to give every purchaser of certificates entire satisfaction as to the value of the presents drawn by them. It will be impossible to give each member the exact article desired, but I am determined that all shall be satisfied as to getting their money's worth. To this end I will be present at the Japanese tea house under the Fairmount Hotel, near the Exposition gates, this evening at 7:30 o'clock, and hose who believe that their presents are not worth a dollar or more can have the privilege of exchanging them for others. I will have four American gentlemen to assist me so there will be no difficulty of a clear understanding, and will compel the merchants who originated the society and furnished the presents to give entire satisfaction to the American

I wish to particularly emphasize the fact that I am not connected with this enterprise, financially or otherwise, but as Japanese Commissioner wish to see every transaction by my countrymen entirely satisfactory. If these matters cannot be adjusted this evening, I will continue emorrow and next day until all matters are straightened out.

YUMETO KUSHIBIKI.

veying for the line of the Oregon Western Rallroad, to be built from Drain to Marshfield, the Coos Bay line, and if the control of the particular of the par their efforts are not hampered by too much adverse weather conditions and natural obstacles the actual construc-tion work will be commenced in a short time.

Large forces of engineers are now in the field, surveying the grades be-tween the two terminals of the line. The road will run from Drain along Elk Creek and the Umpqua River to the Coast at Gardiner, from there along the Coast to the head of Coos Bay and around that body of water to Marsh-field. The entire distance will be about \$1 miles, and the cost of the road will

Black Bass Thrive in Oregon Streams, says H. S. Van Dusen-Idaho Jackrabbits as Big as Coyotes, says Noted Woman Hunter.

ESPITE the fact that the black to cover their stacks with fine mesh be caught at any time, they are increasing with almost marvelous rapidity," said H. G. Van Dusen, Fish have to be covered with this thickly Warden, at the Imperial Hotel yester- woven wire or the catle and sheep day afternoon. "They have spread to nearly every large stream in Oregon and the abolishment of the act which protected them by the last Legislature has had practically no effect upon them. The black bass rage havoc with schools of sulmon minnows, but from my observations I do not believe they

from his pocket and commenced cutting. Following the murder Kinta rushed to a telephone and informed Maurukami where he was going and at what times he could be found.

The first thing said by Kinta as he rushed through the gate leading to the desk of Captain Moore was: "I am Kinta, Hungry, Very hungry, I smoke," meaning by the last sentence, "may I smoke." The little fellow was so overcome with hunger and his fast run to fish. About the only persons that fish

out and caten a large string of black vast amount of reconstruction work on the Oregon lines of the Western Union can be caught by trolling, still fish-will be done next Spring, which will give

"K ANSAS, my home state, is some-what known for Jackrabbits, but a few months ago I found that the Sunflower State has to take its hat off to Idaho in this respect," said Mrs. Nellie Bennett, the champion woman shot at the Imperial Hotel yesterday after-"The jackrabbits of the Idaho plains are so big that they look more like coyotes. In some parts of the state they are so thick and have such rayenous appetites that the farmers have |

bass are not protected and can wire to keep the jackrabhits from eating all the hay. This may be hard to believe but is is nevertheless true. The hay and straw stacks near Idano Falls would have nothing to eat in the Win

ter. "I was one of a party of 20 not long ago to participate in a jackrabbit drive near Idaho Falls. We drove out from town a few miles, and, forming a line, struck off through the sagebrush. The jackrabbits were so thick that with every step we scared up hundreds of them. Sometimes we would almost step on them. I had 500 rounds of ammunition with me and I shot away all of it. We were only our two or three hours, and as nearly as we could figure, the 30

Company, on the Pacific V can be caught by trolling. Still nate that and minnows The finest kind of black hass fishing can be had within three or bass fishing can be had within three or the first of the year. This was necessitated by increased business.

"A surprisingly large number of our officials and raffrond officials graduate from the ranks of the messenger boys. said Mr. Jaynes, while sitting in the lobby of the Hotel Portland last night. Messenger boys have to be pretty bright to hold their positions, and consequently some of the biggest men of the country used to deliver messages. This is particularly true of railroad of-

"We keep a close watch upon the messenger boys we have in our employ, and whenever we see one that is industrious, ntelligent, ambitious and shows an aptitude for the work we make a telegraph operator out of him. We get nearly all of pur operators from the messenger boys, and they are the very best to be had. The school operators are had. The school operators are not, as a rule, as good as those who learn by

practical experience.
"Wireless telegraphy can be used in ransmitting messages over water, falls short when it is tried on land. I have not known of intelligible messages being sent by wireless telegraphy over more than 150 miles of land. It is prob-able that something in the atmosphere interfers with the transmission. Wire-less telegraphy is not practical as there is no secrecy to it. The current radiates in all directions from the place where it it sent, and anyone can catch the mes-sages if he happens to have the appliance and is within reach."

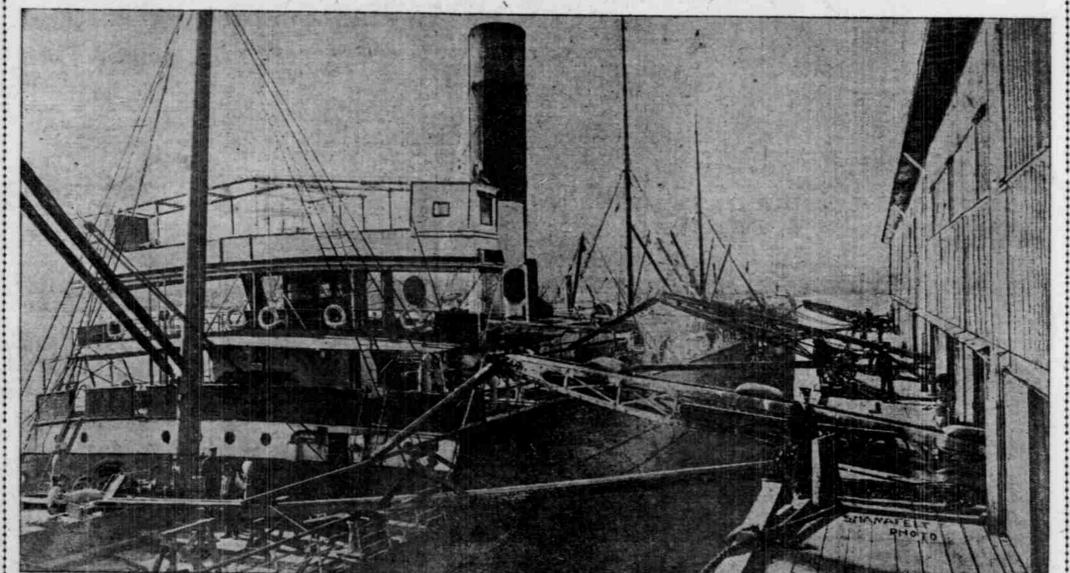

"Y visit has nothing to do with the proposed sawmill near St. Johns, and I am just down here looking after our logging interests," said G. S. Long, of Tacoma, resident agent of the Weyersaeuser Timber Company, at the Hotel Portland yesterday. 'There is nothing new to give out about the sawmill as yet. We supply the Portiand sawmills with a good deal of tim-ber cut on the Washington side of the Columbia River. This year we cut ton side, much of which will be used by the Portland mills. Maybe some day, before long, we will have a mill of our

Coolidge, of Silverton, was a A. guest at the Imperial Hotel yesterday, having just returned from a visit to his old home at Marysville, O. Mr. Coolidge left his old home 51 years ago, crossing the plains with an ox team. While a great change has been wrought in the last half century, Mr. Coolidge says he found many things that were familiar to him.

ELECTRIC CONVEYOR ADDS SPEED IN LOADING OF GRAIN VESSELS

The electric conveyor is the latest appliance to be used in the loading of grain vessels and displaces the old and slower method of heisting the sacks into the hold by means of slings where the deck of the seel is on a level with or higher than the dock. The conveyor is operated by an electric motor and the sacks of grain are taken on an endiese belt up an inclined plane and dropped on a Its one great feature is that of time-saving. The photograph was taken at Montgomery dock.

nlieged fake operations is making all of them feel decidedly at outs with art of any nationality. Mr. Wakefield, in his personal letter to Woodard, Clarke & Co., These gentlemen (R. Pokagawa, president and S. Takata secretary and treasurer of the society), have given assurance that each pur-chaser of a membership ticket in the Society of Japanese Art Admiters will receive for same Japanese goods from said Japanese ex-hibit section to at least the value of \$1, upon the basis of 20 per cent less than the usual re-tail price for such goods, and an additional reportunity of securing higher-priced goods of various values up to and including articles valued at \$1000; the distribution of these articles of various values to be by a drawing which will be had in the Japanese exhibits section. Oriental building on Monday, October 29, at 10 o'clock A. M.

It is thoroughly believed that all purchasers of these membership tickets will at least be It is these membership tickets will at least fully satisfied with the values received by them.

JOHN A. WAKEFIELD, and Admissions.

Women Cry Fake.

The principal cry of fake comes from the women, although a few men have added their bases to the anvil cherus. The Japanese say that the women kick because they did not get the kind of articles they wished, and that the matter of values is really not at the bottom of the trouble. "If a lady wants a kimono and draws a piece of ivory or lacquer work, I cannot help that," said one of them. "Now here is a watch charm which a lady brought back saying it was not worth 10 cents look at it closely worth 10 cents-look at it closely It is solid silver and carved by hand, and the actual value of it is \$1.75. If it had been an article of that same value which she happened to want she doubtless would have been entirely satisfied, but you know that in a drawing it is impos sible to give each a choice and they must take what they draw."

These are some of the articles which

members have reported drawing to the merchants who sold certificates: School companions (pencil cases), small flags worth about 5 cents each; cardcases valued from 10 cents to 50 cents; small lac-quer trays; set of dollies; child's toy furniture; cups and saucers; small whistle; sliver watch fob, etc. One young man who held ten tickets drew a sliver thimble, lacquer inkstand, two cloisonne vases, leather cigar case, cardease, cut-velvet pillow cover, billbook, etc. He states that the vases were worth the \$10 his tickets cost, so he is not out anything, but other-wise he would have joined the knockers. Mrs. W. W Cotton states that she drew a lacquer tray which had the original sale price still marked on it-65 cents. Mrs. Wesley Ladd says she holds tickets but has not been able to get near the drawing on account of the crowds. She watched
