Stubborn Senatorial Deadlock in Kentucky Legislature.

BECKHAM IS IN HIGH HOPES

Should Judge Paynter Withdraw, the Present Governor Says There Will Be a Stampede to Him

FRANKFORT, Ky., Dec. \$1.-With the Democratic Senate and House caucuses only 24 hours away, Governor J. C. W. Backham is being frequently mentioned Backham is being frequently mentioned as the man whose nomination would settle what promises to be one of the most memorable and stubborn Senatorial deadlocks in the history of Kentucky. During the pass 24 hours the situation has changed but little, there being no perceptible variation in the strength of United States Senator J. C. S. Blackburn and Thomas H. Paynter, the leaders, nor ceptible variation in the strength of United States Senator J. C. S. Blackburn and Thomas H. Paynter, the leaders, nor of B. W. Haldeman, the man who, with the smallest number of votes, apparently holds the key to the situation.

The Haldeman men are apparently standing firm. Both sides are still claiming sufficient strength to nominate Speaker of the House, but as the Black-burn and Haldeman forces have appar. ently combined to organize the House the poll of their announced supporter seems numerically the stronger. How ever, the Speakership is complicated by the fact that some of the legislators are not following the lines of division which prevail in the Senatorial fight.

At the time of the adjournment the onfirmation of the Panama Canal Comnissioners had been reconsidered and he nomination of J. B. Bishop as a new commissioner had just been made. The nominations had all been referred to the committee on inter-oceanic canals, and it is expected that farly reports will be made, in order that the Senate may take them up. There are some other minor nominations in controver-sy, notably two officers who have been detailed as chiefs of bureaus in the War Department and a legal question has been raised as to the meaning of the law providing for such details. Some bther nominations have been held up, and the Senate may devote all its

time this week to executive business. Even if nominations are not to be considered the new developments in Santo Domingo will afford opportunity to discuss the treaty informally. At present the treaty is not before the Senate, having a second time been re-ferred to the committee on foreign re-lations. It is expected that it will be amended in several particulars before it again comes before the Senate. As if in anticipation of the flight of

Morales and the establishment of another government in Santo Domingo, the State Department had recommended that the treaty be amended so that it would confer authority upon the United States to deal with existing government conditions in the island. Possibly the situation may be discussed in the Senate even before the treaty is re-

The first is the ever sions to Police Chief Adams today, in which they admit the shooting of Frank L. Scott, a prominent business man, December 20. They are now confined in the county jail, and in view of frequent threats to lynch the prisoners, Sheriff Grimes has placed a large force of armed deputies in the jail and announced his determination to protect the prisoners at all hazards.

Essick said they intended to hold the first man they saw going to the depot and rob him. When they saw Scott with a grip in each hand they told him to halt. Essick held the revolver and in so doing gripped the gun so hard that it went off, the bullet striking Scott in the back. Scott died several days afterward.
