HIS IRE UP AGAIN

Patterson Champions Eight-Hour Law on Canal.

SENATE VOTES HIM DOWN

Calls Isthmus Slaughter-House of Allen Labor - Tillman Speaks Word for American Labor, Republicans Chime In.

WASHINGTON, Feb. 2.-Almost the entire session of the Senate today was devoted to the consideration of the urgent deficiency appropriation bill, which was passed practically as it was report-ed from the committee on appropriations. The only discussion was over an amend-ment suggested by Patterson to strike out the provision relieving alien work-men on the canal from the operation of the eight-hour day law. Patterson cotended that to require men to labor more than eight hours a day in the tropics was inhuman and argued that the requirement would de injustice to Ameri-can labor. Several Senators on both sides of the chamber controverted the position The amendment was voted down without resort to a roll call.

At the beginning of the session For-

aker presented an amendment to the statehood bill, directing the method of proceeding in Arizona and New Mexico that within 30 days after the approval the statehood bill the Governors of the territories shall, respectively, call statehood. Voters of the two proposed states shall vote separately, and the union shall not be consummated until a majority of the votes in each territory are cast in the affirmative.

The urgent deficiency appropriation bill was laid before the Senate and de-

vision abrogating the eight-hour on the canal zone. Money opposed the

What it all means in plain, brutal English, is that there is being prepared on the isthmus a slaughter-house for aliens, and that the canal is to be built at a fearful cost, not only of money, but of life," responded Patterson in persist-ing in his amendment.

Gallinger called attention to the state-ment of the canal officials that sanitary conditions on the isthmus were much improved, and Patterson replied that these statements did not correspond with the testimony given to Senators.

Tillman also took issue with Patterson, saying that "when the Colorado Senator makes an appear for elies.

makes an appeal for alien labor he would better look a little closer home and con fer the American laborer, who in the end must pay for building the canal."
Patterson withdrew his amendment Patterson withdrew his amendment and offered another fixing the limit of a day's labor on canal work at 10 hours instead of eight. The amendment was

Tillman expressed dissatisfaction with the relationship between the Canal Com-mission and the Panama Railroad Com-pany, and said he hoped the Canal Com-mission would find manual. uld find means of unifying the

canal and the road. Hale agreed with Tillman on this point.

The bill was then passed, and at 3:08 f. the Senate went into executive on, and at 2:15 adjourned until Mon-

BUSHES PRIVATE PENSIONS

House Breaks Speed Record and

Amends Philippine Tariff. today ground out its usual semi-monthly grist of private pensions, passing in 72 minutes 429 bills for the benefit of vei-erans who are barred for one reason or ASHINGTON, Feb. 9.-The House other from coming in under the general snother from coming in under the general statute, and thus made a new speed record for such hills. Seventy-five per cent of the benficiaries are either blind or bed-ridden. This order, with a number of minor bills and the passage of two amendments to the Philippine tariff act of 1965, constituted the transactions of the day. The tariff amendments place American cotton goods on an equality so far cotion goods on an equality, so far hoes were admitted at a lower tariff. The

House adjourned until Monday.

The bill to amend the Philippine tariff net was called up by Payne (N. Y.), chairman of the ways and means committee. He explained that the bill related to cotton goods and shoes. The cotton manufacturers in this country, he said, made goods 22 inches wide-European manuacturers weave in double this width and then cut the strip in the center, thus sav-These goods are known in the trade as "false salvage" goods, and on them the rate is raised to the point against American goods. Low grade and children's shoes are placed in a lower class, making the tariff less, as Payne tated, to encourage the wearing of shoes in the islands. No one wished to debate the bill, which passed without objection.

GOVERNMENT OF CANAL ZONE

Magoon Tells Senate Committee Many Interesting Things.

WASHINGTON, Feb. 2.-Charles E. Magoon, Governor of the Panama Canal Zone, was before the Senate committee on interoceanic canals today, and gave his

testimony in connection with the investigation of the canal work. In response to a request from Chairman Millard, Govern-or Magoon outlined conditions upon the isthmus when he was assigned to duty there last Spring. He had, he said, found an excellent organization for the Govern ment sone, but men there were much overworked and anxious over the possible effects of the reorganization. No re-

said the sanitary force was also organized, and it had done and is now doing excellent work. The Government had been especially fortunate in se curing in the force a number of Army men who had been engaged in the sanita-tion of Cuba. Governor Magoon contend-ed that fever conditions in Panama are

better than formerly.

Under examination by Morgan, the question was raised whether the courts, as constituted by the Isthmian Canal Commission, could deny to an American citizen his inherent right to

American citizen his inherent right to trial by jury when charged with a capital offense. Judge Magoon said that presented a serious question.

In a general discussion of the subject, Senator Knox said he should not like to decide what the ruling of the United States Supreme Court would be in this matter. Jury trials are not had in the canal zone, nor in the Philippines nor in the latter had the Supreme Court upheld the system as applied to the trial of a native Fliipino. Senator Knox said he could not say what the decision would be if an American, going to possessions of the United States, were tried and convicted in like manner.

victed in like manner At the afternoon session, Judge Magoon continued his explanation of the government of the Canal Zone. He said that the apparent 40 per cent profit made by this Government through the purchase and use

of Panaman stamps surcharged "Canal Zone," would not pay the cost of the postal service in the zone, and said legislation would be necessary to adjust the matter. About half the land there is

laimed by private parties One explanation given by Governor Ma-goon of the interest the United States had in establishing the Panama currency was that the use of American money doubled the price of everything, as the people wanted as many silver dollars worth 100 cents as they had received peace worth 50 cents for articles sold.

Discussing the necessity for the coin-age system and the agreement by which the United States agreed to maintain the parity and the associated banks agreed to supply silver to the Commission, Gov-ernor Magoon said that the new currency became as commission in the silver inecame so popular that it was almost im-nediately absorbed by commerce. Morgan asked if the United States should not establish a Subtreasury on the

Isthmus to aggravate the necessity for silver. Governor Magoon replied that that could be done, but that as rapidly as the silver was shipped to the Treasury and paid out it would disappear and never come back; that the people liked the money because it was stable, and it drove out all other circulating mediums.

"That is about the most logical free-silver plan exploited since Mr. Cleve-land—" began Morgan. He had meant to say Mr. Bryan, but after a pause he ted his observation as he began, ld: "Since Mr. Cleveland disap-

The examination of Governor Magoon will be continued Monday.

ANSWERS SULZER'S CHARGES Secretary Taylor Defends Sale of

Custom-House Property.

WASHINGTON, Feb. 9 .- A hearing was held today before the House com-mittee on public buildings and grounds

********************** NOTED CLERGYMAN RESIGNS HIS

Rev. William S. Raineford.

Rev. William S. Rainsford, for 22 years rector of St. George's Protestant Episcopal Church of New York City. has resigned the rectorship owing to ued ill health, and Rev. Hugh Birckhead, the assistant rector, has been elected by the vestry to succeed

was in the form of a letter to J. Plerpont Morgan, sentor warden of the church, from Cairo, Egypt, dated January 7 last. Dr. Rainsford wrote that while his health was better than it was a year ago, he had definitely copcluded that he had not strength enough to continue in the rectorship. George's parish in 1882. He was then 32 years of age. When he assumed charge the church was practically without a congregation. down his charge leaving a congregation numbering 7000 souls and an 600. St. George's at the present day is one of the most prosperous churches in New York and one of the wealthiest.

sentative Sulzer, of New York, in regard to the sales of old New York Custom-House property. The resolu-tion called for information as to when tion called for information as to when the deed was executed where it was deposited, and why it has not been re-corded in New York County, and for information in connection with the sale of the property.

Mr. Sulzer stated to the committee that the authorities in New York have not been able to find when the deed was executed or where it was depos ited, or any information concerning it. He also assailed the Treasury Department for the transaction, pronouncing it an unspeakable outrage on the Gov-ernment and on the City of New York He stated that the property was worth \$6,300,000 when it was sold, and is worth \$13,000,000 now. He stated that more than \$1,000,000 had already been paid to the National City Bank for rent. He further stated that not a dollar had been paid for the property by the National City Bank. He declared that there ought to be an investigation by Congress of the whole affair.

Secretary Taylor, of the Treasury Department, replied to the charges. In the first place, he said, no deed had ever been executed; therefore it could not be deposited anywhere, and could not be recorded. The reason the deed had not been executed was because the property was not fully paid for, and, under the contract, the National City Bank was not compelled to make final payment and set the deed until the new Custom. and get the deed until the new Custom-

House was completed.

In reply to the charge that the National City Bank had not paid a dellar for the property, he said the full amount had been actually transferred to the credit of the Government at the Subtreasury in New York, making a payment as complete as though the actual currency had been paid over.

Mr. Taylor stated that the transaction connected with the sale of the Custom-House property was as clean and incilled a transaction as any

and intelligent a transaction as any ever made by a public officer. The resolution of Mr. Suizer provides that the Attorney-General shall furnish information about the deed. The committee agreed to make a favorable re port on Mr. Bulzer's resolution after it shall have been amended so that the Secretary of the Treasury is named as the official of whom information con cerning the Custom-House sale shall

Members of Black Hundred Killed and Maimed in St. Petersburg Tavern-Campaign of Assassination Begins.

ST. PETERSBURG, Feb. 2.-The war between the fighting organization of the revolutionists and the so-called Black Hundreds assumed a new phase tonight when a band of Reds surrounded the Cabaret Schlussecherg Chaussee, on the bank of the Nevsky River and threw a bomb among an assemblage of workmen. The Reds then opened fire on the panic-stricken inmates of the cabaret. Killing two and seriously wounding 18, of whom died while being taken to the hor

Military detachments, which are con stantly patrolling the turbulent indus-trial suburbs, hurried to the scene of the disturbance, reinforced by dragoons and police from the city, and threw a cordon around the whole district. Most of the revolutionists made off at the approach of the troops, but a few bolder spirits re-mained and offered a desultory resistance to the encircling soldiers. Wholesale ar-rests were made, which were still contin-

a window into the main room of the res-taurant, demolished almost the entire building. A wooden partition was blown out and much furniture, glassware and crockery was shattered. The ruins were spattered with liquor and blood and pieces of flesh, the whole presenting a sickening sight.

The restaurant had been for some time known as a resort of the lower order of workingmen and rough characters, who were believed to be in the employ of the police were accused not only of fur-nishing information about revolutionists but also sallying out at night and con-ducting searches on their own account and beating students who were mem-

bers of the opposing faction.

The killing of three workmen at the Putiloff factory yesterday and tonight's episode are believed to be but prelimi nary to other acts of retallation and re-

TERRORIST CAMPAIGN IS ON

Rebels Kill Two to Ten Hostile Officials Daily.

ST. PETERSBURG, Feb. 2.-Three em ployes of the Putiloff works, belonging to the party of active struggle against revolution and anarchy, the so-called "Black Hundred," were surprised and killed yes-terday by a party of revolutionary work-men. They were accused of furnishing the police with lists of revolutionary workmen and with assisting in making arrests and searches.

The Terrorists' campaign has been vigcrously prosecuted in the provinces of late. From two to ten attempts on the lives of officials and police are reported

daily.

The disclosures regarding the importation of arms into Finland have been followed by the revelation that arms in large
quantities have been openly imported
through the custom-houses at Reval and
other Baltic peris and forwarded to Moscow and other places in the interior. The sureaucratic official at Reval declared in bureasoratic official at Reval declared in his justification that the law only pro-hibited the importation of military arms of the Russian pattern and said nothing about consignments of Mausers of the French and Belgian types which are now being confiscated. Guards have been placed on the Island of Margarn, where suspicious ships have
