German Chancellor Defends Resort

BERLIN, Jan. 15.-The Reichstag today held one of its perennial discussion dueling in the army, which was occasioned by the case of a lawyer, Herr Feldhaus, of Muchlhelm, and one Buhr. whom the Emperor summarily dismissed from his position as a Lleutenant in the Landwebr because he refused to fight a duel which a court of honor had declared

to Code by Officers.

The Clerical party brought in an in terpellation on the subject, asking Chan-cellor von Buelow what measures the government purposed to adopt against compulsory duels. War Minister von Elnem answered by reading a statement from Chancellor von Buelow, who was absent from the house. The Chancellor declared that the custom of dueling exists in wide circles of the educated class Germany, and so long as it is regarded as a means of restoring offended honor the officers of the army cannot tolerate the presence in its ranks of a member who unwilling to re-establish his bonor with weapon in his hand.

The government, however, had under code in the direction of stringent penal-ties against persons wantonly attacking another person's honor. Until this was done dueling was necessary. The Em-peror's Cabinet order against duels in the army has greatly reduced their number. General von Einem added that only one duel had occurred in 1906 between officers on the active list.

# THINKS DUELING NECESSARY III DENIVARI

Motive of Proposed Maximum Tariff Law.

## HER RATES DISCRIMINATE

She Raised Minimum Rates and Imposes Maximum Tariff to Force Reciprocity-McCleary Proposes We Do Likewise.

OREGONIAN NEWS BUREAU, Washington, Jan. 15.-A prominent member of the Administration, who is consulted by the President, as well as by leaders in Congress, in regard to all tariff matters recently had occasion to make a brief statement of the German-American tar-iff situation, and this, in substance, is what he wrote:

Official statistics show that during the last ten years our imports from Germany have grown from \$81,000,000 in 1885 to \$118,000,000 in 1805, and during the same period our exports to Germany have increased from \$82,000,000 in 1886 to \$198,000,000 in 1005. The largest imports into the United States during the fiscal year 1905 were: From the United Kingdom, \$176,000,000; from Germany, \$118,000,000; from Brazil, \$100,000,000; from Prance, \$90,000,000; from Cuba, \$80,000,000; and from Canada, \$62,000,000.

Our largest exports for the fiscal year 1905 were: To the United Kingdom, \$522,000,000; to Germany, \$194,000,000; to Canada, \$141,000,000; to Prance, \$76,000,000; to the Netherlands, \$78,000,000; to Ching, \$53,000,000; to Japan, \$52,000,000; and to Mexico, \$46. Official statistics show that during the las-

Japan, \$32,000,000; and to Mexico, \$46.

Germany during the last two or three years has repeatedly sought to enter this a reci-procity arrangement with this Government which would, in effect, give her goods com-ing into the United States a preferential rate over those of our best customer, the United Kingdom, to say nothing of Canada. France and other very desirable customers of ours.

"There appears to be no disposition whatever in Congress," adds this Presidential adviser, "to accede to this demand," and he makes this statement after numerous conferences with recognized leaders. "But in order to force the Issue the agrarian influence in the Reichstag has compelled the adoption of a new German tariff, which is to go into operation on March 1, 1806, making a very material difference in the tariff rates which she will impose on goods originating in coun-tries with which she has reciprocity trea-ties and those from countries with which she has no such arrangement." He con-

#### Her Minimum Tariff Raised.

To begin with, Germany made a general sivance in her tariff rates so that under the new law the minimum, which will be paid by the most-favored nation after March 1, will be considerably higher than the rate which is now paid by all nations alike, in-cluding the United States. Further than that, she has made a maximum rate, which me he paid by all countries not having recipro cal treaties with her, and which, of course maximum rates are a still greater advance on the old rates can be illustrated by one item wheat flour, the present rate on which is \$1.55 per barrel. After the first of March hose countries which have a reciprocity arrangement with Germany will pay the mini-mum rate of \$2.17 per barrel, and all other countries will pay \$4 per barrel. The largest item of our export to Germany.

owever, is raw cotton, which is now ted free, and which will continue to be ad mited free under the new tariff law.

The question which now confronts the United States is. What are we going to do about it? Under the provisions of the Dingies tar-iff law the President is authorized to retali-ate against countries which may discriminate against American goods, but nothing under templated to meet the advance

## Retaliation Is Proposed.

The opinion appears to be very general in official circles and among leaders in Congress that in all probability legislation will be enacted at this sension establishing a maxim rate of 25 per cent advance over the presen Dingley rates which shall be assessed on all goods coming into the United States from countries which discriminate in the matter of tariff against American goods. A bill on these lines has already been introduced by Representative McCleary, of Minnesota, and that bill meets with favor. It is possible, however, that an exception may be made in the case of Canada, for it is believed to be unwise to compel Canada to put us on the same tariff footing with the mother country. The enactment of such a law as this, it is believed, will force Germany to retreat from her present tariff position.

While the writer of the foregoing probably has good reason to expect the passage of the McCleary bill or some similar sage of the McCleary bill or some similar measure, and while he is in a position to state that such a law would be approved by the President and by the Republican leaders, the situation in Congress has not sufficiently developed to accurately state what disposition will be made of this particular bill and those of a kindred char-acter. But there is a manifest desire on the part of the Administration to let Congress deal with the German tariff problem, rather than attempt to solve it by executive action.

## COUNCIL ORDERS INQUIRY

Chorus of Indignation Over Hollister Murder Rouses Him to Action. Two Murders Are Added to the Record.

CHICAGO, Jan. 15.-So many murders and robbertes have been committed in Chicago recently without the perpetrators being apprehended that the City Council was requested tonight to come to the aid of the Police Department. Both Mayor Dunne and Chief of Police Collins assert that the present police force is insufficient numerically, and several petitions prepared by committees of citizens were presented to the City Council tonight, asking that enough money be appropriated to enable the city officials to increase the police force so that the streets can be properly patrolled.

After considerable discussion, the peti-tions were referred to the finance committee and a resolution was passed di-recting the police committee immediately to investigate the department and report its conclusions to the City Council as to the reasons for the inability of the Police Department to cope with the criminal element in the city, together with whatever recommendations the committee may deem proper to remedy the situation and give the city proper police protection.

During the examination the aged father of Ivens sat in the room with tears streaming down cluded, the old man asked bis son:

"Did you really do this alone?"
"Yes, I did it alone," replied the son.
Protests loud and insistent came from onditions which were held responsible for the murder of Mrs. Hollister.

Mayor Dunne, who returned during the saying that the city needed more police, men. He declared it to be the duty of the City Council to provide the means for putting a large enough force of patroi-men out to cover the city thoroughly. This also was demanded by the First eMthodist Church. Plans for a mass meeting to accomplish this end were made by others.

Sorrow and anger mingled in the voices at the Weslyan Methodist Church, where Mrs. Hollister was a member. Members of the choir, in which she had sung, could not sit in their seats before the congregation, but remained in the pews. Richard G. Ivens, who strangled Mrs.

Every part of the body is dependent on the blood for nourishment and strength, and when from any cause this vital stream of life becomes impoverished or run-down, it invites disease to enter. No one can be well when the blood is impure; they lack the energy that is natural with health, the complexion becomes pale and sallow, the vital energies are at a low ebb, and they suffer from a general broken-down condition of health. The system is weakened and unable to resist the diseases and disorders that are constantly assailing it. The Liver and Kidneys, failing to receive the proper stimulation and nourishment from the blood, grow inactive and dull, and the waste matters and bodily impurities that should pass off through these channels of nature are left in the system to produce Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases or some other blood disorder. When the blood is in this weakened and diseased condition it should be treated with a remedy that is not only thorough, but gentle in its action. S. S. S., a purely vegetable remedy, made of roots, herbs and barks, is just what is needed. It not only cleanses

gently builds up the entire system by its fine tonic effect. S. S. S. reinvigorates every member of the body, gives tone and vigor to the blood, and as it goes to the different parts, carries robust health and strength. S. S. S. acts more PURELY VEGETABLE. promptly and gives better results than any other medicine. It cures Rheumatism, Catarrh, Sores

Eruption Broke Out in Spots All Over Body-Caused a Continual Itching for Two Years - Doctor's Medicine Did no Good - Cured at Expense of only \$1.25 and Now

#### THANKS CUTICURA FOR COMPLETE CURE

"Some time ago I wrote you for a book on the Cuticura Remedies and received it O. K. and went and bought the Soap, Ointment, and Pills. They did me more good than any medicine I ever used. They cured me of my skin disease, and I am very thankful to you. My trouble was eruption of the skin, which broke out in spots all over my body, and caused a continual itching which nearly drove me wild at times. I got medicine of a doctor, but it did not cure me, and when I saw in a paper your ad., I sent to you for the Cuticura book and I studied my case in it. I then went to the drug store and bought one cake of Cuticura Soap, one box of Cu-ticura Ointment, and one vial of Cuticura Pills. From the first application I received relief. I used the first set and two extra cakes of Cuticura Soap, and was completely cured. I had suffered for two years, and I again thank Cutieurs for my cure. If you wish, you may publish this. Your friend forever, Claude N. Johnson, Maple Grove Farm, R. F. D. 2, Walnut, Kan., June 15, 1905."
