No Explanation Is Offered the Public by Prosecution in Dynamite Case.

GRAND JURY MAKE REPORT

Prisoners in Boise Penitentiary Will Be Taken to Caldwell to Enter Their Pleas-Citizens' Committee in Control.

BY W. G. MACRAE CALDWELL, Idaho, March 2 .- (Staff correspondence.)-At last the indictments against the men implicated in the assausination of ex-Governor Steunenberg have

been returned. Those indicted are: Harry Orchard, separate indictment, Charles Moyer, president of the Western Federation of Miners; William Haywood. secretary; George Pettibone, member of the executive board.

As predicted, no indictments were reurned against Steve Adams and Vincent St. John. Just why Adams, whose confession was recently added to that made by Orchard, was not indicted with the others is known only to the prosecution. They refuse to offer the public an explanation, and they even refuse to state whether he is likely to be indicted.

It is almost certain that the 16 men who compose the grand jury heard some evidence against St. John, but it was, evidently not sufficient upon which to indict.

SAN FRANCISCO, March 7 .- (Special.)—The Oakland Gas, Light & Heat Company today announced a voluntary reduction in the cost of gas from \$1.25 to \$1.15 per 1988 cubic feet for illuminating gas, and from \$1 to 90 cents per 1000 feet for fuel gas. The new rates will be effective May 1. The company made the reduction witnout awaiting the action of the

Board of Supervisors of Alameda County. The recent reduction of the rate in San Francisco to \$5 cents and the reductions made in New York and Chicago are understood to have prompted the gas company to act voluntarily. This, it is believed, will head off any action that may have been contem-

plated by the Supervisors.

The advantage gained by the gas company by acting on its own initia-tive is manifest. Gas is made in Oakland by the improved petroleum pro-

less than gas in San Francisco.

If the Supervisors had begun an inquiry into gas rates, the inner conditions would have been revealed, and there is reason to believ that the rate would have been established at 75 cents. The following table gives in concise form the history of gas rates
