

SHE SEEKS DIVORCE

Countess de Castellane Will Not Be Reconciled.

APPLIES TO FRENCH COURT

Count's Lawyers Vainly Seek Settlement—Intrigue With French Society Woman Brought Quarrel to Climax.

PARIS, Feb. 5.—Countess de Castellane, formerly Anna Boni de Castellane, formerly Countess de Castellane, applied to the French court for a divorce today.

It is said on unquestionable authority that Judge Ditté's efforts were not successful, the Countess absolutely declining to resume relations with her husband and that after repeated but vain attempts by Count de Castellane's advisers to arrange a settlement, the representatives of the Count and Countess left the court and tomorrow suit will proceed.

Another effort at reconciliation will almost certainly be made before the suit comes to trial in the ordinary course.

Mother Will Keep Children. No decision has been reached relative to the eventual custody of the children of the Count and Countess, but they, being under age, will naturally for the present remain in the care of their mother.

Friends of the Count and Countess de Castellane express little hope that any adjustment of their differences will be brought about, and that divorce proceedings under the French law are very lengthy, new developments may occur before the case comes up for trial.

A divorce cannot be pronounced under French law until six months have elapsed since the Countess has decided that any continuation of her relations with her husband is impossible, and her removal from the Castellane residence to a hotel gave support to the belief that she had finally decided to apply for a divorce.

Another Woman in Case.

Sensational reports have been heard with reference to the Count's conduct. The name of a prominent society leader of Paris, a woman of very high standing, has been mentioned in connection with the affair. But the greatest evidence has been furnished by all the parties concerning the progress of the proceedings looking to a reconciliation, and even this morning a favorable result was expected especially as the Countess returned to her residence.

It now appears that the efforts of those interested in bringing about a settlement of the differences between the Countess and the Count without an appeal to the courts have been unavailing. The Count is said to be in the southeast of France.

DENIAL COMES FROM COURT

Cousin in New York Receives Message About Quarrel.

NEW YORK, Feb. 5.—Count Armand de Gontautbrion, cousin of Count Boni de Castellane, said yesterday that he had received from Paris the following cablegram:

"Say that I am not true Boni."

Assuming that the cablegram referred to the report that the Countess de Castellane, formerly Miss Anna Boni, of New York, contemplated an appeal for separation from her husband, the Count de Gontautbrion, who is a frequent visitor at the home of the couple in the Avenue Malakoff, Paris, declared that the denial contained his own opinion that the report was wholly untrue.

"Such action," he continued, "on the part of my cousin's wife would be entirely at variance with the conditions which I have every reason to believe exist between the couple. When I am in France I am a constant visitor at their home. I have never known of any disagreement between them. In fact, they got along very well together."

"I am very sure that, if any such action as is indicated in the stories that have recently been cabled to this country, I would have been the first to hear of it from Boni. I hope there is no such deplorable thing happening. But in this life who can tell? Perhaps it may happen in a few weeks. I do not know, but that it has not already happened I am now sure."

TRACK IS NOT A HIGHWAY

Idaho Man Loses Damage Suit Before Court of Appeals.

SAN FRANCISCO, Feb. 5.—In the Circuit Court of Appeals today a decision was rendered in the case of Henry S. Jones vs. the Northern Pacific Railway Company. This company has a seven-mile road running from Wallace to Burke, in Shoshone County, Idaho. Part of this road runs through a canyon, and it was the habit of the general public to use the tracks as a highway.

Jones, while walking on the track, was struck by a train. He brought suit and was awarded \$7000 damages. The Circuit Court has reversed the decision, instructing the lower court to give a decision for the railway company. The opinion of the Circuit Court of Appeals was written by Judge Gilbert, who said in part: "A general license to the public to walk upon a railroad track does not mean that the railroad company is to be the insurer of the safety of all persons who avail themselves of that permission."

Railroad Loses to Government.

SAN FRANCISCO, Feb. 5.—In the United States Circuit Court of Appeals today, in the case of the Oregon & California Railroad Company, the title of which is 146 acres of land had been voided, the judgment of the lower court in favor of the United States was affirmed. In a similar suit, where judgment had been rendered for the railroad company, a reversal was ordered.

Work on Line to Vancouver Ferry.

Work is being rushed on the Vancouver extension of the Portland Railway Company, but much remains to be done and it will not be until April that cars will be running over the route. Robert Wakefield, who has the contract to do the timber and piling work, is keeping four pile-driver crews at work and two other crews are working on the cribbing for the trestles to be built on the line by the Pacific Bridge Company. Two of these

will be 44-foot span combination wood and steel bridges, and the third will be of the same materials will be 195 feet long. The first two will span the Columbia Slough and the third will cross Williams Slough, which is 45 feet deep at that point at low water and piling 100 feet long will be used to trestle it.

About a mile of the new cutoff has been completed, the work of tracklaying being done by the construction crews of the railway company. The track is laid with 60-pound steel uniform in every way with the newer tracks of the Portland Railway Company. As soon as the cutoff is completed the service maintained by the company on its present Vancouver line will end at Woodlawn or a short distance beyond, and the long trestle across the river bottoms will be torn down.

Faster Time on the O. R. & N.

HOOD RIVER, Or., Feb. 5.—(Special)—A new time-card is being considered by the O. R. & N., which, if it goes into effect, will shorten the time of trains going over the main line from two to three hours. Several stops have been cut out for the overland limited, among which is Mosier, and although the residents of that place are trying to get the company to rescind the order, they have as yet been unsuccessful.

The railroad company has small parties of engineers and assistants working out from different points, taking levels, with a view of straightening curves and thereby allowing faster time to be made. It is said that later a local train will be put on from Arlington to Portland and return, giving the smaller stations along the line better service.

Railway Personalities.

W. H. Snedaker, general agent for the Illinois Central at San Francisco, was in Portland yesterday.

H. S. Rowe, general agent for the Chicago, Milwaukee & St. Paul, left last night for a short trip to the Sound.

M. J. Roche, traveling passenger agent for the Denver & Rio Grande, returned Sunday from a trip to Walla Walla and nearby territory on passenger business.

R. B. Miller, general freight agent of the O. R. N., left Saturday night for Chicago and other Eastern cities, where he goes on business. He will be away for several weeks.

H. W. Roberts, formerly with the Canadian Pacific Railway at Seattle, was in Portland yesterday on his way to San Francisco. He recently resigned from the C. P. R. to become a general agent at Seattle for the American Hawaiian Steamship Company at Seattle. He says his employers, Cook & Company, will operate the freight steamers Tampico and Meteor to Nome this summer. These boats were formerly run by the Globe Company. They will start in May.

FROST AND SNOW REIGN

ZERO TEMPERATURE IN THE PRAIRIES AND MOUNTAINS.

Cold Wave From North Sweeps Over Central States—Snow Closes New York Schools.

KANSAS CITY, Mo., Feb. 5.—The cold wave in this part of the Southwest has night is moving toward the Gulf, according to reports received today at the local weather bureau. The coldest point was Springfield, Mo., where it was 2 degrees below zero. Zero weather prevailed in Northern Missouri and Kansas. Moderate weather is predicted for the next 12 hours.

DES MOINES, Feb. 5.—The cold wave in Iowa reached its maximum at Charles City, where the mercury dropped to 13 degrees below zero. At Des Moines 6 below, but a gradual rise in temperature is looked for. A high wind accompanied the cold wave, causing considerable suffering of stock.

ST. JOSEPH, Mo., Feb. 5.—The cold wave of the last two days has made ice in the rivers and lakes near five inches thick, and the first ice of the winter was cut today. Armies of men employed by the packers united in an effort to lay in a supply before it vanishes.

ST. LOUIS, Feb. 5.—The blizzard of yesterday reached this city, cold day today. The temperature registered 4 below. About four inches of snow covers the ground.

CLEVELAND, Feb. 5.—Snow is falling throughout Northern Ohio for more than 24 hours, with the result that traffic on many of the steam and electric roads was seriously delayed today.

MILWAUKEE, Feb. 5.—Wisconsin today is experiencing the coldest weather of the winter, temperatures ranging from 1 below in Milwaukee to 15 below in Superior.

OMAHA, Feb. 5.—The coldest weather of the winter in Omaha prevailed at 3 o'clock this morning, when the mercury stood at 4 below zero.

SARATOGA, N. Y., Feb. 5.—A driving snow storm began here today and fell so deep that it finally compelled the closing of the public schools at noon.

CHICAGO, Ill., Feb. 5.—The coldest weather of the winter was experienced here last night, the mercury falling to 9 below zero.

BROKERS GUILTY OF FRAUD

Pretend to Guarantee Securities for Good, Large Fee.

NEW YORK, Feb. 5.—John S. White, president of the Imperial Trustee Company, of Jersey City, and Robert G. Ruxton and Clyde Colt, brokers of this city, were arrested today on Federal indictments, charging them with using the mails to defraud.

It is alleged that Colt and Ruxton advertised that they represented clients with millions of idle capital to invest in first-class securities. When visited by representatives of various concerns, it is alleged, Ruxton and Colt proposed to handle the securities offered, provided they were guaranteed by the Imperial Trustee Company, of Jersey City.

White charged sum ranging from \$50 to \$200 for guaranteeing the securities.

Will Continue Church Inventory.

PARIS, Feb. 5.—A deputation of Liberal Deputies of Paris today requested Premier Rouvier to suspend the taking of the inventory of the property of the churches until the final regulations under the bill providing for the separation of state and church are published. M. Rouvier, in reply, said that the law would take its normal course uninterrupted. The inventories of several Paris churches were taken this afternoon without incident.

Dividend on Canadian Pacific.

MONTREAL, Feb. 5.—The board of directors of the Canadian Pacific Railway declared the regular semi-annual dividend of 1 per cent on the preferred and 3 per cent on the common stock of the half year ending in December last.

MAY END BOYCOTT

Radical Changes in Chinese Regulations.

WILL SECURE SQUARE DEAL

Officers Must Inform Departing Chinese Residents of Conditions of Return—Those Excluded May Appeal.

WASHINGTON, Feb. 5.—Secretary Metcalf, of the Department of Commerce and Labor, today took action which is expected to decrease considerably the friction between the country and China and perhaps cause the abandonment of the anti-American boycott, when he approved the report of the special commission, composed of Assistant Secretary Murray, Solicitor Sims and Richard Campbell, of the Bureau of Immigration, providing for a radical revision of existing regulations under which Chinese may enter and reside in this country.

The commission's report touches, by way of other existing regulations, 24 of the existing regulations. Besides certain alterations that promise to avoid delay in landing Chinese who apply for admission, other alterations have been made where possible to avoid any action that would seem offensive, providing that the object intended by such regulations could be accomplished otherwise.

Must Inform Chinese of Law.

As an illustration of this, the commission recommended the discontinuance of the Berillon system of identification. Another amendment is a requirement that the administrative officers should advise Chinese persons, either laborers or of the exempt class, before their departure from the United States, of the conditions under which they will be admitted upon their return. Upon this point the officers are directed to use special care, so that no Chinese person who has a right to reside in this country shall be allowed to depart therefrom under a mistaken impression that he will be readmitted.

Provisions are also made for the notification of Chinese who have been denied admission at the port of entry of their right to appeal from such denial to the Secretary, such notice being required under the new regulations to be in the Chinese tongue, and the further requirement that the administrative officers should be taken to notify the Chinese Consul, if there be such an officer at the port of entry, of the adverse action of the officers at such port in the case of any Chinese person, so that said Consul may have the opportunity, should he deem such a course necessary, to employ counsel or otherwise interest himself in behalf of his countryman.

Changes in Regulations.

Some of the more important changes in the regulations follow: Prohibiting officers of the service from boarding foreign vessels arriving at United States ports in enforcing Chinese exclusion; Chinese who have been denied admission to be advised by notice in Chinese of the right of appeal to the Secretary of Commerce and Labor; authorizing additional extension of time where a liberal compliance with the rule which extends the time for perfecting the record on appeal is deemed to be in the interest of the applicant or risk of default of the purposes of the law; permitting Chinese laborers claiming the right to leave the United States and return thereto to apply to the immigration officers most convenient instead of requiring them to apply to the officers at the port of departure; directing officials to be certain that the Chinese laborer is fully understood of the importation section 6 of the act of 1888, which provides that Chinese shall not be permitted to return to the United States "unless he has a lawful right, either in person in the United States and property therein of the value of \$100, or debts of like amount due him or pending settlement"; giving departing Chinese laborers a copy of the department's instructions and regulations to the immigration officers; immediate admission of returning registered Chinese laborers, who establish their right to admission; facilitation of the return of Chinese merchants going temporarily; simplifying the procedure regarding the departure and return of Chinese merchants visiting contiguous foreign territory; omitting the rule providing for photographs of interior of merchants establishments operated in connection with laundries, restaurants, etc.; directing that what is known as section 6 certificates shall not be retained by United States officers at port of arrival, but that, after endorsement of admission and the date thereof, they shall be returned to the persons admitted; also dropping the rule providing that the omission from one of these certificates of any of the information required is fatal to the efficiency of such certificates as evidence of the right of the person to whom issued to enter the United States; omitting the rule requiring the term "student" preceding the name of "no person other than a seaman will be permitted to land temporarily, under bond," etc., omitting the rule providing for the admission of persons

RHEUMATIC PAINS

THEY INVARIABLY YIELD TO DR. WILLIAMS' PINK PILLS

Because the Poisoned Blood is Made Pure and Inflamed Tissues Are Healed.

When, in cold or wet weather, the rheumatic patient feels twinges of pain in the joints and muscles it is natural to think that the trouble is local and that it is caused by the chill or the damp. The truth is that rheumatism is a disease of the blood, caused by the failure of the body to cast off certain poisons. It is hereditary and often runs in several generations of one family. Cold, dampness and certain localities do promote the development of the disease, but the root of the trouble is always in the blood.

With this in mind, it will be readily seen how useless it is to try to cure rheumatism by rubbing liniments on the skin. External applications are of use in securing temporary relief from pain—the cure for rheumatism lies in purifying and enriching the blood.

Mrs. Frederick Brown, of 40 Sumpter street, Sandy Hill, N. Y., was a sufferer from inflammatory rheumatism of the time she was sixteen. She says: "It first appeared in my knee joints, then in my hip and waist. It became a regular thing that I could not stand up all winter. The rheumatism affected mostly my hands, hips, feet and shoulders. My hands were all puffed up and my feet became deformed. I lost my appetite, couldn't sleep and was in a great deal of pain. It was so bad that I was compelled to cry out, the pain would be so bad at times and I suffered all winter. The rheumatism affected mostly my hands, hips, feet and shoulders. My hands were all puffed up and my feet became deformed. I lost my appetite, couldn't sleep and was in a great deal of pain. It was so bad that I was compelled to cry out, the pain would be so bad at times and I suffered all winter. The rheumatism affected mostly my hands, hips, feet and shoulders. My hands were all puffed up and my feet became deformed. I lost my appetite, couldn't sleep and was in a great deal of pain. It was so bad that I was compelled to cry out, the pain would be so bad at times and I suffered all winter. The rheumatism affected mostly my hands, hips, feet and shoulders. My hands were all puffed up and my feet became deformed. I lost my appetite, couldn't sleep and was in a great deal of pain. It was so bad that I was compelled to cry out, the pain would be so bad at times and I suffered all winter. The rheumatism affected mostly my hands, hips, feet and shoulders. My hands were all puffed up and my feet became deformed. I lost my appetite, couldn't sleep and was in a great deal of pain.
