Francis Joseph Puts End to Hungarian Diet.

RULES LIKE AN AUTOCRAT

Soldiers and Police Compel House to Dissolve—Deputies Deny Power of Officers, and Will Meet Again, Despite Monarch.

BUDAPEST, Feb. 19.—The Hungarian Parliament was dissolved this morning with the use of force. The floor and corridors of the building were cleared by the police. There was no resistance and no disorder. The members of the Coalition party declared that the dissolution was unconstitutional and illegal and that they would hold a meeting Wednesday in Parliament building unless prevented by troops, in which case the meeting will be held elsewhere.

SWIFT SPECIAL TO BOISE

Orchard, who is charged with the Steuenerberg murder. This confession, it is asserted, disclosed the plot to kill ex-Governor James H. Peabody, of Colorado; William H. Gabbert, Chief Justice of the Colorado Supreme Court, and John Campbell, ex-Chief Justice. Orchard is said to have confessed that wholesale assassinations were planned at the headquarters of the Western Federation of Miners in Denver, chiefly by refugees from the camps at Cripple Creek and Telluride. It is also said that Orchard's confession gives a history of the explosion at the Independence depot near Cripple Creek on June 4, 1904, which killed 14 men and injured many others.

Force Emitters Deputies.

The deputies, already embittered, were still further exasperated when, on arriving, they found the building closed. This outward evidence of an intention to coerce the deputies settled the wavering and, when the time came to vote, there was no dissent of opinion. Owing to the absence of illness of President Jurk, Vice-President Rakovsky opened the session. He demanded the withdrawal of the police from the precincts of the House, and the Chief of Police declined to do so, and the exalted deputies vehemently protested against this indignity. He urged the House to disperse without further delay.

Bombs to Kill Justices.

It develops that Orchard's confession, according to the best authority, stated that bombs had been placed in the gateways of the residences of two members of the Colorado Supreme Court and that more than a dozen attempts had been made to assassinate ex-Governor James H. Peabody. An investigation since the alleged confession was made disclosed the presence of bombs in exactly the spots indicated. The man who unearthed the bombs, a prominent member of the Colorado National Guard, is now in Idaho, having accompanied the party that returned with Meyer, Heywood and Peabody. He will appear as a witness in the Orchard trial, to prove the truth of the alleged confession.

Victory for Coalition.

Speaking to the Associated Press this afternoon, Count Albert Apponyi, who, with Francis Kosuth, leads the coalition parties, expressed himself as highly satisfied with the events of this morning. He said that he considered that the coalition had gained a signal victory over the crown as the result of the crown's method of attempting to dissolve the Parliament, which he characterized as illegal. Count Apponyi declared that the deputies would proceed to the House on Wednesday, but, if prevented from entering, they would retrace their steps without disorder.

'Cause of Hungary's Demands.

Hungary is a crippled nation without her own army. She is like a man deprived of one limb. Obligatory military service for all Hungarian youth for three years in an Austrian army under the Austrian flag tends strongly to demoralize them and counteract at their age all instruction and training along the lines of national loyalty and patriotism received up to the time they entered the army. Military service in an Austrian army tends to demoralize them and to destroy the sense of national identity and to bring them to the use of the Hungarian flag and emblems in our army.

Kings' Speech Promises Concessions to Ireland and Self-Government for Transvaal—Chamberlain Leads Attack on Cabinet.

LONDON, Feb. 19.—The pointed reference to Ireland contained in King Edward's speech to the houses of Parliament today, coupled with the announcement of the determination to grant constitutional government to the Transvaal, brought these two questions immediately to the front in the debate in the House of Lords and the House of Commons on the motions on the address in reply to the speech from the throne. In the former house the debate was almost perfunctory, except where Lord Lansdowne, assuming his new role of leader of the opposition, pointed out certain dangers connected with the proposed changes and incidentally came in for a severe reprimand from the government.

Famine in North Causes Relief Movement World Over.

VICTORIA, B. C., Feb. 19.—The terrible distress prevailing in the three famine-stricken districts of North Japan is exciting profound sympathy elsewhere in the Empire, and the British Government has offered for the arrest of the would-be assassins.

Redmond Wants More.

The reference to Ireland in the King's speech was received with mixed feelings and some degree of doubt. The Nationalists are non-committal and do not accept as more than a promise of a step toward self-government. John Redmond, who followed the Premier at the night session, boldly announced that the Nationalists would not be satisfied with anything short of complete self-government. On the other hand, some of the less radical Irish members do not hesitate to say that the clause in the King's speech means a modified form of self-government and that Mr. Redmond should be satisfied with such a step, as it would surely guarantee home rule in the future.

Will Fight Home Rule.

Mr. Chamberlain lengthily discussed the proposed changes in the government of the Transvaal. He delivered a fighting speech. He demanded that the government declare its position regarding the proposed legislation for South Africa and Ireland and said that any measure looking to home rule would meet with strenuous opposition. He also warned the government not to be misled by the fact that the House of Commons had passed a resolution in favor of home rule in accordance with the wishes of the whole country.

Bowles Will Fight Balfour.

LONDON, Feb. 19.—The Liberals of the City of London have changed ground since Saturday and after several conferences, they have decided to support the Free Trade Unionist candidate for mayor, where he was defeated by a tariff reformer, tonight definitely elected him as mayor. Mr. Balfour, however, has not been able to get into the city.

Give Ireland Voice in Affairs.

The speech closed with a mention of prospective legislation. An important paragraph devoted to Ireland was as follows: My ministers have under consideration plans for immediately improving and effecting the transfer of power to the government of Ireland, and for introducing therein the means for associating the people with the conduct of Irish affairs. It is my desire that the government of the country, in reliance upon the ordinary law, should be permitted, so far as existing circumstances permit, in a spirit of respect for the wishes and sentiments of the Irish people and I

VICTORIA, B. C., Feb. 19.—The Athenian from the Orient, brings advice of the increase of anti-foreign feeling in China, to which some officials are giving encouragement. Shanghai papers call attention to the anti-foreign action of Viceroy Chou Ts. following the recent riots regarding the mixed court at Shanghai, he having decided to build a jail for the custody of prisoners held at the mixed court at a cost of \$500,000. The North China Daily News says there was absolutely no need for such an establishment, the new municipal jail serving the purpose, and declares the action as simply due to ill feeling and ill temper, translating into action the anti-foreign feeling.
