In view of the fact that the fight of the municipal ownership-labor union crowd is directed squarely against the Ballinger policies and that the Mayor represents pretty much of everything the fusion crowd does not he is pretty certain to yield and accept a nomination. In fact, the probability of his nomination is so strong that it is hardly worth while counting up the other Republican possibilities. Councilman William Murphy, a con-

vert from Democracy of less than two years' standing, wants the Republican nomination, but he wants it on a municipal ownership platform. John F. Miller was Mayor Ballinger's choice as his successor before the pressure on Ballinger became so strong. Mil-ler is now principal Assistant County Attorney and would only accept the nomination in the event Ballinger refused it. There has been talk of fore ling C. J. The question of the Republican no inations is really a serious matter for the fight is likely to be a bitter one. The indications are that the Republican ticket will be elected, but almost any complication could come of the fusion between municipal ownership and labor factions.

The fusion crowd will hold a mass is very probable that the leaders of the two crowds will, in the mean time, agree upon a slate. One of the worst complaints against the dealers, for which it is believed relief might be had by legislation, is in the natter of rejections upon inspection. On this point the plan is to secure a law providing for a state inspector, whose duty it would be to inspect and grade all hops and brand the grade on each bale, so that sales would be made upon this inspection and the common complaints of

dealers, after they have bargained for a purchase, would be wiped out. It has been a cause of much provoca-tion to the growers the way the inspectgated in that way, and prominent Re-publicans have been working hard to con-vince the Mayor that he should take the ber of bales from some lots without ause and make all kinds of complaints; and, if the market has weakened since the bargain was made the grower con-fidently expects that the hops will be called "broken." "bigh dried." "slack dried." "mouldy." etc., and if nothing clse s complained of then "not up to sample the charge that turns down many bales. CLIENT IS IN A BAD FIX

Lawyer Miller Will Appear for Orchard at Hearing Saturday.

BOISE, Idaho, Jan. 10 .- (Special.) -- The Hminary examination of Harry Orch ard, accused of the murder of ex-Governor Steunenberg, will be held at Caldwell Saturday morning at 19 o'clock. The defense asked to have it postponed for a week, but after a conference of the prose cution here tonight it was determined to proceed with it Saturday,

The chemists have not quite finished their work and will not be ready until

Attorney Fred Miller, of Spekane, who is to defend the prisoner, said today:
"I am in no hurry in this matter. As
far as I have learned there has been no e gathered against this man that be refuted when the right time The detectives are making all kinds of bluffs. They will never get evi-dence enough to convict this man. I'll admit the man is in a bad fix and that it will be hard work to clear him. reward offered is so big that it has dently tempted some of the officers to

strain a few points."

Mr. Miller came to Boise on the afternoon train. The reason he had for coming was that he wanted to "see the city." but the later admitted that one of the objects of his trip is to procure the services of a resident attorney. The exhibits now being analyzed in Boise by Chemist Jones consist of powders and liquids supposed to be of explosive nature. Some of them were found in Orchard's vallses and the suspect and others were found at other places, particularly a certain whitish powder, found near the scene of the explosion that caused the death of the murdered man.

It is hinted that these exhibits, after being analyzed by the expert, will prob-ably be the most important evidence brought forward in the preliminary examination by the prosecution. It will be the aim of County Attorney Van Duyn to hold back the most important evidence collected against Orchard until the actual trial commences, presenting only enough trial commences, presenting only enough to insure the prisoner's being held over for trial in the District Court. The Prosecuting Attorney and his associates have no doubt but that the prisoner will be bound over.

The defense will not waive the examination as was previously appropriate to the submitted to him for approval. It results as the country of the property of the property of the present of the present of the property of t

Defense Asks for Time

BOISE, Idaho, Jan. 16 .- The defense is he case of Harry Orchard, accused of asmassinating ex-Governor Steunenberg, has asked for a postponement of the prelim-mary hearing for a week. It has not been acceded to, but attorneys for the prosecution are holding a conference here tonight for the purpose of determining when to proceed. The chemists have not completed the analysis of the powder and other materials found in Orchard's room at Caldwell, after his arrest, and it is thought the hearing will be postponed a short time on that account. It was an-nounced for tomorrow, but it will not be held before Friday, and perhaps not this

TACOMA, Wash., Jan. 10,-(Special.)-Open gambling is again in full swing after a suspension of just one week. Fearful that the grand jury would return ndictments against them all, some of the gamblers closed Monday night of last week, while others remained open until Tuesday night.

This simultaneous shutdown showed that orders came from the same source that has permitted them to run night and day for many months. Those open for business last night are: Sandberg's Phenix club rooms and dancehall, the Horseshoe club, the Warwick, the Globe and the Silver Dollar. Poker and blackjack games were in full operation today and were well patronized. The kene game in the basement of the Silver Dollar saloon last night tacked up the signs that were removed a week ago and again started the "goose" to rolling.

COE'S WAY BLOCKED

Must Look to Legislature for Electric Road Franchise.

GIVES OPINION

Clark County Attorney Says the Right to Grant Such Privilege Has Never Been Granted County Commissioners.

VANCOUVER, Wash., Jan. 10 .- (Sp. cial.)-For the past few months the County Commissioners of Clark County have been considering the granting of franchises to electric railway companies upon the public roads. Two companies have been eagerly seeking to get franchises through the county for the purpose of building and operating a road, one the St. Helens Public Service Com-pany, backed by Dr. Coe, and the Vanouver & Suburban, in which local people are interested. The question as to the legal right of the County Commissioners to grant a franchise was questioned.

Today Prosecuting Attorney W. W.
Sparks rendered an opinion in which he
declares that the Washington Legislature alone has the right to grant, a franchise. The opinion addressed to the Board of County Commissioners, is as follows: The opinion addressed to the Board of County Commissioners, is as follows:

Replying to your query "Has the Board of County Commissioners of the County of Clark, State of Washington, the right to grant to a railway company a franchise to lay down, relay, construct, maintain, equip and operate an electric railway in and upon the public highways of the county?" will say that I am of the opinion that such power is not vested in the Board of County Commissioners. It would seem apparent that a Board of County Commissioners. It would seem apparent that a Board of County Commissioners in this state has no power to grant any such privilege or franchise as is asked for by the companies petitioning therefor. The Board has, under our statute, power to lay out, discontinue or after county roads or highways within their respective counties outside of incorporated towns or cities.

The privilege to build and operate an electric railway is, m my judgment, wholly foreign to any express or implied power conferred by statute. The power to grant a franchise such as is asked for in this case must be derived from the Legislature. Our Legislature has in no instance, given Boards of Commissioners this right.

The general principle of law is settled beyond controversy, that the agents, officers, or even City Council of a municipal corporation, cannot blind the corporation by any contract which is beyond the scope of its powers or entirely foreign to the purposes of the orporation or which into being legislatively authorized, is against public policy. The duties of public officers being prescribed by statutes, any act of theirs not so prescribed would be fraught with such danger and accompanied with such abuse that it would soon end in the ruin of municipalities, or be legislatively overthrown.
