IS NORTH COAST

Statement in Chicago That He Hides Behind Mysterious Road.

GOULD IS NOT INTERESTED

Northwestern Will Be the Ostensible Builder of Railroad to Scattle. Big Purchase of Tideland Confirms Belief.

CHICAGO, Jan. 9 .- (Special.) - There has been much surmise in the railroad world as to which railroad is back of the North Const Railroad, which recently secured franchise into Scattle. When the Council of Scattle was asked three weeks ago to grant a franchise to this railroad, the statement was made by James A. Kerr, its attorney, that a strong transcontinen-tal line was behind it, and that the name of this road would be made public in a

Harriman in Background.

Today it was stated authoritatively by cific is behind the project. It was said, however, that the Union Pacific will not appear in the matter at first, but probably the Northwestern will be as the road that is building this extension, and only after it is built and in op-eration will the Union Pacific take it

The North Coast has a franchise from outheast of Walla Walla through North Vakima to Scattle, and it lies in a good position to connect with the new were extension of the Northwestern, which position to connect with the new western extension of the Northwestern, which is now building. What strengthens the statement that it is a Northwestern-Union Pacific project is the fact that the St. Paul has recently announced its decision to extend to Seattle.

Not a Gould Project.

Since the franchise was granted, every effort has been made to discover which of the transcontinental roads was seeking entrance to Scattle. The belief bewas a project of the Goulds and was in tended simply as a North Coast exten-sion, as the Western Pacific is a South Coast extension. Whenever this belief has been suggested to a Gould representative, it has been met with unqualified de-nial. One of Mr. Gould's closest lieuten-anis said today that the Gould interests are not interested in any North Pacific Coast extension at present and that their hands are full with the projects already

LOOKS LIKE HARRIMAN DEAL

Large Purchase of Scattle Tideland Traced to Schiff.

SEATTLE, Wash., Jan. &-A prominen real estate firm of Seattle has taket on Scattle tidelands approximat-\$1,500,000. These lands are close to holdings of the St. Paul Rallroad and have been purchased for Joseph Hal-len and Frederick Kulckerbocker, of New York, who arrived in the city or Saturday with letters to F. K. Struve, Jr., member of Davis & Co. The in question does all the business in attle for the German Savings & Loan Company, of San Francisco, in which one of the largest stockholders is Jacob H. Schiff, of New York, one of the Harriman

is the news from New York that Harri-man will parallel the Northern Pacific to Puget Sound. These well-defined rumors in real estate circles point to Harriman as the man behind Hallen and Knicker-bocker. The land on which these options have been taken is ideally located for railroad terminals fronting on the east waterway, which would give a railroad

excellent shipping facilities.

When it became known that the firm was after three full blocks on the tidelands, values jumped skyward, and before the full amount of ground could be tied up the firm had to pay prices that were almost prohibitive. In some instances prices went as high as \$27,000 per lot Ten days ago these lots could have been purchased for \$4000.

. WANTS NO LINE TO ATLANTIC

Hill Says His Traffic Business Ends

at Chicago. CHICAGO, Jan. 2.—(Special.)—James J. Hill, president of the Great Northern Railway, held a long conference with officials of the Chicago, Burlington & Quincy Railroad in Chicago today. He made an absolute denial of all stories that he desired connection with the Atlantic tidewater for his road, and went at length into the reasons why he would never need a road between Chicago and

never need a road between Chicago and any Eastern port. He said: Nineteen out of every 20 carloads coming over thees from the Northwest change own-ers at Chicago. We are through with the consignments at the time the owners are. What do we want with any Atlantic read? Our em is between the Pacific Coast and go. That is all there is to the stories of our going after an Eastern line.

REVOLT AGAINST CANNON

(Continued From Page L) today. The speeches were uniformly against the measure and were allowed to go. in general, without answer. Digression in the form of tariff revision discussion was made in a brief speech by Gillette, of Massachusetts, who favored Canadian reciprocity. Bonynge, of Colorado, discussed tite bill from the standpoint of the beet-

Burgess, of Texas, opposed it on constitutional grounds, and had a lively colloquy with the minority leader. Williams, on this point. He charged that Democrats, to be consistent that Democrats, to be consistent should oppose anything but free trade with the Philippines, on the ground that it was an American possession Williams defended the minority position by stating that he was supporting this bill, because it was as near free trade as it was possible to obtain from the majority. The issue was drawn sharply between the two memdrawn sharply between the two mem-bers of the minority and furnished the interesting situation of the day.

Tobacco-Growers Object.

Cassell, of Pennsylvania, spoke in opposition, in behalf of the tobacco-raisers of his district, and Henry, of

we can cut loose from the pestiferous

His Leader Rebukes Him. Williams, the minority leader, intergree with me that, whatever the Philippines ought to be, they are at the present time colonies of the United

"I did not create existing conditions and I will not recognize them," replied

A colloquy ensued between the mi-nority leader and Burgess, in which Williams was put on the defense of his position on the bill. Burgess wanted to know if Williams believed the Constitution extended to the Philippines Williams recognized that the preme Court had extended it there. "Then how could Williams vote for this bill, which levied duties against a part of the United States?" inquired

Williams explained that the minor ity substitute for the bill provided free trade. Knowing that it was impossible to get that, he should vote for the Republican reduction.

Burgess.

Burgess regarded any tariff between the United States and the Philippines as unconstitutional, and said he should vote against the bill. He suggested that, if the Democrats would join forces with the Republican opponents of the bill, it would be defeated. This was preferring grand larceny to petit larceny, according to Williams, because to defeat the bill would be to

leave the present higher schedule in Appeal to Insurgents.

Clark of Missouri appealed to the Republican recalcitrants to join the Democrats and pass a measure "to turn these islands loose-cut loose forever from them."

Burgess had read a resolution for

the establishment of a free govern-ment in the Philippines, which he ad-vocated. Turning his attention to the expansion of the office of the Executive," he said the constitution made no mention of Cabinet officers—they were mere clerks to the Presidenthence an "administration" measure of policy ought to have no weight with the American people. For this reason spoke at length in support of his prop-

Massachusetts Men Disagree.

Gillette of Massachusetts replied to the speech of Sullivan yesterday. which Massachusetts Republicans were criticized. He did not believe the tariff schedules were sacred, but con-tented himself with abiding by th action of the Republican majority. An swering a question by Sullivan, Gillette said he favored free hides and free coal. He was doubtful about free lumber and free wood pulp.
The gentleman stands exactly on

Democratic platform," asserted Sullivan should follow the action of the Republican majority in the House on the tar-iff. He favored free trade with Canada. That cordiality might be devel-oped in that direction, he favored Canadian reciprocity.

SENATE WILL INVESTIGATE.

Committee to Take Evidence on Work on Panama Canal.

WASHINGTON, Jan. 2,-All matters relating to the Panama Canal and the government of the Canal Zone and the man agement of the Panama railroad will be investigated by the Senate committee on intersecanic canals. This was decided to-day at the first meeting of the com-

day next, although there may be a specia meeting in the interim to take up the nominations of Canal Commissioners. When the committee was called to order there were present Benators Millard, chairman; Kittredge, Hopkins, Knox, Morgan, Tallaferro and Gorman. The ominations of commissioners were taken s and the fact that it had been intimated that it might be desired to have hearings in regard to one or more of them, they were laid over for the pres-

The formation of a programme in regard to canal affairs was then considered. All members of the committee agreed that there should be an inquiry, and the scope was considered at length. There seemed to be a sentiment in favor of reviewing the work of the Canal Commis-sion from its inception. Senator German drafted a resolution for introduction in the Senate by Chairman Millard, giving the committee authority to engage in such an inquiry. It was informally agreed that the question of salaries should be one of the questions considered.

INQUIRY INTO CANAL AFFAIRS

Senate Adopts Two Resolutions Putting Committees to Work.

WASHINGTON, Jan. 9 .- The Senate today adopted two resolutions of in-quiry. One of them authorizes an inquiry. One of them authorizes an investigation by the committee on interoceanic canals into the general conduct of the affairs of the Panama Canal, and the other an inquiry by the finance committee into the question of the exchange rate on money on the 1sthmus. The first resolution was reported from the canal committee by its chair-man, Millard, and the second is the resolution presented yesterday by Bailey, with the provision relative to the sale of Panama Hallway bonds

Simmons presented a resolution asking the President to send to the Senate the names of all officers, agents and other employes of the Panama Canal whose salaries are more than \$2000,

whose salaries are more than \$2000, giving the amount paid to each.

The remainder of the open session was devoted to a speech by Morgan on the railroad rate question. He advocated the settlement of all differences over rates in the courts according to common law methods, as calculated to do away with much awkward machinery.

Drydock Makes Good Progress.

WASHINGTON, Jan. 3.-News from the drydock Dewey reached the Navy De-partment in a wireless communication from Commander Halsey, commanding the Des Motnes off Culebra, which he had intercepted from the United States ship Glacier. The message said that the Potomac, which put into Bermuda, had joined the fleet, which was making about

three knots an hour.

The following cable has been received at the Navy Department from Rear-Admi-ral Dunlap, commandant of the naval station at San Juan, Porto Rico: '8 A. M., Monday, received at station, to Washington: Squadron together; latitude M.O. longitude, 64.15; course, east; speed, three knots. Halsey reports fine weather."

This cablegram refers to the drydock Dewey expedition, which, it is estimated, has made a distance of about 750 miles. The report is regarded at the Navy Department as very encouraging.

Young's Reprimend Is Mild.

raisers of his district, and Henry, of Connecticut, took the same position for his constituents. Goulden, of New York, closed the debate for the day with a brief reference to the need of taking the protection of the Dingley rates from the "glant trusts" of the country.

Burgess followed Bonynge. "I want to see the Philippines treated as forcign territory," he declared. "I want to see the time approach rapidly when

Collect for Stolen Timber.

WASHINGTON, Jan. 9.-The Supreme Court of the United States today heard argument in the case of the United States against the Bitter Root Company, of Mon-tana, and at its conclusion took up the case against Senator William A. Clark. In the Bitter Root case, the prosecution is based on the allegation that the company, as the assignee of Marcus Daly, re-ceived the proceeds of a large quantity of timber cut on the public land in Mon that Clark came into possession of about 11,000 acres of timber land fraudu-lently entered. The effort in the latter case is to have entries canceled.

Report Against Ship Subsidies.

WASHINGTON, Jan. 9 .- Senator Malry today filed the views of the minorin opposition to the ship-subsidy The report follows similar lines to that made by the same Senator a year ago, in which subsides were opbused as contrary to public policy.

Confirmed by the Senate.

a room at the Hollenden Hotel this after-Mr. Prior went to the hotel on Monday afternoon and did not leave there again before his death. All this morning he paced restlessly up and down the lobby. He appeared to be worvying about something. Shortly after noon N. B. Hasbrouck, of the firm, called to see Prior. They had a long talk. They sat in Prior's room and Hasbrouck evidently made efforts to rouse Prior from his nerv-

Bullet Clear Through Head.

In killing himself, Prior evidently atood in front of a mirror. One shot is still in his head. The other went clear through the temples and broke a picture on an

opposite wall.

George B. Denison, brother of the senior member of the firm, said he could not understand Mr. Prior's desire to end his life. Mr. Prior was about & years of age, married and had two children. He was president of the Cleveland Stock Exchange and a member of the New York Stock Exchange, the Chicago Stock Exchange and the Chicago Board of Trade.

Firm Suspends Business.

The firm of Denison, Prior & Company The firm of Denison, Prior & Company was one of the heaviest dealers in stocks and bonds in the Central West. Mr. Prior has been foremost in financing large brewery consolidations in Ohio and in other states. In order to protect financial interests it was decided to put the firm's affairs in the hands of a committee.

Charles E. Denison, the senior member, who arrived today from his home in Bostom, and who has control of its Eastern bond bosiness, said that in order to protect debtors and creditors alike he had ordered

mittee to assist him in making a thorough and complete investigation of the affairs

that large stock transactions were the cause of Mr. Prior's act." The members of the prominent bankers. It is believed by per-sons acquainted with the amount of busi-ness done by the firm, that it is involved

AFRAID OF EXPOSURE.

Policeman Commits Suicide When Grafting Is Investigated. ST. LOUIS, Jan. 9 .- Police Sergeant

George Colestock, formerly in charge of that part of the city known as the "Bad Lands" and recently transferred to an outlying district as the result of the connection of his name with an expose of graft in the police department, was found dead in a room in the Windsor Hotel tonight, his revolver lying by his side with one chambe empty. He had committed suicide. Several members of the police for were named specially in an alleged confession secured from a woman who formerly lived in Colestock's precin and is serving a term for mirder in the penitentiary. She claims to have kept a record of all sums paid to the police for protection and is said to have placed this record in the hands of Police Commissioners, who for several weeks have been conducting an inves-tigation of the department.
