Uprising Designed to Influence Senate Against Ratifying Treaty Is Aimed at Morales and American Control.

WASHINGTON, Nov. 8,-A revolution ary movement has developed in Santo Domingo and an uprising is threatened. News to this effect has reached the Government here, and the proper steps are being taken by the Navy Department at the instance of the State Department to

maintain the peace.

News of this uprising, the first in many months, or indeed since Morales installed American customs collectors at the island ports, came to the State De-partment last night from one of its representatives in Santo. The news was immediately communicated to the Navy Department and an order was dispatched by cable to Rear-Admiral Bradford, who is at Guantanamo, Cuba, to send a warship at once to the scene of the trouble. A ship can be sent to Macoris in half a day.

Unofficial advices had reached here be fore this news came, to the effect that there was danger of an uprising in the island, but November 20 was the date fixed for the attack. Nothing is known definitely as to the cause of this outbreak, but it is said here that the leaders waukee & St. Paul Railway, passed were financed from New York with a through Omaha Wednesday afternoon on purpose of stirring up strife just in sea-son to adversely influence action in the United States Senate on the pending

The problem is one which strongly attracts the sympathetic attention of this Government.
