

CAN PROVE IT ALL

Necessary Witness Against the Standard Oil Found.

CONFIRMS THE CHARGES

Ex-Confidential Clerk Has Direct Proof That Trust Handled Accounts of All Pretended Competitors in Missouri.

NEW YORK, Jan. 12.—Through an anonymous letter "Wall Street Clerk," Attorney-General Hadley, of Missouri, discovered yesterday a witness whose testimony, it is declared, will probably do more to disclose the secret workings of the Standard Oil Company than that of all the witnesses who have hitherto been examined before Commissioner...

This witness, John Corckhill, began his business career as John D. Rockefeller's office boy and worked his way up until he was confidential man to W. E. Kemler, manager of the Standard's clearing-house, where the relations between the subsidiary companies and the Standard corporation are had here. Mr. Corckhill continued with the Standard until John D. Rockefeller's retirement from active management. Then followed a period of re-employment and he resigned.

Corkhill Is Discovered.

The writer of the letter to the Attorney-General said that he feared he would lose his position if his identity became known, but he wished to help the investigation, and so suggested Mr. Corckhill as a valuable witness. Immediately upon its receipt Mr. Hadley turned the letter over to Rush Labor and before the day was over Mr. Corckhill was located.

"Mr. Corckhill," said Mr. Lake, "the State of Missouri has instituted proceedings to show that the Standard Oil Company and the Republic Oil Company are all part of the Standard Oil trust. I understand you know something about the operations of these companies, and I desire to call you as a witness."

Knows All About It.

"Sure," said Mr. Corckhill. "They're all at 35 Broadway. While I was with Mr. Kemler his reports passed through the office. I don't know about testifying, though. I guess you had better talk to my lawyer."

The lawyer referred to was called into the conference, and said he could see no reason why Mr. Corckhill should not tell what he knew. He advised, however, that his client think it over during the night. This was agreeable to both parties, and an engagement was made whereby Mr. Corckhill will meet Mr. Lake this afternoon at 2:30 o'clock and accept service of the subpoena which was issued for him.

GOVERNOR SCORES JUDGE

Carter Says Robinson Allowed Jurors to Have Liquor.

HONOLULU, Jan. 11.—Governor Carter has called President Roosevelt withdrawing his recommendation for the reappointment of Circuit Judge W. J. Robinson, whose term expires January 22. The Governor criticizes Judge Robinson on account of some occurrences during a recent civil trial in which the jury was kept out all night in order to finish business before the expiration of the term of court. While the jury was detained from 2 to 5 o'clock in the morning, it is charged that attorneys had brought liquor into the jurors' chamber. There is no charge that Judge Robinson condoned, but the Governor Carter says that the action was improper and scandalous.

Judge Robinson has cabled to Washington asking for a delay of action until the next day, and the visits of attorneys, jurors and other persons.

A special meeting of the Bar Association has been called for the purpose of reaffirming its protest against Judge Robinson. It is understood that the Governor has made no charges at Washington, but has merely asked to have his side of the case heard.

BALTIMORE, Jan. 11.—Cardinal Gibbons today occupied a seat on the platform of the Eutaw-street Methodist Episcopal Church, in which a public mass-meeting was held under the auspices of the City Prohibition League.

On account of the number of meetings being held at this time the committee in charge of the mass meeting found itself unable to secure a public hall large enough for the purpose and was compelled to select the church, which was offered by the official board of the church. A member of the committee wrote to Cardinal Gibbons, who had consented to act as a vice-president at the meeting, stating the case and asking if he wished to have his name withdrawn as one of the vice-presidents.

Young China Wants Reform, Old China Adheres to Graft.

PEKIN, Jan. 11.—Reports from the South and from the Yunnan Valley region show the anti-foreign sentiment to be very strong. China undoubtedly is in a ferment of political excitement, but the movement is directed as much against the government as against the foreigners.

The government is between two fires. The young China party is clamoring because reforms are being executed too slowly, while the conservatives and the officials, the latter having their puppets threatened, are resisting all efforts at reform.

Administration Suspects Disgraced Diplomat of Attack on Canal Management—Senate Summons Taft's Accusers.

Washington, Jan. 11.—(Special.)—The cat is out of the bag. The Administration believes that Herbert W. Bowen, of Connecticut, dismissed from the diplomatic service while Minister to Venezuela, is responsible for the recent sensational charges against the canal management, which have fairly upset the Administration, Congress and the Nation.

This is reported to be what President Roosevelt had in mind when, in calling Secretary of War for an explanation, he said among other things that he called "attention to the canal charges purporting to have been written by Poultney Bigelow. The article complained of charges of corruption, incompetency and favoritism in canal management, and was signed by Poultney Bigelow, the author and globe-trotter."

The publication in which it appeared is a widely-known and influential paper long owned by Henry C. Bowen and now conducted by Clarence W. Bowen, a brother of Herbert W. Bowen. The Administration points to the fact that before the Bowen dismissal his brother's paper had been an ardent and devoted admirer of the Roosevelt administration.

The investigation of everything pertaining to the canal by the Senate committee on interoceanic canals, which will be publicly begun Tuesday, when ex-Chief Engineer Wallace is to be examined, may disclose the authorship of the recent charges. Clarence Bowen and Bigelow will be subpoenaed.

BURNHAM GOING TO EUROPE

President of Mutual Reserve Settling All His Property.

NEW YORK, Jan. 11.—Frederick A. Burnham, president of the Mutual Reserve Life Insurance Company, is to sell his horses and is disposing of other property preparatory, it is said, to a trip to Europe.

Burnham's intention became known to a few of his intimate friends within the last three days, when he let it be known that his stable of carriage horses, as well as several carriages, were for sale.

District Attorney Jerome manifested no surprise when told Mr. Burnham was selling his property preparatory to going abroad. He had, however, learned of it only a few hours before.

"I was told of it," said Mr. Jerome, "by a man who seemed to believe I ought to know it."

"Do you intend, in view of the evidence before the legislative committee, to refer to recent transactions of Mr. Burnham as president of the Mutual Reserve, to talk over the matter with him before he leaves?" the District Attorney was asked.

"You had better get a lot of evidence to read before I can answer that. I have not had time to get a clear idea of the situation yet," said Mr. Jerome.

The company had been chartered from a number of states, Mr. Wilson said, and was then doing business in New York, Pennsylvania and West Virginia.
