MINERS' UNION

Bituminous Operators Are Said to Have Agreed to Restore Reduction in Wages.

MORE MAY BE CONCEDED

Mineowners Will Be Forced to Follow Example Set. Says Vice-President Lewis. of the Mineworkers.

INDIANAPOLIS, Ind., Feb. 26.-In a statement issued tonight to the Associated Press, Vice-President T. L. Lewis, of the United Mineworkers of America, declares that there will be no strike of the mineworkers April 1, saying the operators will restore the reduction accepted by the miners two years ago, and perhaps more. The statement is as follows:

You may accept one proposition as a fixed fact-that there will be no strike in the mining industry April 1. The operators will restore the reduction accepted by the miners two years ago, and perhaps more. F. L. Robbins, of Pennsylvania. and Mr. Taylor, of Illinois, leaders of the operators, recognize their untenable position at Indianapolts, and have gracefully submitted to the inevitable, and will pay an advance to the miners.

'A general strike will be averted. Business will not be paralyzed by industrial strife. An era of peace will be established for another period of years, and the tradeagreement method of settling labor disputes will win new friends to its standard. Pressure on Anthracite Operators.

"The anthracite operators must now grant an advance in view of the action

of the bituminous operators. The details will be worked out later.

and probably through a special National convention of the mineworkers. For two years it has been my deter

mined purpose to have all wage agree ments of the miners terminate on the same date, so that unity of action might be secured without violating existing agrements on April 1, 1906. The first move in this direction was made in Pittsburg. Kan., in the Summer of 1904, when the expiration date of the contract was extended from the end of August to the end of March, this year. Practically all our agrements expire March 31 next. By virtue of this arrangement the mineworkers of the country are now in a position to empel the operators to deal with us justly.

"At the recent joint convention I advocated an advance for the minere, because I believe they are entitled to it.

Prosperity of Affected Interests.

"The iron and, steel industry and the railroads of the country-the very large consumers of coal-were never more prosperous than now. From admissions made by those engaged in the production of coal and dependent largely upon the abovenamed industry, it must be apparent that a few cents per ton advance to the miners tinued prosperous condition of the iron, steel and railroad interests.

"The operators at the recent Indianspolis convention showed the strongest evidence of the weakness of their position when they ignored our arguments that they could pay an advance to the mineworkers at the present selling price of coal and still make a large profit. Developments will prove additional facts: First-That some of the corporations

represented at the recent Indianapolis joint convention were not in a position to make a successful resistance of the miners' demands

"Second-That the great coal-consuming public will not materially suffer by reason of the advance which will be granted to

No Change, Says Chairman Robbins.

PITTSBURG, Feb. 25.-Francis L. Roboins, chairman of the executive board of the Pittsburg Coal Company, and one of the operators who was a party to the interstate agreement, was not in the city tonight, but earlier in the day he said: There has been no change in the sit-

uation between the bituminous coal operators and the United Mineworkers regarding the arrangement of a new wage agreement for the year starting April 1 There can be no compromise offer to the miners without a meeting of the operators who are members of the interstate agreement, and no such meeting has been held, nor has one been called. The dispute between the miners and the operators remains identically as it has been since the adjournment of the joint conference in Indianapolis."

of a passenger train at Buick Station youterday, which blocked the track. They are expected to pass through here about 5 A. M. tomorrow.

It is stated that they were being rushed through under contract with rushed through under contract with the War Department by the Southern perific, in time to embark on a transport sailing from San Francisco tomorrow morning. Unless the transport is held they will not now be able to reach there in time for its sailing. It

is stated that the men are going with the expectation of seeing active serv-ice in the Orient in the near future. One train is made up of 11 conches of baggage, while the officers and men are traveling in 20 coaches in the two other trains. The trains left New York at midnight of the 20th inst.

SAN FRANCISCO, Feb. 25.—No transport is scheduled to sail from here to-morrow. The next one to sail is the Logan, which is to leave March 5.

BAN FRANCISCO, Feb. M.-It was stated at Army headquarters tonight that the troops referred to in the dis-patch from Los Angeles will not be sent to the Orient, but will be stationed at San Prancisco. They were being sent from New York to make room for troops ordered there.

Policemen Burke and Ellis, who pa trolled the flume, telephoned into headquarters late last night that Mr. Pence and Mr. Idleman, the attorney, had tried to induce them to return to the city. They said that Mr. Pence and Mr. Idleman had told them that everything had been settled with the Mayor and that the officers were to return to headquarters. No directions were received at the police station from Mayor Lane, and the officers were instructed to remain on the detail.

LAFE PENCE'S STORY.

He Declares That Macleay's Wishes Were Misunderstood.

"When the Park Board refused my pe-tition it was my personal petition and the company had not been incorporated," said Mr. Pence yesterday afternoon following the visit of the Mayor and the members of the police force. "I secured a copy of the deed and carried it at once to Mr. Martin. He promptly said that he was man enough to undo the harm he had done me by speaking to the members of the Board, and I had no doubt but that he did so. I also spoke to the Mayor on the subject, and he was surprised and immediately expressed his unqualified opinion that of course I should be permitted to make the improvements without any further obstruction.

"I spoke to the member of the Board who had opposed me, and he admitted that he had known all the time of the language in Mr. Macleay's deed, but he refused to tell and has not told yet the real facts. I also know why he opposed me and haven't told yet.

"My ditch system as constructed is not as originally surveyed and staked, because one landowner on my high line objected. That was the Ibex Land Company. My first survey crossed a corner of its land up in the hollows of Balch Basin. It kindly stood by and let me clear off the right of way and remove the stumps and logs. Then, in my absence from the city and without notice, enjoined me from constructing there. I cleared a strip about 500 feet long.

"I had an interview with its lawyer and my attorney, C. M. Idleman, which made perfectly clear to me that there must be some close relationship between the Ibex Land Company and the obstructionist upon the Park Board. I declined the opportunity to make my way easy with

Battle Cry, Says Beveridge.

INDIANAPOLIS, Ind., Feb. 25.-Senator Beveridge was the principal speaker at the celebration of Washington's birthday by the young Men's Christian Association

of Indiana today. There were delegations present from all parts of the state.

"The spirit of Washington," said Senator Beveridge, "bids the American people today to sober itself from the saturnalia of personal and National extravagance. We need a revival of the stern and healthful virtues of the early republic. And for that revival God has given us a leader who is strong enough to challenge abuse, however powerful and wherever found, and fearless enough to demand that we Americans personally and Nationally acquire that discpline of character, that regulation of conduct which constitutes sane and honest living.
