Governor Rolk has given instructions to Andrew C. Maroney, whom he recently appointed a member of the police board, to "make the St. Louis department as near a model as human nature will permit. A majority of the board will back you up. Use your own methods, but clean up the whole department."

Maroney is a lawyer and a fearless man, who knows four-lifths of the 1960 policemen personally. In the boodle prosecutions he was Folk's right-hand man, and knew nothing but his oath of office in performing his duties. He it is who is going straight down the force, from top to bottom in the purification crusade. A score of grafting policemen already have been guillotined and the skidways have been greased for the ousting of Chief Kieley, who is marked to go.

Chief Is Gambier's Choice.

There is no charge that Kieley has proflied pecuniarily from his office, beyond his legal salary. He got his job through the grace of Harry H. Hawes, the paid atterney of the Tilles-Cella-Adler gambling trust-the influence that has done more than any other to see the control of the co than any other to corrupt the Police De-

partment of St. Louis. Chief of Detectives Desmond is also "on the hook." He is one of the best thiefcatchers in the country, and his pecu-niary honesty never has been questioned but he has trained with Kieley and al-lowed the influence of the old political party to be fett in his department. He is unofficially charged with tolerating the known grafters in his department to keep his own peace with the powers behind the throne.

Unlike Mr. Roosevelt, when he was Police Commissioner of New York, Maroney has a free hand to clean up to the limit, assured that he will have no opposition from the men in authority above him or

Circuit Attorney Sager, a Republican, is

and is working hand in hand with Ma-roney, a Democrat, Hard Men to Pry Loose. One of the first victims of the ax was

Detective Killian, a perfect type of the diamond-adorned "plain-clothes" man. He was charged with associating with and profiting from the thefts of a notorious 'panel' woman. Killian is the nephew of a prominent politician and business man, whose wife is related to "Ed" But-ler, boodie-broker and Democratic boss. About town the detective boasted that his job was "copper-riveted," and, in spite of his notorious conduct for years, it was not believed he could be pried lo from the department, even by the new board. He and his friends guessed wrong, Then it was learned that Detective Thomas Kiely, son of the Chief, had been in the habit of "borrowing" generous

sums of money from divekeepers, who would not have trusted him for a glass of beer had he not been a detective and "the son of the Chief." Young Kiely's fate was the same as Killian's, and came just

as swiftly. Talks With Panel-House Woman.

Recently, Commisioner Maroney spent 18 hours talking with Ollie Roberts, who formerly run three resorts in this city, but who is in the Jefferson City Peniten-tiary for murder. Each of the Roberts womne's resorts was a panel-house, and in the years she ran them under police protection the aggregate of the stealings was enormous, although far short of \$1,000,000, as reported. Commissioner Maroney, refusing to make public informa-tion on graft in the force, said:

"When we get through with the depart-ment it will be a model. There will not be a politician or grafter on the force. We are going from bottom to top. Once divorced from politics, it should be a comparatively easy matter to keep the

Chief Ordered a False Report.

An incident that promises to have much bearing in the future investigations is the dismissal from the force, some time ago, for making a false report, of Serago, for making a false report, of Sergeant Harry Dorsey. He admitted falsifying a report of an assault on a citizen at a polling place during the primaries in which the racetracks were an issue. Dorsey swore that he made the report at the dictation of Chief Kiely.

The guarantee of the future thoroughness of the investigation has been as the control of the investigation in a proper of the investigation in a proper of the investigation in the characteristics.

ness of the investigation lies in the character of the Governor, Commissioner Maroney and Circuit Attorney Sager, and in the systematic manner in which the preliminary work has been done.

Curriously enough, no one man in the department stands out as the logical successor of Chief Kiely under the new regime. Most of the men who would have been in line have allowed themselvs to contract the taint of politics if they have been guilty of a general contract. been guilty of no greater offense. Under the law the board must select a chief from the ranks of the force. It is not likely that any haste will be exercised in the removal of Kiely.

Exceptional Opportunity Sale of Blankets!

Wool left the earth in an airship some four years ago, and has been soaring ever since, higher and higher, until 'tis so nearly out of sight you couldn't reach it from the top of Mt. Hood with "a wireless"—not if you tried. Wool is King! and seems to have solved the problem of "perpetual motion"-upwardto a remarkable degree. In fact, many woolen goods manufacturers, rather than sacrifice quality in their product, have declared an armistice in operations until the inflated bubble bursts and descends to earth again. Thro' our close connection with the mills, this condition of things was foreseen by Olds, Wortman & King and provided for. We bought up immense stocks of splendid Blankets on the start of the rise at the old prices. Thousands of dollars' worth. Well, we knew they would pay good interest on the money invested. We have supplied many smaller dealers from this stock at a profit to allow of our placing

THE VOTE

Said a lady worker the other day to the writer: "Oh, dear! Its no use, the charity I'm working for stands no chance of winning; what's the use? I don't believe I'll try any longer." And yet the very cause she was laboring for stood well up in the list of charities printed below. Remember, loyal folk, not only the first and second wins, but all fifteen, or the fifteen standing highest at 6 P. M. on February 10 will win. Of course the divisions are proportioned according to standing, but all win worth-while amounts, viz: First, \$750; second, \$500; third, \$300; fourth, \$200; fifth, \$125; next five, \$75 each, and then five at \$50. All prizes worth working for, don't you think? What's your choice?

Votes MUST positively be gotten at time of purchase. None will be issued after, either on duplicate checks or otherwise. This is absolute. Ask for your votes at time of purchase.

DEAF MUTES RUN DOWN

Ing car when the accident occurred.

Miss Griswold was horribly mangled beneath the wheels, and it was necessary
to raise the trucks to recover the body.

Mrs. Smith was thrown to one side of the Long Beach Electric Car.

LONG BEACH, Cal., Jan. 21.-Miss Mary Griswold, 60 years old, a deaf mute, was instantly killed, and Mrs. F. C. Smith, the same age, and also a deaf mute, was seriously injured by being struck by a Pacific electric trolley car here today.

Both of the women came here recently from Chicago. They were attempting to cross the tracks in front of the approach-

track.

Motorman Hanover was in charge of the car and wept after the accident. Miss Griswold is the second person to be killed by his car recently. Auto Ride in Chicago. CHICAGO, Jan. 21.-The Chinese Com-
