RABBI S. S. WISE DENOUNCES FRATS

Secret Societies in the High Schools Menace to Youth of the Land.

Speaker in Address to the Women's Club Tells of the Evil Influence of Fraternities and Sororities.

Fraternities and sororities in high schools were bitterly attacked by Dr. Stephen S. Wise, in an address before the Women's Club, yesterday afternoon, and his unqualified denunciation of secret organizations in public schools was unanimously indorsed by the club as a body. This condemnation was applied only to such organizations in high schools, the speaker emphasizing the fact that his remarks and not apply to colleges or universities, and frankly stating that he was a firm believer in fraternal organizations. His objections to frateruities and sorormies in the public schools was based upon the fact, he declared, that they were a menace and detriment to the American system of education, that they endangered the state, the home, the school and

Most Democratic of States.

"Oregon is the most democratic state in the Union." said Dr. Wisc. "We have the initiative and referendum laws, and will soon enjoy the privilege of equal suffrage; yet, with all the democracy which we enjoy and strive for, we are allowing our boys and girls to do just the things which

we are fighting against.
"If anything is bad for our state and future civilization, it has to go. Frater-nities and sororities in high schools are bad. They are a menace to the future of Oregon. Anything which militates against educational system is to be decried and abolished, for education is the corner-stone of our Republic. We make a tremendous investment annually in the education of the youth of our land, and we want interest and dividends on our investment. Education must yield the largest possible results, and in no wise be hindered. Fraternities and sororities in public schools are a hindrance-they are bad-and it is with us to decide whether they are to go or to stay. This is not a matter to be left to the boys and girls

who are concerned in this juvenile evil. Made for Dissipation and Gossip.

"Fraternities and sororities are the same. The former make a little for the things which approach dissipation; the latter for gossiping, idling, class distinc-tion and jealousies. Both are harmful to the state. The purpose of our educational system is to make intellectual, self-reliant American citizens, Fraternities work ctly against this purpose. They are a reflection of the caste system which is unfortunately beginning to obtain a foot-bold to our land-a caste which has at one end the title-hunting new rich, and daugling at the other the members of fraternities and sororities. Officers of fraternities are not chosen for character and attainments, for fitness or moral worth. but rather for social standing, popularity,

Tammanyism, bossism and tyranny are developing today in our high schools as the result of these secret organiza-tions. They are a regular training ground

Urges Women's Clubs to Act. Dr. Wise applied his remarks to the

High School of Portland and urged the Women's Club and all parents to take action toward abolishing these organiza-tions. He read from a number of the Cardinal of last year, the High School paper, a set of resolutions passed by the different secret organizations of that institution promising not to interfere with school elections or to attempt to put their candidates through for that year. "Listen to these words," said the speaker, reading the resolutions. "Do they smack of summer the compared to the contraction of the con perfority—are they domineering—are they not insolent? I repeat that these fraternities pervert the truest and highest alm of American education. That being so, what is the duty of a city, of a municipal-cakes and other light refreshments ity? We must decide upon this question on the basis of the welfare of the state, the school, the home and the child, and from the whole membership of the High from the whole membership of the High School of Portland. Fraternities are a part of the school laws of our city, and as such are amenable to the laws which we choose to hedge about them. Now what are we going to do about it? Shall we sit the meaning the school Board of the school by the school Board of the school Board of the school Board of the school by the school Board of the school by the school board of the school of Portland. Fraternities are a part of the school laws of our city, and as served and assisted generally, consisted of Miss Sarah Case, Mrs. Alice Mackie, Miss Oreman. Miss Fischer, Mrs. Louise Schwartz, Miss Cunningham and Miss Schwartz. idly by or shall we go to the School Board and ask it to abolish this evil, this men-ace to our public system of education?

Charge of Favoritism.

"I have heard it charged-but I hope it I have neare it charged—but I hope it is not true—that the teachers in our Portiand school are just a little more lenient to members of fraternities and sororities than to other pupils. The members of these organizations generally belong to these organizations generally belong to the better class of families—families which are prosperous or have high social stand-ing, while others are excluded. But is the

Dr. Wise cited many cases where attempts had been made to abolish fraternities in other cities and read interesting extracts from reports of several eminent committees appointed at various times to investigate the subject in the public schools of the country. All of them reported unqualifiedly against them.

BIG SHIPMENTS OF HOPS

Trainload of 2777 Tons From California for England.

SAN PRANCISCO, March 9.—(Special.)—A trainload of hops left Wheatland, Cal. for Gaiveston yesterday to be shipped to New York by water, thence to London. The train consisted of nine cars and carried 2634 bales of an average weight of 190 pounds or a total weight of 694,260 pounds. The bops weighed when green 2,777,040 pounds. It would require 18,515 days for an average hop-picker to gather this amount or about 30 years.

At the present market price the hope are worth about \$69,426, but last year they would have brought \$208,278. The hops were from the Durst Brothers' yards and

AT THE THEATERS

What the Press Agents Say.

TWO PERFORMANCES TODAY

"Little Johnny Jones" Both Afternoon and Night at Marquam.

George M. Cohan's musical comedy sucmatine attraction at the Marquam Grand.
Theater this afternoon at 2:15 o'clock. If you want to see the "real thing" in musical comedy, see "Little Johnny." Last time tonight at 8:15 o'clock.

Special at the Baker Tonight.

Tonight there will be a special last per-formance of the Imperials Buriesque Com-pany. This thoroughly live and progressive organization has chartered a special train to carry them to San Francisco Instead of going on the regular 8:45, as nearly every burlesque commany has done. This enables them to give a special closing performance tonight which will be greatly appreciated by hundred which will be greatly approciated by hundreds of people who are regular Saturday night attendants at the theater. The regular mat-lines will be given as usual at 2:15 this after-noon. The Imperial Buriesqueers is a good company all the way through, and has pleased large audiences at the Baker this week, in spite of heavy opposition in the same line of attraction at all theaters in the city.

Murray and Mack at the Empire.

The big musical farce comedy, "Around be Town," with those two wonderful and original comedians, Murray and Mack, will be given for the last two times at the Em-pire this afternoon at 2:15 and tonight at 8:15. Murray and Mack have been constantly before the public of the United States for al least 16 years, and had no equals in their peculiar and original comedy character team work. It is seldom they are ever seen in so elaborate and complete a production as their this year's vehicle of wonderful success, "Around the Town," It has certainly been the talk of the amusement-loving people around the town of Pértland for this entire week. They have simply packed the Empire to the doors at every performance.

PAUL GILMORE MONDAY.

Popular Actor to Present Romantic Comedy at the Marquam.

Paul Gilmore is coming to the Marquam Grand Theater next Monday and Tuesday nights, March 12 and 13, under circum-stances calculated to delight those who have been won to admiration of his splendid art in the last few years. The favorite young star will reappear in William Par-quhar Payson's and James MacArthur's new spectacular comedy romance, "Captain Deb-onnaire," a play which runs nearly the whole dramatic gamut—from humor almost to tragedy. Those who love to see a beauteous maiden won by a handsome cavaller in face of opposition which can be overcome only by diplomacy and the sword, and who glory in the discomfiture of unworthy suit ors who would heap indignity upon the lady because of her choice, and dishonor upon her accepted one because of his success, are surto revel in "Captain Debonnaire" and in Mr. ore's portrayal of the hero. Campbel Drew sent us the Tiger Lilles last October and memories of this delightful troops at great crithusiasm, and the clearness and and memories of this delightful troops still comprehensiveness of his logic and his linger with all the regular patrons who have been attending the burlesque and extravagains all season at the Daker. The Avenue Girls give two pretty burlesques called, "A Trip to Bobenia" and the "Goddess of the Moon." The girls are especially attractive and live up to their high-sounding title to a surprising degree. The costumes and chorus members have been a feature everywhere, and the vaudeville olio is second to none. The Avenue Girls all next week at the Baker.

"Resurrection" Tomorrow.

Next week, starting tomorrow matinee, the Empire will offer another of its startling changes in style of attraction. "The Resourcection," which will be the offering for the week, is one of the masterpleces of dra-matic fiction. It is the story of a Russian peasant girl who had been adopted and edu-cated by a wealthy family and afterwards. through loving not wisely but too well, it rulned and sinks to lowest depths, is accused of crime and sent to Siberia. Of course it is only a moral obligation in-curred in signing either statement prescribed by the incoherent and cumbersome direct by the incoherent and country pre-primary law, for there is no penalty pre-scribed for violations of the pledge thus eribed for violations of the pledge thus nade. It will be just as easy as ever for the member of the Legislature to vote once for the candidate receiving the plurality or even the majority vote at the polis (pro-vided, of course, his vote will not elect when the Senute and House vote separately) and then claim that his pledge has been re-deemed. Verily, such men have their re-ward as bank examiners, revenue officers

in constructing the Federal system the design was to establish checks and balances which would at once prevent the one extreme of aristocracy grounded in long periods of official fenures and the other extreme of unbridled democracy voiced in the control of the treme of unbridled democracy voiced in mere irresponsible popular clamor. In the 02d number of the Federalist occurs tha following language applicable to the situa-tion: "As the cool and deliberate sense of the community ought in all governments and actually will, in all free governments, ultimately prevail over the views of its rulers. so there are particular moments in public affairs when the people, stimulated by some irregular passion or some illicit advantage or misled by the artful misrepresentations of interested men, may call for measures which they themselves will afterwards be the most ready to lament and condemn." It was to prevent sudden and disastrous changes in governmental policies that the makers of the National constitution so framed that instrument that Representalives in Congress should be elected at short intervals by a popular vote and the Senators for a longer term by the Legislative Assemblies of the different states. The reasons for this provision are as good today as they were when the constitution was written. It affords a protection to the substantial common people from the mercenary floating vote in the cities that often decides the resuit in purely popular elections. The de-liberation it causes in the election of Sen-ators has many times invered to the good of the people and, if they are deprived of it.
