Sixteen Persons Die Through but since he resigned that office and was pointed special assistant to the Attor ney-General he has planned to conduc this case for the Government, and has been priming for several weeks past. He is ready to go ahead today, and would be glad to if opportunity were afforded.

It is believed Hermann will not stand trial mooner than he is obliged to. He was asked many weeks ago if he would be ready for trial in February, but he has never made any answer to the Government, offering one excuse and another for withholding his reply. His present illness is a legitimate excuse and the Government does not expecto try him before the middle of next month, and in all probability he will have recovered before then. His illness is not said to be dangerous.

#### Hermann Wants More Delay.

Those who know Hermann believe e will decline trial on the ground that it is necessary for him to take his sent in Congress and look after the inson he assigned for coming to Wash-

# CORONER SOLVES MYSTERY

Hiller Cleared of Suspicion and Freed\_Remarkable Story of How Capitalist Hid Evidence After Taking Dose.

NEW HAVEN, Conn., Jan. 8.-Suicide by means of both bullet and poison is the explanation given by Coroner Mix for the death of Charles Edwards, of New York City, at the Abigail Hiller home stead, here on Tuesday night last. This finding is contained in a preliminary report to State Attorney Williams, and is based in part on the discovery of mor-phine in the body of Mr. Edwards by Medical Examiner Bartlett and the sur ns who performed the autopsy. The inding is supported by some portions of the evidence taken at the inquest, which extended through five days, and which is

not yet completed.

The preliminary report is made at this time to relieve public suspense, and the Coroner adds that Mr. Edwards' death probably was one of the most remarkable on record. The theory of suicide appears not to have been held by the Coroner antil Saturday when detectives unearthed in the shrubbery near the Hiller house a 23-callber revolver and a half-plat bottle that time, and in absence of a report on the chemical analysis of the viscera, the weight of evidence taken by Mix was that

Mr. Edwards had been murdered The first action taken by the Coroner today after reaching a conclusion was to order the release from surveillance of A Maxcy limer, brother-in-law of Mr. Ed wards, who, on Thursday evening last, was placed in charge of a police officer.

Coroner's Story of Death. The Coroner's brief report does not di pel the mystery in the death of Mr. Ed-wards, and until the complete indings are read, probably no public solution can be found as to why Mr. Edwards, as the Coroner describes his action, "at 2 o'clock on Wednesday morning last committed suicide in his underclothes; left his cham and descended to the basement; lighted the gas, unbolted and opened the rear or, twice discharged a revolver at him self, one builet going into the car; then, failing to kill himself, threw the weapor away, drank laudanum and tossed the hot tle after the pistol, and, with blood flow-ing from a wound in the head, dragged mself back to his chamber, got into bed, drew the bedelothes over his shoulders, and, after placing a handkerchief under his head to staunch the flow of blood. lapsed into unconsciousness, death coming six hours later.'

## Evidence Proving Suicide.

The Coroner, in discussing his findings,

The laudanum and revolver were found into days ago 20 feet from the rear of the dining-room. Just a good throw from the back door. They were in the name direction from the house. The laudanum was in a half-clut bottle, in which an inch of fluid remained. Another revolver was found, but its chambers were filled with dust and it, had not been discharged recently. The hand-

How frequently does a head line similar to the above greet us in the newspapers. The rush, push and strenuousness of the American people has a strong tendency to lead up to valvular and other affections of the heart, attended by irregular action, paipitation, dizziness, smothered sensations and other distress.

which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on Materia Medica for the cure of just such cases. Golden Seal root, for instance, is said by the United Strates Dispensatory, a standard authority, "to impart tone and increased power to the heart's action." Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly comtonic for the muscular system wholly com-and as the heart is almost wholly com-posed of muscular tissue, it naturally follows that it must be greatly strength-this speech general tonic. But

follows that it must be greatly strengthened by this superb, general tonic. But probably the most important ingredient of "Golden Medical Discovery," so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stone root, or Collinsonia Can., Prof. Wm. Paine, author of Paine's Epitomy of Medicine, says of it:

"I, not leng since, had a patient who was so much oppressed with valvular disease of the heart that his friends were obliged carry him up-stairs. He, however, gradually recovered under the influence of Collinsonia (medicinal principle extracted from Sto., a root), and is now attending to his business. Heretofore physicians knew of no remely for the removal of so distressing and so dangerous a malasty. With them it was all guess-work, and it fearfully warned the afflicted that death was near at hand. Collinsonia unquestionably affords relief in such cases, and in most instances effects a cure."

Stone root is also recommended by Drs.
