Reform Is Slogan of New York's Mayor.

MURPHY'S INFLUENCE IS LOST

City Officials Appointed Without the Boss' Approval.

MACHINE MEN THROWN OUT

District Leaders Are Astounded When They Learn That the City's Chief Executive Is Not Merely Playing to Galleries.

NEW YORK, Jan. 21,-(Special.)-The new city administration has been in office long enough to convince the people generally that Mayor McClellan and Boss Charles F. Murphy are seriously on the

ficial family. In other words, his commissioners, came as a surprise to Tam many Hall, but the belief, privately exsed, was that it really didn't mean onything, it was just a trick to fool the public. But us the days have gone by the workers are realizing to their dismay that the city departments have actually been taken out of practical politics.

The government of New York City is roughly divided into it great departments, police, fire, health, street-cleaning, docks, charities, corrections, water, sewers, parks and bridges. Each is beaded by a commissioner (except the Park Board, which has three), drawing a salary of \$7500 a year, and having an immense amount of patronage under his

## Murphy Named Commissioners.

When McClellan took office two years ago, Murphy named all his commissioners except John McGaw Woodbury, head of the street-cleaning department. Woodbury was a hold-over from the Low adstration, and McClellan insisted he should be retained. But Murphy appointed the following commissioners, practically without consultation with the

Police Commissioner, William McAdoo; Sewer Commissioner, Matthew Donahue; Park Commissioners, John J. Pallas and Henry Shrader; Commissioner of Gas and Electricity and Water Supply, John T. Oakley; Bridge Commissioner, William

All of these were personal selections of Murphy. They went to him for their atment, and, recognizing the fact that they owed him gratitude for their selection, loyally carried out his orders. Hayez, Featherson, Donahue and Oakley were district leaders, while the others were chosen and vouched for by dis-

#### trict leaders. All Were Turned Down.

These men controlled practically all the minor appointments and all the influence of the administration which closed December Il last, and not one of them has been reappointed. True, Hayes has been promoted, he was elected Sheriff, and Pallas died in office, but all the others were candidates for reappointment and were backed by Murphy. Yet they were turned down. And had Hayes and Pallas been in the field they would undoubtedly have shared the same fate.

McClellan has filled these places by the selection of new men, none of whom are powers in the organization, and none of Commissioner Blugham comes from the Army. He had to ask where police head-Tammany Hall in his life. The Fire Commissioner is John F. O'Brien, who was taken from the Sun by McClellan to be his private secretary. Murphy didn't indorse either of these aelections. In fact, he privately opposed them vigorously.

The new Dock Commissioner, who has power to greatly bother the Murphy Contracting Company, if he desires, is no even an election district captain. Commissioner Ellison, of the gas, electricity and water supply department, is popularly believed to live in New Jersey. Commissioner Stevenson is another exnewspaper man and a protege of ex-Comptroller Grant. McCanen him; Murphy opposed him. But McClellan appointed him.

# District Leader Loses His Job.

Ringham turned out all three of Mc Adoo's deputies, and one of them was Thomas P. MacAvoy, an ex-Inspector of Police, and a present district leader. MacAvoy was the Murphy tip for Police sioner. He is not anything at all

One of the new deputies named frankly admitted that he owed his appointment to (Neveland, and had never met General Bingham until he was sent for and told the job was his. Another is an anti-McCanen Democrat of Brooklyn, in- forts had failed. dorsed by Grant. A third is a Harlem lawyer, vaguely described as "an old friend of the Commissioner."

The only district leaders who were reappointed were City Chamberlain Patrick Kectan and Commissioner of Corrections | robbers in his saloon at 588 Noble street, Francis J. Lantry. Neither are regarded as strong Murphy men. Keenan has been a leader in Tammany for years, and is cash register. The proprietor seized one , not a grafter. Hall. One of the best is Pat Keenan, and I have no fight on men like fum." Lantry's reputation is also good. Per-taps that is why he holds on. Neither of hese two, by the way, have much pat age at their disposal.

### Clean Sweep in Brooklyn.

Over in Brooklyn, district leaders held all the deputy commissionerships under the old administration. Mayor McClellan has swept them all out. His new apolntees are men who have never been ctive in politics, although their reputalons in private life are good.,

These appointments created aurprise but the district leaders believed that they were simply for effect, and that the new men would "take orders from the or ganization" as loyally as their predec sors had done. So they confidently called it the various departments with request for appointments and favors, but were promptly, courtebusly and firmly turned

Complaints were made to Murphy, who had stated publicly that he and the Mayor "had no quarrel," and "the apsolutioents which the Mayor had made neet with my approval." In the privacy of Tammany Hall, however, the boss figtratively threw up both hands.

### Murphy Talks to Him.

"I cannot do a blessed thing," he said 'I couldn't name a dogcatcher as things are at present. Why, I've talked and talked to the Mayor, but he's taken the bit in his teeth, and I don't seem to have any more influence with him than Hearst has But it won't last. He will come back to the organization before long." But the Mayor's friends declare he will sever come back, but plans to reform the party as Folk and Weaver did in their respective cities-from the inside. He has taken to himself a new set of counsclors, whom he regards as the high minded influential men of the Dens cratic party in New York City, and it is and it is with them that he has consid ered his plans.

Grover Cleveland, although he lives in Princeton, N. J., is on the list. The others include Alton B. Parker, recent Democratic candidate for President, and now a resident of New York City; Edward M. Shepard, Croker's "decent candidate" for Mayor in Bot; Edward M. Groot, for four years Controller; Supreme Court Justice Morgan; J. O'Rrien, who is a trustee of the Equitable Life Insurance Society, and Thomas F. Mulry, one of the leading Catholics of the city, who refused a nom-Instion for President of the Board of Aliermen last Pall.

These men know why the Mayor did it, what he meant by it, and what his intention is in all his future activities.

### What the Mayor Means.

The Mayor's purpose, it is explained, is othing more or less than to abolish the political machine known as Tammany Hall, and to reconstruct and reofficer the Kings County Democracy.

The Tammany Society, it may not be generally known, is not a political associafion at all. It was organized during Revolutionary days for social and beneficent purposes. Tammany Hall is a different organization, but it now controls the Tammany Society. The latter makes no nominations, and Republicans are eli-

Mayor believes the Tammany Society is a good thing, and proposes toestablish it in its old place as a secret, and benevolent association. In place of Tammany Hall he proposes to establish a Democratic county organization representing the true Democracy of New York. McClellan's plan to effect his purpose is simplicity itself. The trouble in both organizations which has driven good Democrats from the fold is due to one thing-

So he has cut off the patronage, and he means to keep it cut off for four years.

# Why the Tammany Men Rage.

This explains why the organization men are angry at the Mayor, and bitterly revile him. They have got nothing from dim, and are thoroughly convinced that they will get nothing.

A Tammany district leader was talking to a friend, a Hearst man, today. The Hearst man was predicting that the Legislature would send an investigating pomdistee down here, open the bullet-boxes and discover enough frauds to sent the Municipal Ownership candidate. The Tammany leader seemed bored. When pressed for an opinion, he finally said:

"If these jays from up the state comdown here, kick McCiellan out of office, whom are proteges of Murphy. Police and then lead him to the river and drown him, I would not send one flower, not even a second-hand violet, to be faid on quarters was located, and was never in his bler. He has treated us shabbily, but the organization will get even with him some day,"

And the great questions in political cirdes: Will McClellan win out or will he lose? Is he going to be a Folk or a Weaver, or a dead one?

"Didn't you see Joe Russell near Mrs. Seeser's house about 2 o'clock that morning T

"Didn't you where you went to Mrs. Creser's, inquire of her for Hank Brown, the Granite Hill stagedriver." "No. str."

"Didn't you tell Mrs. Neeser there was rouble at Granite Hill, and that you wanted to get out of there?"

These questions weer asked of J. S. Harvey, the bunkle of Jasper Jennings, by Attorney Colvig Saturday. Appearing as they do, and even as they were put to Harvey, the questions do not carry great significance, but behind the interrogation s, perhaps, a solution of the murder of old man Jennings. They simply mean there is a mysterious person connected with the killing, who, in spite of the hard work of District Attorney Reames and his assistant, Clarence Reames, has never

#### been run to earth. Several Saw the Masked Man.

The night that old man Jennings was slain in his little cabin at Granite Hill there appeared on the streets of Grant's Pass a mysterious man wearing a mask and carrying a rifle. This man is not a myth. He was seen by at least half a dozen persons, among them Ed Tynan, a freight coeductor on the Southern Pacific. Others also saw him, and why some of the many people who saw him wandering about the streets did not notify the authorities is as unfathomable as the man's identity,

Coadactor Tynan saw the masked stran-Fire Commissioner, Nicholas J. He did not have time to notify the night watchman. but spoke of seeing the masked man and depot. This night a man did call at Mrs. Never's boarding-house, and, from the description given for a long time it was believed that it was Harvey.

# Insistence of the Stranger.

The stranger, whoever he was, not only visited the boarding-house in search of the singedriver once, but twice that night. The second time he called he was again told that Brown was not at home, but he was indistent, and was shown to Brown's room. While he was being shown to the room, he remarked:

"I've got to see Brown. There's hell to pay at Granite Hill, and I've got to get This was the night of the murder, and

as it was yet unknown here nothing was thought of the matter at that time. Later the man who wore a mask and carried a rifle was seen on the street, and the description of those who saw the masked man tallies with that given the authorities of the man who called at the boardtur-house. The description in a measure tallies with the general appearance of J. Harvey, but when District Attorney Reames began running the informatic down, he found that Harvey had slept at his cabin that night and had taken breakfast at the cookhouse at the mines at the usual time the morning the murder was discovered,

# Facts Favor the Suspect.

Another thing in Harvey's favor is the fact that it would have been impossible for him to have been in Grant's Pass as early as 2 o'clock that morning and to have reached the mines in time for breakfast. He would have had to have hired a horse from some one at the mines, for Jasper was driving his colt that evening when he went to pay a visit to his sweetheart, Blanche Roberts. It was the presence of this masked man

that made the officials for a time believe that some one not living at the mines had committed the murder. Then came Jasper's statement, in which he stated that he "could not figure any other way, but that his mother had one of the Brison boys come out and kill his father." Mr. Reames went to North Carolina to look into the movement of the Brison bors. He learned that one of them had murder, but he also learned that the Brison boy that had been absent about that time had returned, and had not been away long enough to have come to Oregon and return. He was only away from home a week; neither does the description of either of the Brison boys tally with

Several men on the first floor attempted to hold the people back, but were knocked down and then the human stream came tumbling down. The weaker ones fell only to be trampled upon by these coming from behind.
