NEW TORE, Oct. 2. The interest white off at an active pace today, but the first hour of trading absorbed the buik of the day's business and thereafter there was a notable shrinkage in the volume of transactions until shrinkage in the volume of transactions until just before the closing, which was weak. The activity of the first hour was closed by a contest between conficting forces. There was large selling for foreign account and the market was plainly under the continued influence of the depression manifest at the close yesterday. Support was forthcoming. but it required quite large buying to sustain values against the celling pressure. When the decline was arrested, prices crept up again and for a long time hung practically suspended about last night's closing level. uable Aid Given to Exposition. OREGONIAN NEWS BUREAU, Washington, Oct. 27.-Assistant Secretary of the Treasury H. A. Taylor, chairman of the freasury H. A. rayor, chairman of the Government board of the Lewis and Clark Exposition, has just received a letter from H. W. Goode, president of the Exposition Company, which is very complimentary to the Government exhibit and to those having it in charge. Mr. Goode says:

I wish to take this means of giving expression to the gratitude which is felt by myself and the entire directorate of this Exposition and every citizen of this coun-iry for the magnificent exhibits which were provided by the various departments of the United States Government. Withour Fed-

provided by the carbon departments of the United States Government. Without Fed-eral participation it is realized that the Ex-position could not have attained the great success achieved. I am indebted to you and your associates for their courtesy and their generous co-operation at all times. I realize that your work was arduous, and B has been well performed. It seems to me, so far as I was able to judge of the Government's methods, that the best possible showing was made and the very best use was made of the appropria-tions. The energy with which govern-mental functions and resources were pre-sented, both as to animate and inanimate exhibits, constituted a revelation to many people of this country and was of untold benefit in an educative sense.

Kersbaw Didn't Steal Wheat.

343

PENDLETON, Or., Oct. 27.-(Special)-H. B. Kershaw, of Walla Walla, was ac-quitted today in the Circuit Court of the charge of inreeny of 1200 bushels of wheat in 1898. The prosecuting witness, G. A. Hartman, stored the grain in the Hillside Warehouse, which at the time was owned by the Kershaw Grain Company, of Ta-coma. The wheat was shipped away, it was alleged without the consent of the owner, and H. B. Kershaw, who was in charge of the company's warehouses on the W. & C. R. Rallway system was held responsible for the disappearance of the grain. The case had been pending six years.
