

ANTI-SALOON LEAGUE ARREST SALEM

Card Case in Pocket Saves the Life of Paul Rader, League Organizer.

SLASHED ON RIGHT HAND

Wounded Man Pursues His Assailant, and Catches One by the Collar, but Stumbles and Loses Grip.

SALEM, Or., Feb. 27.—Paul Rader, who came to this city today, intending to organize an Anti-Saloon League, while walking in the street about 6:30 this evening near an alleyway, was attacked by one of two men who met him, and was stabbed over the heart with a long knife, the blade of which struck in a pocketbook in his vest pocket, which probably saved him from serious consequences.

Rader grappled with his assailant, and both rolled into the gutter, but the fellow escaped from him and ran, as did his companion. As the assailant struck at Rader, he said: "You—stoolpigeon, I'll fix you." Rader threw up his arms and received a severe cut three inches long on the hand. Rader thinks the man came on the same train with him from Portland. He describes him as being five feet six, 20 years old, black hair, black mustache, slothly appearance, square-cut coat, with some appearance of being an Italian. Officers are searching the city for the thief.

Paul Rader went to Salem from Woodburn this morning, to attend a meeting of Salem pastors tonight. He is staying with his brother, Ralph Rader, at the Brown boarding-house, corner of Commercial and Third streets. He is accompanied by H. L. McCabe, the minor who was engaged to procure evidence against developers in Portland. When seen tonight, Rader gave a full account of the attack upon him. He said: "I left the house about 6:30 and went south on Summer street to Chemeketa and crossed over to the west side of Summer. Two men were standing on the sidewalk at the corner, but I did not pass them, as I cut across the corner on the grass and went across Chemeketa street. The two men followed me, and I reached the other side of the street one of the men said, 'Partner, and I partly turned and asked, 'What is it?' He said: 'Which way is the depot from here?' 'I am a stranger here and had to think a moment, but as soon as I got my bearings I raised my umbrella to point the direction. At that instant one man hit me in the back of the head with the other, who was at my side, struck me in the left breast. I was not looking at him and did not see a knife. I threw up my left arm to guard myself and felt a knife drawn across the back of my left hand.

"The two men broke and ran west on Chemeketa street over a sidewalk partly torn up, and I took after them. As they turned into the alleyway, I saw the coat of the man who stabbed me, but just then I tripped over a fallen fence and lost my hold. I was shouting for assistance, and some college boys came running to watch while I went back to the house for a revolver, but we could find nothing of the men, and I went to the Sheriff's office and reported the assault. "I would know the man if I should see him again. I saw him on the car platform at Woodburn, and I noticed that as he passed through the car he looked at me closely. I met him this afternoon as I was crossing Court street, but did not notice him paying any particular attention to me. "I am not prepared to think anyone hired him or advised him to make the assault. When he spoke to me tonight he was close to me, and I noticed a strong smell of liquor on his breath. "The pocket-book which contained the assassin's knife is a small leather card-case, containing about a dozen cards. The knife cut quite a hole in the coat, went through the lining, and cut through the thickness of leather and half a dozen cards, showing that a hard blow must have been struck. The cut across the hand was made at the home of her parents, in Corvallis, Sunday evening of typhoid fever. She was 19 years old. A younger sister is not expected to live, being attacked with the same disease.

ALBANY, Or., Feb. 27.—(Special.)—To guard against the introduction of disease into Albany from infected Valley cities local officials tonight decided to adopt stringent measures. Mayor Wallace and Chief of Police McClellan, constituting the City Board of Health, will tomorrow select a city physician to superintend the work. Dr. W. H. Davis, ex-Mayor and now County Physician will probably be chosen. Albany is now free from disease, except a few cases of measles, but the spread of typhoid fever in nearby cities and a smallpox epidemic at Lebanon, discovered yesterday, demand urgent action.

YOUNG WOMAN DEAD, SISTER DYING. CORVALLIS, Or., Feb. 27.—Miss Eva Belle Day, daughter of Mr. and Mrs. John Day, died at the home of her parents, in Corvallis, Sunday evening of typhoid fever. She was 19 years old. A younger sister is not expected to live, being attacked with the same disease.

PACIFIC COAST DEAD. Miss Belle McFarland. ASHLAND, Or., Feb. 27.—(Special.)—Miss Belle McFarland, a student at the Southern Oregon Normal School at Ashland, and daughter of Mr. and Mrs. Charles McFarland, of Lowell, Lane county, died here this morning. She had been ill about two weeks and finally succumbed to appendicitis, this ailment having developed during the latter part of her illness. She was just 21 years of age, a great favorite among fellow-students and a member of the Normal School basketball team. Services were held this afternoon at her school home on Seventh street and the remains taken north on tonight's train. Burial will be made on Wednesday at Pleasant Hill cemetery.

Figured on a Big Profit. VICTORIA, B. C., Feb. 27.—(Special.)—At the Parliamentary investigation concerning the sale of Kalien Island to the Grand Trunk Pacific today, it was brought out that P. Larsen, the railway contractor of British Columbia, and James Anderson, of Victoria, were to have received \$60,000 from the railway company for the island, or four times as much as paid to the province.

Team to Debate Pacific. UNIVERSITY OF WASHINGTON, Seattle, Feb. 28.—(Special.)—Clarence D. Martin, Victor H. Zednick and Harlan Trumbull have been chosen to represent the University of Washington in a debate with the University of Oregon, April 20, at Forest Grove.

Big Season for Salmon. HOQUIAM, Wash., Feb. 27.—(Special.)—The run of steelhead salmon is nearly over, and March 15 the season closes. The catch on Gray's Harbor this season has been the greatest in the history of fishing, and the shippers have done

TACOMA LABOR MEN TO MEET

Decision Will Be Reached on Plan to Name a City Ticket.

TACOMA, Wash., Feb. 27.—(Special.)—Political circles are much interested in the outcome of the union labor meeting to-morrow evening to discuss politics. The meeting will be held closed doors. Only invited delegates from unions, each of which has chosen two representatives, will take part.

The union labor men will consider three proposals, and one of the three will be adopted. These proposals are: First, to call a union labor convention and nominate an independent city ticket; second, to demand of the present candidates for Mayor certain promises to labor interests; third, to remain out of politics altogether. Labor men persist in the statement that none of the present candidates for Mayor can secure the indorsement of the labor unions. They further say that no new candidate has been suggested as the possible standard-bearer of the labor forces.

BOND REHEARING IS DENIED Famous Montana Case May Now Go to Supreme Court.

HELENA, Mont., Feb. 27.—The Supreme Court of Montana today denied the petition of Architect C. S. Halre for a re-

SITE FOR A TUNNEL

Union Pacific Granted Right of Way in Tacoma.

TO REACH DEPOT GROUNDS

Total Expenditures of the Railroad Agents in Puget Sound City Now Foot Up More Than Two Million Dollars.

TACOMA, Feb. 27.—(Special.)—Following the purchase of property on Pacific avenue, between Thirtieth and Fifteenth streets, presumably for a site for the Union Pacific depot, the Pacific Brewing & Malting Company has granted the road a right of way for a tunnel or other purpose through the company's property on Jefferson avenue. The brewery company does not want to sell that property, and has refused to set a price and declined to entertain an offer. The right to tunnel under the property

lands held the prior rights to purchase them within 90 days. What the extent of these operations are cannot yet be ascertained and everything along the line of purchasing the options has been done very quietly.

BRAVE ENGINEER KILLED.

Tries to Stop Machine in Wreck and Is Caught.

GREAT FALLS, Mont., Feb. 27.—A Tribune special from KallsPELL says: L. M. Fox, engineer in charge of the KallsPELL yard engine, was killed this afternoon while hauling a string of empties from KallsPELL to Marion. A broken rail two miles west of Sedan caused the switch engine to leave the track, just as it crossed a trestle. Fireman Arthur Lister escaped with slight injuries, but Engineer Fox stayed with the engine to reverse and throw on the air, and was caught in the overturn. He was crushed by the locomotive and lay under the wreck dead for six hours, awaiting the arrival of the wrecker.

TRIES TO SAVE KID WHITE

Hilderbrand Makes an Alleged Confession at Walla Walla.

WALLA WALLA, Wash., Feb. 27.—(Special.)—Jack Hilderbrand, who is serving a life sentence in the penitentiary, today made an alleged confession, in which he attempts to save the neck of "Kid" White, who is sentenced to hang next Friday morning. Hilderbrand alleges that

QUINUAULT INDIANS UGLY

ANGER ROUSED BY POISONING OF THEIR DOGS.

Blame Cook of Government Survey Party, and Agent Moves His Family in Fear.

HOQUIAM, Wash., Feb. 27.—(Special.)—The indications at the Quinuaunt agency have been threatening serious trouble of late for the white employees of the Government on the reservation. This morning things presented such an unfavorable appearance that Subagent Vanvorhies thought it a wise move to take his wife and leave the settlement at Meclips. The trouble seems to have originated over the poisoning of a number of reservation dogs. A month or so ago Mr. Vanvorhies compelled Willie Mason, an Indian, to take a number of sheep he had running at large at the agency at Grandville to his ranch near Point Grandville. Mason for a time refused to obey the orders of the agent, on the grounds that he feared that dogs would destroy his sheep. The agent, however, assured him that he would see that the owners of the dogs, and should any sheep be killed by dogs he would compensate him for them. A week or ten days ago several of the sheep were killed, and Mason demanded that the agent secure him pay for them.

Candidates in Clackamas.

OREGON CITY, Or., Feb. 27.—(Special.)—W. H. Counsell, of Milwaukie, will be a candidate for the nomination for County Commissioner. There are already four other candidates in the field for the nomination, as follows: Ex-County Commissioner John Lewellen, of this city; W. H. Mattoon, of Viola; F. J. Harkenshimer, of Escatawa; and W. S. Rider, of New Era. J. J. Campbell, of this city, will be a candidate for the Republican nomination for Joint Representative from Clackamas and Multnomah counties. He is preparing his petition, and will announce his platform in a few days. It is likely Mr. Campbell will be the only nominee for the office from this county, and Republicans here think that Clackamas is entitled to recognition at this time.

Boiling Tar Started Blaze.

ASTORIA, Feb. 27.—(Special.)—The residence of Edward Franklin, about three miles above Cathlamet, was totally destroyed by fire Sunday morning. Franklin was engaged in boiling tar on the stove, and when he left the house for a few moments the tar boiled over and started the blaze. The loss is \$1000, with no insurance.

McIntyre Lost to the Team.

UNIVERSITY OF OREGON, Eugene, Feb. 27.—(Special.)—Walter McIntyre, who played right guard on the varsity football team, gave up college for the

HARRY MURPHY SKETCHES MEMBERS OF THE PORTLAND COMMITTEE WHICH WENT TO SEATTLE TO WELCOME THE CHINESE IMPERIAL COMMISSION

A. D. Charlton. Solid Rock, Jr. Two Views of W. D. Whitebright. F. A. Doney, Board of Trade.

bearing in the now famous "bond-issue" case. The court recently held that bonds issued in connection with lands included in the Federal school grants to the state government are illegal, and that the State Treasurer to pay a warrant issued against such bonds. The case now either go to the Supreme Court of the United States or the bondholders must signify their willingness to abide by the action of the state Legislature. Governor Toole has already expressed the opinion that the state still owes a moral debt to the bondholders, even if the courts have held the debt to be illegal, and advocates the calling of an extra session of the Legislature to remedy the matter.

ALARM FELT AT ALBANY

Typoid and Smallpox Are Raging in Other Willamette Valley Towns.

ALBANY, Or., Feb. 27.—(Special.)—To guard against the introduction of disease into Albany from infected Valley cities local officials tonight decided to adopt stringent measures. Mayor Wallace and Chief of Police McClellan, constituting the City Board of Health, will tomorrow select a city physician to superintend the work. Dr. W. H. Davis, ex-Mayor and now County Physician will probably be chosen. Albany is now free from disease, except a few cases of measles, but the spread of typhoid fever in nearby cities and a smallpox epidemic at Lebanon, discovered yesterday, demand urgent action.

YOUNG WOMAN DEAD, SISTER DYING. CORVALLIS, Or., Feb. 27.—Miss Eva Belle Day, daughter of Mr. and Mrs. John Day, died at the home of her parents, in Corvallis, Sunday evening of typhoid fever. She was 19 years old. A younger sister is not expected to live, being attacked with the same disease.

PACIFIC COAST DEAD. Miss Belle McFarland. ASHLAND, Or., Feb. 27.—(Special.)—Miss Belle McFarland, a student at the Southern Oregon Normal School at Ashland, and daughter of Mr. and Mrs. Charles McFarland, of Lowell, Lane county, died here this morning. She had been ill about two weeks and finally succumbed to appendicitis, this ailment having developed during the latter part of her illness. She was just 21 years of age, a great favorite among fellow-students and a member of the Normal School basketball team. Services were held this afternoon at her school home on Seventh street and the remains taken north on tonight's train. Burial will be made on Wednesday at Pleasant Hill cemetery.

Figured on a Big Profit. VICTORIA, B. C., Feb. 27.—(Special.)—At the Parliamentary investigation concerning the sale of Kalien Island to the Grand Trunk Pacific today, it was brought out that P. Larsen, the railway contractor of British Columbia, and James Anderson, of Victoria, were to have received \$60,000 from the railway company for the island, or four times as much as paid to the province.

Big Season for Salmon. HOQUIAM, Wash., Feb. 27.—(Special.)—The run of steelhead salmon is nearly over, and March 15 the season closes. The catch on Gray's Harbor this season has been the greatest in the history of fishing, and the shippers have done

indicates that the railroad will extend a tunnel across Pacific avenue at Fifteenth. Here the tunnel could end in a bridge that would extend over the city waterway, and by a viaduct to the Union Pacific depot grounds on the tidelands near the St. Paul mill.

The total amount of money spent for property on Pacific avenue, Center street and lately on Pacific avenue by agents acting for the Union Pacific interests is more than \$2,000,000.

TRACK CHANGE AT ALBANY

ALBANY, Or., Feb. 27.—(Special.)—The Southern Pacific yards at Albany will soon be changed so that the passenger depot and railway hotel here will be located on the city side of the yards. Such was the authoritative announcement made at the meeting of the City Council tonight. This is a change the city has sought for years. It will necessitate an expenditure of several thousand dollars.

In asking for permission to locate storage tanks here to supply the new oil-burning engines, J. B. Eddy, assistant right-of-way agent, said the Oregon management of the road had requested the head of the system to make the change, and it would doubtless follow. He said the location of the proposed tanks had been selected with a view to making the change. Superintendent L. R. Fields and party were in Albany today viewing the yards. As the yards are now situated, travelers and citizens must cross most of the tracks to reach the depot. Because of the great road and branch lines which crisscross the switching business in Albany is increased, and the location of the tracks has been a menace to life and an impediment to transportation traffic. The city has petitioned for the change many times, and delegations of citizens have called on railroad officials in Portland for years with the result that the announcement tonight caused widespread comment and great satisfaction.

Won by Canadian Pacific.

VANCOUVER, B. C., Feb. 27.—A local cause celebre, which has gone through all the courts of British Columbia and the Supreme Court of Canada, was settled today by the judicial committee of the Privy Council, which decided what is known as the street ends against the City of Vancouver and in favor of the Canadian Pacific Railway. The action was brought against the Canadian Pacific for a declaration that the public has a right to access to the sea over and through the company's railway embankment via Cambie street, Abbott street and Carroll street in this city and for appropriate relief against the company for its interference with such right of access.

Indians Paid for Right of Way.

GILDEDALE, Wash., Feb. 27.—(Special.)—The Superior Court convened today in a leisurely session. A number of North Bank road right-of-way condemnation cases were on the docket, but most of them were postponed until April 10, when a regular jury will be impaneled. In a case brought by the Portland & Seattle Railroad Company against a number of Indians and A. L. Bunnell, a stockman, having some Indian land leased opposite Cello, Judge McCredie issued a special venire for a jury to try this case. The jury returned a verdict awarding \$634 for 63 acres taken as right of way. The case of the Columbia Valley Railroad Company vs. W. A. McCredie, involving right of way over a tract of land opposite Arlington, was dismissed.

Tidelands Sold on Gray's Harbor.

HOQUIAM, Wash., Feb. 27.—(Special.)—It is reported today that representatives of the Chicago, Milwaukee & St. Paul Railroad Company have obtained tentative options on lands on Gray's Harbor for the purpose of securing valuable tidelands abutting thereon. The tidelands on this harbor belong to the state and are sold by the state at appraised value, but the persons who own the abutting property to these

lands was a shot from his revolver, instead of White, that killed Murphy, and the moon on the night he held up and robbed the place. The confession was made in the presence of Warden Kees and a stenographer, the former questioning him during the recital of the circumstances of the crime.

Hilderbrand made a very poor showing in his confession, and it amounts to nothing, except that he seems to want to take the blame for firing the shot that White has admitted he fired, "because Murphy did not get his hands up quick enough." A reading of the typewritten copy leaves only an impression of a last and labored attempt to save the life of a companion in crime. To do so Hilderbrand says he planned the holdup and was the means of getting the "Kid" into the trouble. In response to a question, the convict says that he himself should have been convicted of murder in the first degree, and "Kid" White of murder in the second degree.

Collins is Found Guilty

San Francisco Jury Brings in Verdict on Perjury Charge.

ASTORIA, Or., Feb. 27.—(Special.)—Not a jury trial has been held at the present session of the Circuit Court, and Judge McBride announced today that, unless some cases are ready for trial, he will discharge the jury tomorrow.

Wharf at Bremerton Yard.

SEATTLE, Feb. 27.—Captain W. T. Barwell, commanding the Puget Sound Navy-yard at Bremerton, today received notification from Washington that plans for the proposed \$50,000 wharf at the yard had been approved. Work will begin at once.

McIntyre Lost to the Team.

UNIVERSITY OF OREGON, Eugene, Feb. 27.—(Special.)—Walter McIntyre, who played right guard on the varsity football team, gave up college for the

coming semester and returned to his home at Ashland yesterday. McIntyre was entirely successful at the recent examinations, and leaves behind him a record as a good student. His reason for dropping out at this time is that he was short on finances. The absence of the big guard from college now will

weaken somewhat Oregon's chances on the track, since he was a promising man in the 220-yard dash and weight events.

PERIODIC PAINS.

Dr. Miles' Anti-Pain Pills are a most remarkable remedy for the relief of periodic pains, backache, nervous or sick headache, or any of the distressing aches and pains that cause women so much suffering.

As pain is weakening, and leaves the system in an exhausted condition, it is wrong to suffer a moment longer than necessary, and you should take the Anti-Pain Pills on first indication of an attack.

If taken as directed you may have entire confidence in their effectiveness, as well as in the fact that they will leave no disagreeable after-effects.

They contain no morphine, opium, chloral, cocaine or other dangerous drugs. "For a long time I have suffered greatly with spells of backache, that came almost every month. These attacks come on every month, and last two or three days. I have never been able to get anything that would give me much relief until I began the use of Dr. Miles' Anti-Pain Pills, and they always relieve me in a short time. My staves, who suffer the same way, have used them with the same results." MRS. PARK, 721 S. Michigan St., South Bend, Ind.

Dr. Miles' Anti-Pain Pills are sold by your druggist, but will guarantee that the first package will benefit. If it fails he will return your money. Do not buy a cheap imitation. Buy the genuine. 25 cents a box, 50 cents a dozen.

Miles Medical Co., Elkhart, Ind.

Why Refer to Doctors

Because we make medicines for them. They know all about Ayer's Cherry Pectoral, so they prescribe it for coughs, colds, bronchitis, weak lungs, consumption. They trust it. Then you can afford to trust it. Consult your doctor about it, anyway. Sold for 60 years.

We have no secrets! We publish the formulas of all our medicines.

Made by the J. C. Ayer Co., Lowell, Mass.

How Rapid Life is Killing Our People.

UNPRECEDENTED NUMBER OF DEATHS RESULT FROM HEART DISEASE.

The fact that 125 persons died recently in one week in New York City, from heart disease, when the death rate for the corresponding week in 1904 was only 56, has given rise to the belief among physicians that New York residents, and American people generally, for that matter, are living too rapidly. The strain of business and cares attendant on lives competing for the wages of life, and the anxiety to gain wealth are given as an explanation by physicians of the conditions which exist today.

Doctors have established the fact that the nerve forces which control the stomach and the heart, are affected by the hurry of men in the daily scramble to bolt their food, in order to quickly resume their exciting careers. Many young men now succumb to heart disease, when 50 years ago, a case was rare when a person under 30 years of age died from this malady.

Women are also victims. This is attributed to the manner in which they worry too much, and the strain of over-work. Worry and excitement, together with many nerve shocks which come to all in their daily life, of bustle and haste, are the principal causes which snap the heartstring.

We Americans, both men and women, are living too fast. We work too hard and worry too much. The strain of life is best counteracted, and the damage done is quickest repaired? Only by humorizing and assisting the stomach to act in a normal, healthy manner. Thus, the vitality of blood is secured, the nerves invigorated and the action of an enfeebled heart strengthened and regulated.

Dr. Pierce's Golden Medical Discovery contains just the right ingredients to do this, as will be seen from what eminent medical authorities say of the different ingredients composing it. To make the weakened stomach stronger, and to properly digest the food and thus manufacture rich, red blood. Golden Seal, a prominent ingredient of the Golden Medical Discovery, is especially indicated in this article needed. The late Prof. John M. Scudder, M. D., of Cincinnati, author of "Specific Medication," says of it: "It stimulates the digestive process, and increases the assimilation of food. By this means the blood is enriched."

The consequent improvement on the nervous and circulatory systems are natural results." He further says: "In relation to its general effects on the system, there is no medicine in use about there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

THE UNITED STATES DISPENSARY (Stomach-Booster, Cathartic, and Blood-Purifier) is a remarkable effect upon the mucous membranes. Used in gastro-intestinal diseases, it is especially indicated in cases of indigestion, flatulence, and constipation. In its influence upon the nervous system this agent (Golden Seal), has stimulating properties, affecting respiration and circulation, improving force and increasing power to the heart's action.

Then besides Golden Seal, which, according to the best medical authorities, stands at the head of all stomach and heart tonics and invigorators, there is Stone root (Collinsonia Canadensis), which enters largely into the composition of Golden Medical Discovery, and it is an acknowledged stomach and heart tonic, especially superior to all other remedies in valvular and other affections of the heart. The late Prof. Wm. Pease, M. D., of Philadelphia, says in his work on Concentrated Medicines: "I, not long since, had a patient who was so much oppressed with a valvular disease of the heart, that he was obliged to carry him up-stairs. He, however, gradually recovered under the influence of Collinsonia (the active medicinal principle of Stone root), and is now at-

coming semester and returned to his home at Ashland yesterday. McIntyre was entirely successful at the recent examinations, and leaves behind him a record as a good student. His reason for dropping out at this time is that he was short on finances. The absence of the big guard from college now will

tending to his business. Heretofore physicians knew of no remedy for the removal of so distressing and so dangerous a malady. With them it was all guesswork, and it finally proved the fact that death was near at hand. Collinsonia unquestionably affords relief in such cases, and in most instances effects a cure.

"Golden Medical Discovery" so strongly and faithfully represents the active medicinal principles residing in both Golden Seal and Stone root that it can be depended upon to produce a healthy and best curative effects. It must not, however, be expected to perform miracles. Those who have abused themselves by over-work, and thus injured stomach and heart weakness must not expect a cure from the "Golden Medical Discovery" unless they reform their habits. They must first give their stomach and nerves no over-tax their brains, nerves or muscles, take rational exercise in the out-door air, and simple food and not too much of it, and thus insure a healthy and best curative effects.
