FIGHT AGAINST MERIT SYSTEM

!t Will Begin at Tonight's Session of the School Board.

PLAN IS TO ABOLISH IT

Resolution Will Be Introduced Increasing the Pay of the Teachers From the Beginning of the Present Term.

At the meeting of the School Board to night the "merit system," so-called, will up for consideration and in its stead will be presented a resolution increasing the pay of teachers upon a scale conformity with the desires of the tax-yers' meeting last December, which voted \$30,000 for this purpose. Of the sum appropriated, \$20,000 has already been devoted to the increase of pay of some of teachers, and at tonight's session of the board it is the calculation to expend the remainder in practically the same

The resolution, which will be supported by Directors Beach and Fleischner and Mrs. Sitton, the chairman, will provide for the payment of \$10 a month additional from the beginning of the present term to all principals in the department; \$5 a month to each teacher in the High School, and \$5 a month extra for every grade teacher possessing a life certifi-cate who has taught six years or more. In each case the increase will relate back

in each case the increase win relate back to the beginning of the term, so that at the end the 260 teachers that will likely be affected by its provisions will share in the division of approximately \$10,000.

Director Wittenberg is said to be about the only member of the board who still adheres to the merit plan, although Di-rector Richard Williams is said to have slight leaning in that direction. It is lieved, however, that Mr. Williams may be enlisted to the support of the resol which it is proposed shall put the it system out of business tonight. He merit system out of business tonight. He is said to be wavering, and the other side hinks it has taken him into its comp.

How Teachers Would Fare.

It is claimed that upon the basis of the proposed increase the teachers will fare just as well, if not better, than they otherwise would had the idea gone into effect at the opening of the term, as the money will come to them in a lump sum and practically unexpected, as they had

City Superintendent Rigler stated yesterday that the committee composed of himself, Professor T. T. Davis, principal of the High School and Principals J. Burnham, of Couch and J. T. Gregg, of the Hawthorne School, were prepared to report on the merit system tonight if called upon. Ever since their appointment on this committee they have been devoting a great deal of time to a proper analysis of each teacher's claims for consideration, so that, in all probability. the data gathered by them will be ap plied to the new order of things, even i

Director H. Wittenberg, the author of the merit system, who returned Saturday from an extended Eastern trip, is emphatic in his determination to defend the measure. He talked upon the subject storday and while confessing that his pian had received numerous hard knocks, was not ready to admit that it would go down to utter defeat at the meeting of

Director Wittenberg's Statement. "A few disgruntled teachers who work

a short time for pin-money are the only ones opposed to it," said Mr. Wittenberg. "You don't see any of those who intend to make teaching a life profession object-ing to its ideas, and I understand that at the meeting of the board tomorrow night a petition by practically all the principals in the city schools will be presented indoming the merit system and asking that it be put into effect. Superintendent Righer will introduce the petition at the proper moment and pecole must not run proper moment, and people must not run away with the idea that the merit system is a dead issue when it can summon to support such a representative class. "Director Fleischner is at heart, I believe, in favor of it, but for reasons of his own puts himself on record as being opposed, and is now beginning to realize his mistake. Director Williams is all of the state mistake. Director Williams is all right, and while he was on the fence for awhile, the petition that was got up by the prin-

the petition that was got up by the principals won him over to our side, and I believe Fleischner will follow suit."

Both Mrs. L. W. Sitton, chairman of the School Board, and Director I. N. Fleischner announced in unmistakeable terms last night their hostility to the merit system and that they would vote against it at the meeting this evening.

Interviews with a number of the grade beachers indicate that they are overbachers indicate that they are over-whelmingly opposed to the merit system. When told what Director Wittenberg had said about the opposition coming from a few of the disgruntled ones, who were teaching for the sake of earning a little pin-money, one of the most prominently identified with the local schools became highly indignant and pronounced Mr. Wittenberg's assertion the limit for ridic-

"Why," said she, her snapping eyes keeping time to the rhythm of her voice, "there isn't half a dozen grade teachers in the city schools who are in favor of the merit system, and Mr. Wittenberg knows he is mistaken when he says that the opposition comes from the younger teachers. The movement against the proposition originated among some of the older teachers, and they were the most active in arousing public sentiment against it. Neither can I understand why the principals have indorsed it, and they must have signed the petition for the purpose of currying favor with Mr. Wit tenberg, as I know that down in their hearts they are as dead set against it as the rest of us."

From the looks of things the meeting of the School Board this evening gives every promise of being an interesting session.

Chicago's Electrical Exposition.

CHICAGO, Nov. 12.—From the present authors the electrical exposition to be seld here in January promises to suruse anything of the kind ever afrem n this country. The exposition will be seld in the Coliseum, whace 38,000 square feet are available for the display of the various exhibitions. Application has al-ready been received calling for more than the building affords.

Many of the leading schools and col-

eges throughout the country will make
